SUBCHAPTER I—ELECTRIC UTILITY RATE
DESIGN INITIATIVES

§ 6801. Congressional findings and purpose

(a) The Congress finds that improvement in electric utility rate design has great potential for reducing the cost of electric utility services to consumers and current and projected shortages of capital, and for encouraging energy conservation and better use of existing electrical generating facilities.

(b) It is the purpose of this subchapter to require the Secretary to develop proposals for improvement of electric utility rate design and

transmit such proposals to Congress; to fund electric utility rate demonstration projects; to intervene or participate, upon request, in the proceedings of utility regulatory commissions; and to provide financial assistance to State offices of consumer services to facilitate presentation of consumer interests before such commissions.
