CHAPTER 73—FARMLAND PROTECTION POLICY

Sec. 4201.	General provisions.
4202.	Identifying effects of Federal programs on conversion of farmland to nonagricultural uses.
4203.	Existing policies and procedures; review, etc.
4204.	Technical assistance.
4205.	Farmland resource information.
4206.	Grants, contracts, etc., authority.
4207.	Reporting requirement.
4208.	Limitations.
4209.	Prohibition on maintenance of actions.

§ 4201. General provisions

(a) Congressional statement of findings

Congress finds that—

(1) the Nation’s farmland is a unique natural resource and provides food and fiber necessary for the continued welfare of the people of the United States;

(2) each year, a large amount of the Nation’s farmland is irrevocably converted from actual or potential agricultural use to non-agricultural use;

(3) continued decrease in the Nation’s farmland base may threaten the ability of the United States to produce food and fiber in sufficient quantities to meet domestic needs and the demands of our export markets;

(4) the extensive use of farmland for non-agricultural purposes undermines the economic base of many rural areas;

(5) Federal actions, in many cases, result in the conversion of farmland to nonagricultural uses where alternative actions would be preferred;

(6) the Department of Agriculture is the agency primarily responsible for the imple-

mentation of Federal policy with respect to United States farmland, assuring the maintenance of the agricultural production capacity of the United States, and has the personnel and other resources needed to implement national farmland protection policy; and

(7) the Department of Agriculture and other Federal agencies should take steps to assure that the actions of the Federal Government do not cause United States farmland to be irreversibly converted to nonagricultural uses in cases in which other national interests do not override the importance of the protection of farmland nor otherwise outweigh the benefits of maintaining farmland resources.

(b) Statement of purpose

The purpose of this chapter is to minimize the extent to which Federal programs contribute to the unnecessary and irreversible conversion of farmland to nonagricultural uses, and to assure that Federal programs are administered in a manner that, to the extent practicable, will be compatible with State, unit of local government, and private programs and policies to protect farmland.

(c) Definitions

As used in this chapter—

(1) the term “farmland” includes all land defined as follows:

(A) prime farmland is land that has the best combination of physical and chemical characteristics for producing food, feed, fiber, forage, oilseed, and other agricultural crops with minimum inputs of fuel, fertilizer, pesticides, and labor, and without intolerable soil erosion, as determined by the Secretary. Prime farmland includes land that possesses the above characteristics but is being used currently to produce livestock and timber. It does not include land already in or committed to urban development or water storage;

(B) unique farmland is land other than prime farmland that is used for production of specific high-value food and fiber crops, as determined by the Secretary. It has the special combination of soil quality, location, growing season, and moisture supply needed to economically produce sustained high quality or high yields of specific crops when treated and managed according to acceptable farming methods. Examples of such crops include citrus, tree nuts, olives, cranberries, fruits, and vegetables; and

(C) farmland, other than prime or unique farmland, that is of statewide or local importance for the production of food, feed, fiber, forage, or oilseed crops, as determined by the appropriate State or unit of local government agency or agencies, and that the Secretary determines should be considered as farmland for the purposes of this chapter;

(2) the term “State” means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, or any territory or possession of the United States;

(3) the term “unit of local government” means the government of a county, municipal-

ity, town, township, village, or other unit of general government below the State level, or a combination of units of local government acting through an areawide agency under State law or an agreement for the formulation of regional development policies and plans;

(4) the term “Federal program” means those activities or responsibilities of a department, agency, independent commission, or other unit of the Federal Government that involve (A) undertaking, financing, or assisting construction or improvement projects; or (B) acquiring, managing, or disposing of Federal lands and facilities. The term “Federal program” does not include construction or improvement projects that on the effective date of this chapter are beyond the planning stage and are in either the active design or construction stage; and

(5) the term “Secretary” means the Secretary of Agriculture.

“(3) COMMODITY CREDIT CORPORATION.—If the Secretary of Agriculture fails to issue stock as required under this chapter, or if funding is otherwise not provided as set forth in this chapter, for the eligible State described in section 1465(c)(3)(A), notwithstanding any other provision of law, the Secretary of Agriculture shall use the funds, services and facilities of the Commodity Credit Corporation to carry out the requirements of this chapter. The procedure described in paragraph (2) shall be used to reimburse the Corporation for funds expended to carry out this paragraph.

The Secretary of the Treasury shall promptly purchase stock (within 60 days) offered by the Secretary under subsection (c) and the Secretary of Agriculture shall deposit the proceeds from each such sale of stock in accounts created to administer the program.

“(e) ENTITLEMENTS.—The Secretary is entitled to receive funds, and shall receive funds, from the Secretary of the Treasury in an amount equal to the total par-value of the stock issued to the Secretary of the Treasury. After the loan closing, the lending institution shall have no obligation to mon-

itor or approve the use of loan proceeds by the State trust fund.

“(2) APPROVAL OF APPLICATION.—The Secretary shall annually approve the completed application from the eligible State within 30 days after receipt if the application sets forth the general goals and policies of the State trust fund. The Secretary shall provide the Federal assistance required under this chapter beginning on the date the application or plan is approved.

“(b) COMPLIANCE.—If the Secretary determines that any State trust fund is failing to comply, to a significant degree, with any requirements of this chapter, the Secretary shall report the failure to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate, shall fully investigate the matter, may decline to provide additional Federal guarantees or interest subsidies to the State trust fund, and shall take other steps as may be appropriate to prevent the use of Federal assistance in a manner not consistent with this chapter.

“SEC. 1468. APPLICATIONS AND ADMINISTRATION.

“(a) APPLICATIONS.—In applying for assistance under this chapter an eligible State described in section 1465(c)(3)(B) shall—

“(2) EARNINGS.—Earnings of the State trust fund and funds expended by the State or the State trust fund prior to loan closing for purposes consistent with this chapter, and in the same fiscal year, may be considered as matching funds.

“(3) OBLIGATIONS.—Proceeds from the sale of tax-exempt general obligation bonds, or other obligations, of the State or State trust fund shall be an allowable source of matching funds under this chapter for the same fiscal year.

“(4) LAND.—The fair market value of any donation of an interest in land to the State trust fund, or a charitable organization working with the State trust fund, may be considered as matching funds, for the same fiscal year, if—

“(i) the fair market value is based on an appraisal determined to be adequate by the State trust fund; and

“(ii) the donation is consistent with the State farmland preservation plan, except that the value of land donated to charitable organizations by the State trust fund shall not be included as part of the match.

“(d) CLARIFICATION OF FEDERAL LAW.—Sellers of land, or of interests in land, to any State trust fund are not, and shall not be considered by the Secretary as, recipients or beneficiaries of Federal assistance.

“SEC. 1469. REPORT.

“Not later than September 30, 1992, and annually thereafter, the Secretary of Agriculture shall prepare and submit, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report concerning the operation of the program established under this chapter.

“SEC. 1470A. COMPTROLLER GENERAL REPORTS.

“On February 15 of 1992, and on December 1 of each of the years 1992 through 1996, the Comptroller General of the United States shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, on whether the Secretary of Agriculture is complying with the requirements of this chapter.
