

Environmental Protection Agency, in consultation with the Secretary of Health and Human Services, evaluate the feasibility of epidemiological research on the health effects of low-level ionizing radiation exposure to licensee, contractor, and subcontractor employees as a result of the accident of March 28, 1979, at unit two of the Three Mile Island Nuclear Station in Pennsylvania, the efforts to stabilize such facility or reduce or prevent radioactive unplanned offsite releases in excess of allowable limits for normal operation established by the Commission, or efforts to decontaminate, decommission, or repair such facility, with the report required by such section 5(d) of Pub. L. 95-601 to include the results of this evaluation.

STUDY ON HEALTH EFFECTS OF LOW-LEVEL RADIATION;
REPORT TO CONGRESS

Pub. L. 95-601, § 5, Nov. 6, 1978, 92 Stat. 2949, as amended by Pub. L. 96-88, title V, § 509(b), Oct. 17, 1979, 93 Stat. 695; Pub. L. 96-295, title III, § 308(b), June 30, 1980, 94 Stat. 792, provided that the Nuclear Regulatory Commission and the Environmental Protection Agency, in consultation with the Secretary of Health and Human Services, conduct preliminary planning and design studies for epidemiological research on the health effects of low-level ionizing radiation, within thirty days after Nov. 6, 1978, the Commission and the Environmental Protection Agency submit to the Congress a memorandum of understanding to delineate their responsibilities in the conduct of the planning studies, on or before Apr. 1, 1979, the Commission and the Environmental Protection Agency submit a report to the Congress containing an assessment of the capabilities and research needs of such agencies in the area of health effects of low-level ionizing radiation, and on or before Sept. 30, 1980, the Commission and the Environmental Protection Agency, in consultation with the Secretary of Health and Human Services, submit a report to the Congress which includes a study of options for Federal epidemiological research on the health effects of low-level ionizing radiation with evaluations of the feasibility of such options.

§ 2052. Research by Commission

The Commission is authorized and directed to conduct, through its own facilities, activities and studies of the types specified in section 2051 of this title.

(Aug. 1, 1946, ch. 724, title I, § 32, as added Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 928; renumbered title I, Pub. L. 102-486, title IX, § 902(a)(8), Oct. 24, 1992, 106 Stat. 2944.)

PRIOR PROVISIONS

Provisions similar to this section were contained in section 1803(b) of this title, prior to the general amendment and renumbering of act Aug. 1, 1946, by act Aug. 30, 1954.

§ 2053. Research for others; charges

Where the Commission finds private facilities or laboratories are inadequate for the purpose, it is authorized to conduct for other persons, through its own facilities, such of those activities and studies of the types specified in section 2051 of this title as it deems appropriate to the development of energy. To the extent the Commission determines that private facilities or laboratories are inadequate for the purpose, and that the Commission's facilities, or scientific or technical resources have the potential of lending significant assistance to other persons in the fields of protection of public health and safety, the Commission may also assist other persons in these fields by conducting for such persons,

through the Commission's own facilities, research and development or training activities and studies. The Commission is authorized to determine and make such charges as in its discretion may be desirable for the conduct of the activities and studies referred to in this section.

(Aug. 1, 1946, ch. 724, title I, § 33, as added Aug. 30, 1954, ch. 1073, § 1, 68 Stat. 928; amended Pub. L. 90-190, § 7, Dec. 14, 1967, 81 Stat. 577; Pub. L. 92-84, title II, § 201(b), Aug. 11, 1971, 85 Stat. 307; renumbered title I, Pub. L. 102-486, title IX, § 902(a)(8), Oct. 24, 1992, 106 Stat. 2944.)

AMENDMENTS

1971—Pub. L. 92-84 substituted provisions authorizing the Commission to conduct research for other persons for the development of energy, for provisions authorizing the Commission to conduct research for other persons for the development of atomic energy.

1967—Pub. L. 90-190 inserted provision which authorized the Commission, to the extent the Commission made certain determinations, to assist other persons on the fields of protection of public health and safety by conducting for such persons, through the facilities of the Commission, research and development or training activities and studies, and substituted "the activities and studies referred to in this section" for "such activities and studies".

SUBCHAPTER IV—PRODUCTION OF
SPECIAL NUCLEAR MATERIAL

§ 2061. Production facilities

(a) Ownership

The Commission, as agent of and on behalf of the United States, shall be the exclusive owner of all production facilities other than facilities which (1) are useful in the conduct of research and development activities in the fields specified in section 2051 of this title, and do not, in the opinion of the Commission, have a potential production rate adequate to enable the user of such facilities to produce within a reasonable period of time a sufficient quantity of special nuclear material to produce an atomic weapon; (2) are licensed by the Commission under this division; or (3) are owned by the United States Enrichment Corporation.

(b) Operation of Commission's facilities

The Commission is authorized and directed to produce or to provide for the production of special nuclear material in its own production facilities. To the extent deemed necessary, the Commission is authorized to make, or to continue in effect, contracts with persons obligating them to produce special nuclear material in facilities owned by the Commission. The Commission is also authorized to enter into research and development contracts authorizing the contractor to produce special nuclear material in facilities owned by the Commission to the extent that the production of such special nuclear material may be incident to the conduct of research and development activities under such contracts. Any contract entered into under this section shall contain provisions (1) prohibiting the contractor from subcontracting any part of the work he is obligated to perform under the contract, except as authorized by the Commission; and (2) obligating the contractor (A) to make such reports pertaining to activities under
