§ 608e-1. Import prohibitions on specified foreign produce

(a) Import prohibitions on tomatoes, avocados, limes, etc.

Subject to the provisions of subsections (c) and (d) and notwithstanding any other provision of law, whenever a marketing order issued by the Secretary of Agriculture pursuant to section 608c of this title contains any terms or conditions regulating the grade, size, quality, or maturity of tomatoes, raisins, olives (other than Spanish-style green olives), prunes, avocados, mangoes, limes, grapefruit, green peppers, Irish potatoes, cucumbers, oranges, onions, walnuts, dates, filberts, table grapes, eggplants, kiwifruit, nectarines, clementines, plums, pistachios, apples, or caneberries (including raspberries, blackberries, and loganberries) produced in the United States the importation into the United States of any such commodity, other than dates for processing, during the period of time such order is in effect shall be prohibited unless it complies with the grade, size, quality, and maturity provisions of such order or comparable restrictions promulgated hereunder: *Provided*, That this prohibition shall not apply to such commodities when shipped into continental United States from the Commonwealth of Puerto Rico or any Territory or possession of the United States where this chapter has force and effect: *Provided further*, That whenever two or more such marketing orders regulating the same agricultural commodity produced in different areas of the United States are concurrently in effect, the importation into the United States of any such commodity, other than dates for processing, shall be prohibited unless it complies with the grade, size, quality, and maturity provisions of the order which, as determined by the Secretary of Agriculture, regulates the commodity produced in the area with which the imported commodity is in most direct competition. Such prohibition shall not become effective until after the giving of such notice as the Secretary of Agriculture determines reasonable, which shall not be less than three days. In determining the amount of notice that is reasonable in the case of tomatoes the Secretary of Agriculture shall give due consideration to the time required for their transportation and entry into the United States after picking. Whenever the Secretary of Agriculture finds that the application of the restrictions under a marketing order to an imported commodity is not practicable because of variations in characteristics between the domestic and imported commodity he shall establish with respect to the imported commodity, other than dates for processing, such grade, size, quality, and maturity restrictions by varieties, types, or other classifications as he finds will be equivalent or comparable to those imposed upon the domestic commodity under such order. The Secretary of Agriculture may promulgate such rules and regulations as he deems necessary, to carry out the provisions of this

section. Any person who violates any provision if¹ this section or of any rule, regulation, or order promulgated hereunder shall be subject to a forfeiture in the amount prescribed in section 608a(5) of this title or, upon conviction, a penalty in the amount prescribed in section 608c(14) of this title, or to both such forfeiture and penalty.

(b) Extension of time for marketing order; factors; review

(1) The Secretary may provide for a period of time (not to exceed 35 days) in addition to the period of time covered by a marketing order during which the marketing order requirements would be in effect for a particular commodity during any year if the Secretary determines that such additional period of time is necessary—

(A) to effectuate the purposes of this chapter; and

(B) to prevent the circumvention of the grade, size, quality, or maturity standards of a seasonal marketing order applicable to a commodity produced in the United States by imports of such commodity.

(2) In making the determination required by paragraph (1), the Secretary, through notice and comment procedures, shall consider—

(A) to what extent, during the previous year, imports of a commodity that did not meet the requirements of a marketing order applicable to such commodity were marketed in the United States during the period that such marketing order requirements were in effect for available domestic commodities (or would have been marketed during such time if not for any additional period established by the Secretary);

(B) if the importation into the United States of such commodity did, or was likely to, circumvent the grade, size, quality or maturity standards of a seasonal marketing order applicable to such commodity produced in the United States; and

(C) the availability and price of commodities of the variety covered by the marketing order during any additional period the marketing order requirements are to be in effect.

(3) An additional period established by the Secretary in accordance with this subsection shall be—

(A) announced not later than 30 days before the date such additional period is to be in effect; and

(B) reviewed by the Secretary on request, through notice and comment procedures, at least every 3 years in order to determine if the additional period is still needed to prevent circumvention of the seasonal marketing order by imported commodities.

(4) For the purposes of carrying out this subsection, the Secretary is authorized to make such reasonable inspections as may be necessary.

