(A) the calendar year 1986, in the case of any class I substance listed in Group I or II under section 7671a(a) of this title,

(B) the calendar year 1989, in the case of any class I substance listed in Group III, IV, or V under section 7671a(a) of this title, and

(C) a representative calendar year selected by the Administrator, in the case of—

(i) any substance added to the list of class I substances after the publication of the initial list under section 7671a(a) of this title, and

(ii) any class II substance.

(3) Class I substance

The term “class I substance” means each of the substances listed as provided in section 7671a(a) of this title.

(4) Class II substance

The term “class II substance” means each of the substances listed as provided in section 7671a(b) of this title.

(5) Commissioner

The term “Commissioner” means the Commissioner of the Food and Drug Administration.

Such factor shall be based upon the substance’s atmospheric lifetime, the molecular weight of bromine and chlorine, and the substance’s ability to be photolytically disassociated, and upon other factors determined to be an accu-

rate measure of relative ozone-depletion potential.

(11) Produce, produced, and production

The terms “produce”, “produced”, and “production”, refer to the manufacture of a substance from any raw material or feedstock chemical, but such terms do not include—
