

(b) A vessel to which this chapter applies may not—

(1) operate on the navigable waters of the United States or use a port or place subject to the jurisdiction of the United States when not in compliance with this chapter or a regulation prescribed under this chapter;

(2) fail to comply with a lawful directive issued under this chapter; or

(3) carry a type or grade of oil or hazardous material in bulk as cargo or cargo residue unless its certificate is endorsed to allow that carriage.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 525.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3713	46:391a(13)

Section 3713(a) prohibits any person from violating any provision of this chapter or a regulation prescribed under its authority. It prohibits the refusal to permit authorized officials to board a vessel or to enter a shore area for the purposes of inspection of the vessel or premises. It also prohibits the refusal to obey any lawful directive issued under this chapter.

Section 3713(b) prohibits any vessel, subject to the provisions of this chapter from operating on the navigable waters of the United States, or from using any port or place subject to the jurisdiction of the United States while not in compliance with any provision of applicable law or regulation. It further prohibits any vessel from failing to comply with a lawful directive issued pursuant to the authority of this chapter. It also prohibits the vessel from carrying oil or hazardous material as cargo or cargo residue unless its certificate is so endorsed to permit its carriage.

§ 3714. Inspection and examination

(a)(1) The Secretary shall have each vessel to which this chapter applies inspected or examined at least once each year.

(2) Each of those vessels that is more than 10 years of age shall undergo a special and detailed inspection of structural strength and hull integrity as specified by the Secretary.

(3) The Secretary may make contracts for conducting inspections or examinations in the United States and in foreign countries. An inspector conducting an inspection or examination under contract may not issue a certificate of inspection or a certificate of compliance, but the inspector may issue a temporary certificate.

(4) The Secretary shall prescribe by regulation reasonable fees for an inspection or examination conducted under this section outside the United States, or which, when involving a foreign vessel, is conducted under a contract authorized by paragraph (3) of this subsection. The owner, charterer, or managing operator of a vessel inspected or examined by the Secretary is liable for the fees. Amounts received as fees shall be deposited in the Treasury.

(5) The Secretary may allow provisional entry of a vessel to conduct an inspection or examination under this chapter.

(b) Each vessel to which this chapter applies shall have on board those documents the Secretary considers necessary for inspection and enforcement, including documents listing—

(1) the type, grade, and approximate quantities of cargo on board;

(2) the shipper and consignee of the cargo;

(3) the places of origin and destination of the vessel; and

(4) the name of an agent in the United States authorized to accept service of legal process.

(c) Each vessel to which this chapter applies that operates in the United States shall have a person designated as authorized to accept service of legal process for the vessel.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 526; Pub. L. 99-307, § 1(8), May 19, 1986, 100 Stat. 445.)

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
3714	46:391a(15)

Section 3714(a) requires the Secretary to establish a program for the inspection of tank vessels, foreign or domestic, at least once each year. The Committee contemplates that United States vessels will be issued a 2 year certificate of inspection with a mid-period examination. The Committee also contemplates that foreign-flag vessels will continue to be tracked and boarded at least once a year or when they first arrive in the United States. The Secretary may examine the foreign-flag tank vessel but may accept, as a basis for the issuance of a certificate of compliance, in whole or in part a foreign-issued certificate.

Each vessel over 10 years of age must undergo a special and detailed inspection of structural strength and hull integrity, as specified by the Secretary. An inspection or examination may be conducted by any officer authorized by the Secretary. The Committee expects that, whenever possible, a qualified marine inspector will be used wherever the vessel undergoes these 10-year inspections. The Secretary may also contract for inspections or examinations in the United States and in foreign countries.

The primary reason for including a provision that permits the contracting for the conduct of inspections and examinations is to provide flexibility in foreign areas where Coast Guard marine inspectors are not normally available.

A contract inspector may be authorized to act on behalf of the Secretary, but may not issue a certificate of inspection or compliance. The inspector may, however, issue a temporary certificate.

The Committee understands that the 10-year inspections of United States-flag and foreign-flag vessels may occur at the time the vessel is scheduled for shipyard availability to complete the periodic classification society survey.

The Secretary is also authorized and directed to prescribe by regulation reasonable fees for certain inspections or examinations conducted pursuant to this section based on the cost incurred. The owner of any vessel inspected or examined by the Secretary or his designee shall be liable for the fee. Amounts received as fees under this section are to be deposited in the Treasury.

Section 3714(b) requires each vessel subject to this chapter to have on board those documents the Secretary declares are necessary for inspection or enforcement, including, but not limited to documents indicating the kind, grade, and approximate quantities of any cargo on board; the shipper and consignee of the cargo; the points of origin and destination of the vessel; and the name of an agent in the United States authorized to accept legal process.

Section 3714(c) requires each vessel subject to this chapter to have a person authorized to accept service of legal process for the vessel.

AMENDMENTS

1986—Subsec. (a)(4). Pub. L. 99-307 substituted “charterer” for “charter”.

