

§ 1113. Payments from the Fund

(a) There shall be paid from the Fund amounts payable for the costs of all uniformed service retiree health care programs for the benefit of members or former members of a participating uniformed service who are entitled to retired or retainer pay and are medicare eligible, and eligible dependents who are medicare eligible.

(b) The assets of the Fund are hereby made available for payments under subsection (a).

(c)(1) In carrying out subsection (a), the Secretary of Defense may transfer periodically from the Fund to applicable appropriations of the Department of Defense, or to applicable appropriations of other departments or agencies, such amounts as the Secretary determines necessary to cover the costs chargeable to those appropriations for uniformed service retiree health care programs for beneficiaries under those programs who are medicare-eligible. Such transfers may include amounts necessary for the administration of such programs. Amounts so transferred shall be merged with and be available for the same purposes and for the same time period as the appropriation to which transferred. Upon a determination that all or part of the funds transferred from the Fund are not necessary for the purposes for which transferred, such amounts may be transferred back to the Fund. This transfer authority is in addition to any other transfer authority that may be available to the Secretary.

(2) A transfer from the Fund under paragraph (1) may not be made to an appropriation after the end of the second fiscal year after the fiscal year that the appropriation is available for obligation. A transfer back to the Fund under paragraph (1) may not be made after the end of the second fiscal year after the fiscal year for which the appropriation to which the funds were originally transferred is available for obligation.

(d) The Secretary of Defense shall by regulation establish the method or methods for calculating amounts to be transferred under subsection (c). Such method or methods may be based (in whole or in part) on a proportionate share of the volume (measured as the Secretary determines appropriate) of health care services provided or paid for under uniformed service retiree health care programs for beneficiaries under those programs who are medicare-eligible in relation to the total volume of health care services provided or paid for under Department of Defense health care programs.

(e) The regulations prescribed by the Secretary under subsection (d) shall be provided to the Comptroller General not less than 60 days before such regulations become effective. The Comptroller General shall, not later than 30 days after receiving such regulations, report to the Secretary of Defense and Congress on the adequacy and appropriateness of the regulations.

(f) If the Secretary of Defense enters into an agreement with another administering Secretary pursuant to section 1111(c), the Secretary of Defense may take the actions described in subsections (c), (d), and (e) on behalf of the beneficiaries and programs of the other participating uniformed service.

(2)(A) Except as provided in subparagraph (B), the members of the Board shall serve for a term of 15 years, except that a member of the Board appointed to fill a vacancy occurring before the end of the term for which his predecessor was appointed shall only serve until the end of such term. AMENDMENTS

2001—Subsec. (a)(1). Pub. L. 107-107 substituted “hereinafter” for “hereafter”.

§ 1115. Determination of contributions to the Fund

(a) The Board shall determine the amount that is the present value (as of October 1, 2002) of future benefits payable from the Fund that are attributable to service in the participating uniformed services performed before October 1, 2002. That amount is the original unfunded liability of the Fund. The Board shall determine the period of time over which the original unfunded liability should be liquidated and shall determine an amortization schedule for the liquidation of such liability over that period. Contributions to the Fund for the liquidation of the original unfunded liability in accordance with such schedule shall be made as provided in section 1116 of this title.

(b) The Secretary of Defense shall determine, before the beginning of each fiscal year after September 30, 2005, the total amount of the Department of Defense contribution to be made to the Fund for that fiscal year for purposes of section 1116(b)(2). That amount shall be the sum of the following:

(1) The product of—

(A) the current estimate of the value of the single level dollar amount to be determined under subsection (c)(1)(A) at the time of the next actuarial valuation under subsection (c); and

(B) the expected average force strength during that fiscal year for members of the uniformed services under the jurisdiction of the Secretary of Defense on active duty and full-time National Guard duty, but excluding any member who would be excluded for active-duty end strength purposes by section 115(i) of this title.

(2) The product of—

(A) the current estimate of the value of the single level dollar amount to be determined under subsection (c)(1)(B) at the time of the next actuarial valuation under subsection (c); and

(B) the expected average force strength during that fiscal year for members of the Selected Reserve of the uniformed services under the jurisdiction of the Secretary of Defense who are not otherwise described in paragraph (1)(B).

(c)(1) Not less often than every four years, the Secretary of Defense shall carry out an actuarial valuation of the Fund. Each such actuarial valuation shall include—

(A) a determination (using the aggregate entry-age normal cost method) of a single

level dollar amount for members of the participating uniformed services on active duty and full-time National Guard duty, but excluding any member who would be excluded for active-duty end strength purposes by section 115(i) of this title; and

(B) a determination (using the aggregate entry-age normal cost method) of a single level dollar amount for members of the Selected Reserve of the participating uniformed services who are not otherwise described by subparagraph (A).

Such single level dollar amounts shall be used for the purposes of subsection (b). The Secretary of Defense may determine a separate single level dollar amount under subparagraph (A) or (B) for any participating uniformed service, if, in the judgment of the Secretary, such a determination would produce a more accurate and appropriate actuarial valuation for that uniformed service.

(2) If at the time of any such valuation there has been a change in benefits under the uniformed services retiree health care programs for medicare-eligible beneficiaries that has been made since the last such valuation and such change in benefits increases or decreases the present value of amounts payable from the Fund, the Secretary of Defense shall determine an amortization methodology and schedule for the amortization of the cumulative unfunded liability (or actuarial gain to the Fund) created by such change and any previous such changes so that the present value of the sum of the amortization payments (or reductions in payments that would otherwise be made) equals the cumulative increase (or decrease) in the present value of such amounts.

(3) If at the time of any such valuation the Secretary of Defense determines that, based upon changes in actuarial assumptions since the last valuation, there has been an actuarial gain or loss to the Fund, the Secretary shall determine an amortization methodology and schedule for the amortization of the cumulative gain or loss to the Fund created by such change in assumptions and any previous such changes in assumptions through an increase or decrease in the payments that would otherwise be made to the Fund.

(4) If at the time of any such valuation the Secretary of Defense determines that, based upon the Fund's actuarial experience (other than resulting from changes in benefits or actuarial assumptions) since the last valuation, there has been an actuarial gain or loss to the Fund, the Secretary shall determine an amortization methodology and schedule for the amortization of the cumulative gain or loss to the Fund created by such actuarial experience and any previous actuarial experience through an increase or decrease in the payments that would otherwise be made to the Fund.

(5) Contributions to the Fund in accordance with amortization schedules under paragraphs (2), (3), and (4) shall be made as provided in section 1116 of this title.

(d) All determinations under this section shall be made using methods and assumptions approved by the Board of Actuaries (including assumptions of interest rates and medical infla-