(c) Notification of United States Trade Representative of import restrictions; advisement of Secretary of Agriculture

Prior to any import prohibition or regulation under this section being made effective with respect to any commodity—

(1) the Secretary of Agriculture shall notify the United States Trade Representative of such import prohibition or regulation; and

(2) the United States Trade Representative shall advise the Secretary of Agriculture, within 60 days of the notification under paragraph (1), to ensure that the application of the grade, size, quality, and maturity provisions of the relevant marketing order, or comparable restrictions, to imports is not inconsistent with United States international obligations under any trade agreement, including the General Agreement on Tariffs and Trade.

(d) Proposed prohibition or regulation; authority of Secretary of Agriculture to proceed

The Secretary may proceed with the proposed prohibition or regulation if the Secretary receives the advice and concurrence of the United States Trade Representative within 60 days of the notification under subsection (c)(1).

§ 609. Processing tax; methods of computation; rate; what constitutes processing; publicity as to tax to avoid profiteering

(a) To obtain revenue for extraordinary expenses incurred by reason of the national economic emergency, there shall be levied processing taxes as hereinafter provided. When the Secretary of Agriculture determines that any one or more payments authorized to be made under section 608 of this title are to be made with respect to any basic agricultural commodity, he shall proclaim such determination, and a processing tax shall be in effect with respect to such commodity from the beginning of the marketing year therefor next following the date of such proclamation; except that (1) in the case of sugar beets and sugarcane, the Secretary of Agriculture shall, on or before the thirtieth day after May 9, 1934, proclaim that rental or benefit payments with respect to said commodities are to be made, and the processing tax shall be in effect on and after the thirtieth day after May 9, 1934, and (2) in the case of rice, the Secretary of Agriculture shall, before April 1, 1935, proclaim that rental or benefit payments are to be made with respect thereto, and the processing tax shall be in effect on and after April 1, 1935. In the case of sugar beets and sugarcane, the calendar year shall be considered to be the marketing year and for the year 1934 the marketing year shall begin January 1, 1934. In the case of rice, the period from August 1 to July 31, both inclusive, shall be considered to be the marketing year. The processing tax shall be levied, assessed, and collected upon the first domestic processing of the commodity, whether of domestic production or imported, and shall be paid by the processor. The rate of tax shall conform to the requirements of subsection (b). Such rate

shall be determined by the Secretary of Agriculture as of the date the tax first takes effect, and the rate so determined shall, at such intervals as the Secretary finds necessary to effectuate the declared policy, be adjusted by him to conform to such requirements. The processing tax shall terminate at the end of the marketing year current at the time the Secretary proclaims that all payments authorized under section 608 of this title which are in effect are to be discontinued with respect to such commodity. The marketing year for each commodity shall be ascertained and prescribed by regulations of the Secretary of Agriculture: *Provided*, That upon any article upon which a manufacturers' sales tax is levied under the authority of the Revenue Act of 1932 and which manufacturers' sales tax is computed on the basis of weight, such manufacturers' sales tax shall be computed on the basis of the weight of said finished article less the weight of the processed cotton contained therein on which a processing tax has been paid.

(b)(1) The processing tax shall be at such rate as equals the difference between the current average farm price for the commodity and the fair exchange value of the commodity, plus such percentage of such difference, not to exceed 20 per centum, as the Secretary of Agriculture may determine will result in the collection, in any marketing year with respect to which such rate of tax may be in effect pursuant to the provisions of this chapter, of an amount of tax equal to (A) the amount of credits or refunds which he estimates will be allowed or made during such period pursuant to section 615(c) of this title with respect to the commodity and (B) the amount of tax which he estimates would have been collected during such period upon all processings of such commodity, which are exempt from tax by reason of the fact that such processings are done by or for a State, or a political subdivision or an institution thereof, had such processings been subject to tax. If, prior to the time the tax takes effect, or at any time thereafter, the Secretary has reason to believe that the tax at such rate, or at the then existing rate, on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, will cause or is causing such reduction in the quantity of the commodity or products thereof domestically consumed as to result in the accumulation of surplus stocks of the commodity or products thereof or in the depression of the farm price of the commodity, then the Secretary shall cause an appropriate investigation to be made, and afford due notice and opportunity for hearing to interested parties. If thereupon the Secretary determines and proclaims that any such result will occur or is occurring, then the processing tax on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, shall be at such lower rate or rates as he determines and proclaims will prevent such accumulation of surplus stocks and depression of the farm price of