§ 3715. Lightering

(a) A vessel may transfer oil or hazardous material in a port or place subject to the jurisdiction of the United States, when the cargo has been transferred from another vessel on the navigable waters of the United States or in the marine environment, only if—

- (1) the transfer was conducted consistent with regulations prescribed by the Secretary;
(2) both the delivering and receiving vessels had on board, at the time of transfer, a certificate of inspection or a certificate of compliance, as would have been required under section 3710 or 3711 of this title, had the transfer taken place in a port or place subject to the jurisdiction of the United States;
(3) the delivering and the receiving vessel had on board at the time of transfer, a certificate of financial responsibility as would have been required under section 1016 of the Oil Pollution Act of 1990, had the transfer taken place in a place subject to the jurisdiction of the United States;
(4) the delivering and the receiving vessel had on board at the time of transfer, evidence that each vessel is operating in compliance with section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)); and
(5) the delivering and the receiving vessel are operating in compliance with section 3703a of this title.

(b) The Secretary shall prescribe regulations to carry out subsection (a) of this section. The regulations shall include provisions on—

- (1) minimum safe operating conditions, including sea state, wave height, weather, proximity to channels or shipping lanes, and other similar factors;
(2) the prevention of spills;
(3) equipment for responding to a spill;
(4) the prevention of any unreasonable interference with navigation or other reasonable uses of the high seas, as those uses are defined by treaty, convention, or customary international law;
(5) the establishment of lightering zones; and
(6) requirements for communication and pre-arrival messages.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 526; Pub. L. 101-380, title IV, §4115(d), Aug. 18, 1990, 104 Stat. 520; Pub. L. 114-120, title III, §306(a)(4), Feb. 8, 2016, 130 Stat. 54.)

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 3715, 46:391a(17)

Section 3715 requires the Secretary to control lightering operations; that is, the transferring of cargoes at sea from large deep-draft vessels to shallow-draft vessels for subsequent transfer to shoreside terminals due to the inability of the larger tank vessels to enter shallow ports. It prohibits a tank vessel from unloading any cargo of oil or hazardous material at any port or terminal under the jurisdiction of the United States, unless the cargo has been transferred in accordance with lightering regulations. It also prohibits the shore-side transfer unless both the delivering and receiving vessels involved in the prior lightering had on board at the time of the offshore transfer, the certificates that

would have been required had the transfer taken place in a port or place subject to the jurisdiction of the United States.

The regulations to be prescribed by the Secretary shall include a number of specific considerations but may include any related matters deemed necessary to promote navigation and vessel safety and protection of the marine environment. The Secretary must consider standards for minimum safe operating conditions, including sea state, wave height, weather, vessel traffic, the prevention of oil spills, and oil spill response equipment. In regulating this operation, there must not be any unreasonable interference with international navigation or reasonable uses of the high seas, and there must be established lightering zones with attendant communications and prearrival message requirements.

REFERENCES IN TEXT

Section 1016 of the Oil Pollution Act of 1990, referred to in subsec. (a)(3), is classified to section 2716 of Title 33, Navigation and Navigable Waters.

AMENDMENTS

- 2016—Subsec. (a)(2). Pub. L. 114-120 struck out “and” at end.
1990—Subsec. (a)(3) to (5). Pub. L. 101-380 added pars. (3) to (5).

EFFECTIVE DATE OF 1990 AMENDMENT

Amendment by Pub. L. 101-380 applicable to incidents occurring after Aug. 18, 1990, see section 1020 of Pub. L. 101-380, set out as an Effective Date note under section 2701 of Title 33, Navigation and Navigable Waters.

EFFECTIVE DATE

Pub. L. 98-89, §2(g)(2), Aug. 26, 1983, 97 Stat. 599, provided that: “Section 3715(a) of title 46 (as enacted by section 1 of this Act) is effective on the day after the effective date of the regulations prescribed by the Secretary under section 3715(b) of title 46.” [Regulations effective Apr. 26, 1984, see 49 F.R. 11170, Mar. 26, 1984.]

§ 3716. Tank washings

(a) A vessel may not transfer cargo in a port or place subject to the jurisdiction of the United States if, before arriving, the vessel has discharged tank washings containing oil or hazardous material in preparation for loading at that port or place in violation of the laws of the United States or in a manner or quantities inconsistent with a treaty to which the United States is a party.

(b) The Secretary shall establish effective control and supervisory measures to carry out this section.

(Pub. L. 98-89, Aug. 26, 1983, 97 Stat. 527.)

HISTORICAL AND REVISION NOTES

Table with 2 columns: Revised section, Source section (U.S. Code). Row 1: 3716, 46:391a(18)

Section 3716 requires the Secretary to establish effective control and supervisory measures to prohibit the discharge of tank washings by dumping at sea. The section also prohibits the dumping vessel from subsequently loading any cargo at a port or terminal subject to the jurisdiction of the United States. This section is intended to prohibit the practice of discharging a cargo of oil or hazardous substance, then going to sea to clean tanks by pumping tank washing mixtures overboard, and then returning to a port or terminal subject to the jurisdiction of the United States for the purpose of loading a cargo that was incompatible with the prior cargo.
