

scription of and facilitate analysis of energy supply and consumption within and affecting the United States on the basis of such geographic areas and economic sectors as may be appropriate to meet adequately the needs of—

(1) the Federal Energy Administration in carrying out its lawful functions;

(2) the Congress;

(3) other officers and employees of the United States in whom have been vested, or to whom have been delegated energy-related policy decisionmaking responsibilities; and

(4) the States to the extent required by the Natural Gas Act [15 U.S.C. 717 et seq.] and the Federal Power Act [16 U.S.C. 791a et seq.].

(b) At a minimum, the System shall contain such energy information as is necessary to carry out the Administration's statistical and forecasting activities, and shall include, at the earliest date and to the maximum extent practical subject to the resources available and the Director's ordering of those resources to meet the responsibilities of his Office, such energy information as is required to define and permit analysis of—

(1) the institutional structure of the energy supply system including patterns of ownership and control of mineral fuel and nonmineral energy resources and the production, distribution, and marketing of mineral fuels and electricity;

(2) the consumption of mineral fuels, nonmineral energy resources, and electricity by such classes, sectors, and regions as may be appropriate for the purposes of this chapter;

(3) the sensitivity of energy resource reserves, exploration, development, production, transportation, and consumption to economic factors, environmental constraints, technological improvements, and substitutability of alternate energy sources;

(4) the comparability of energy information and statistics that are supplied by different sources;

(5) industrial, labor, and regional impacts of changes in patterns of energy supply and consumption;

(6) international aspects, economic and otherwise, of the evolving energy situation; and

(7) long-term relationships between energy supply and consumption in the United States and world communities.

The Natural Gas Act, referred to in subsec. (a)(4), is act June 21, 1938, ch. 556, 52 Stat. 821, as amended, which is classified generally to chapter 15B (§ 717 et seq.) of this title. For complete classification of this Act to the Code, see section 717w of this title and Tables.

The Federal Power Act, referred to in subsec. (a)(4), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§ 791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

#### AMENDMENTS

1977—Subsec. (a)(4). Pub. L. 95-91 added par. (4).

#### EFFECTIVE DATE

Section effective 150 days after Aug. 14, 1976, see section 143 of Pub. L. 94-385, set out as a note under section 790 of this title.

#### TRANSFER OF FUNCTIONS

Functions assigned to Director of Office of Energy Information and Analysis under this subchapter vested in Administrator of Energy Information Administration within Department of Energy by section 7135(c) of Title 42, The Public Health and Welfare.

Federal Energy Administration terminated and functions vested by law in Administrator thereof transferred to Secretary of Energy (unless otherwise specifically provided) by sections 7151(a) and 7293 of Title 42.

### § 790b. Administrative provisions

#### (a) Compensation of Director

The Director of the Office shall receive compensation at the rate now or hereafter prescribed for offices and positions at level IV of the Executive Schedule as specified in section 5315 of title 5.

#### (b) Authorization of Director to appoint and fix compensation of employees

To carry out the functions of the Office, the Director, on behalf of the Administrator, is authorized to appoint and fix the compensation of such professionally qualified employees as he deems necessary, including up to ten of the employees in grade GS-16, GS-17, or GS-18 authorized by section 766 of this title.

#### (c) Delegation of functions by the Director

The functions and powers of the Office shall be vested in or delegated to the Director, who may from time to time, and to the extent permitted by law, consistent with the purposes of this chapter, delegate such of his functions as he deems appropriate. Such delegation may be made, upon request, to any officer or agency of the Federal Government.

#### (d) Access to Director by Congress; requests for appropriations

(1) The Director shall be available to the Congress to provide testimony on such subjects under his authority and responsibility as the Congress may request, including but not limited to energy information and analyses thereof.

(2) Any request for appropriations for the Federal Energy Administration submitted to the Congress shall identify the portion of such request intended for the support of the Office, and a statement of the differences, if any, between the amounts requested and the Director's assessment of the budgetary needs of the Office.

**§ 790c. Analysis and evaluation of energy information; establishment and maintenance by Director of professional, etc., capability; specific capabilities**

(a) The Director shall establish and maintain the scientific, engineering, statistical, or other technical capability to perform analysis of energy information to—

(1) verify the accuracy of items of energy information submitted to the Director; and

(2) insure the coordination and comparability of the energy information in possession of the Office and other Federal agencies.

(b) The Director shall establish and maintain the professional and analytic capability to evaluate independently the adequacy and comprehensiveness of the energy information in possession of the Office and other agencies of the Federal Government in relation to the purposes of this chapter and for the performance of the analyses described in section 790a of this title. Such analytic capability shall include—

(1) expertise in economics, finance, and accounting;

(2) the capability to evaluate estimates of reserves of mineral fuels and nonmineral energy resources utilizing alternative methodologies;

(3) the development and evaluation of energy flow and accounting models describing the production, distribution, and consumption of energy by the various sectors of the economy and lines of commerce in the energy industry;

(4) the development and evaluation of alternative forecasting models describing the short- and long-term relationships between energy supply and consumption and appropriate variables; and

(5) such other capabilities as the Director deems necessary to achieve the purposes of this chapter.

**§ 790e. Coordination by Director of energy information gathering activities of Federal agencies**

**(a) Review**

In carrying out the purposes of this chapter the Director shall, as he deems appropriate, review the energy information gathering activities of Federal agencies with a view toward avoiding duplication of effort and minimizing the compliance burden on business enterprises and other persons.

**(b) Policy recommendations**

In exercising his responsibilities under subsection (a) of this section, the Director shall recommend policies which, to the greatest extent practicable—

(1) provide adequately for the energy information needs of the various departments and agencies of the Federal Government, the Congress, and the public;

(2) minimize the burden of reporting energy information on businesses, other persons, and especially small businesses;

(3) reduce the cost to Government of obtaining information; and

(4) utilize files of information and existing facilities of established Federal agencies.

**(c) Report to Administrator by other Federal agencies involved in collection of energy information; cooperation of other Federal agencies; report by Administrator to President, Congress, and Energy Resources Council**

(1) At the earliest practicable date after August 14, 1976, each Federal agency which is engaged in the gathering of energy information as a part of an established program, function, or other activity shall promptly provide the Administrator with a report on energy information which—

(A) identifies the statutory authority upon which the energy information collection activities of such agency is based;

(B) lists and describes the energy information needs and requirements of such agency; and

(C) lists and describes the categories, definitions, levels of detail, and frequency of collection of the energy information collected by such agency.

Such agencies shall cooperate with the Administrator and provide such other descriptive information with respect to energy information activities as the Administrator may request. The Administrator shall prepare a report on his ac-
