(2) Certain branch income

For purposes of determining foreign base company sales income in situations in which the carrying on of activities by a controlled foreign corporation through a branch or similar establishment outside the country of incorporation of the controlled foreign corporation has substantially the same effect as if such branch or similar establishment were a wholly owned subsidiary corporation deriving such income, under regulations prescribed by the Secretary the income attributable to the carrying on of such activities of such branch or similar establishment shall be treated as income derived by a wholly owned subsidiary of the controlled foreign corporation and shall constitute foreign base company sales income of the controlled foreign corporation.
