

of this title (as the case may be) for such State and administer and enforce such program in such State.

(Pub. L. 94-469, title IV, §404, as added Pub. L. 102-550, title X, §1021(a), Oct. 28, 1992, 106 Stat. 3916.)

§ 2685. Lead abatement and measurement

(a) Program to promote lead exposure abatement

The Administrator, in cooperation with other appropriate Federal departments and agencies, shall conduct a comprehensive program to promote safe, effective, and affordable monitoring, detection, and abatement of lead-based paint and other lead exposure hazards.

(b) Standards for environmental sampling laboratories

(1) The Administrator shall establish protocols, criteria, and minimum performance standards for laboratory analysis of lead in paint films, soil, and dust. Within 2 years after October 28, 1992, the Administrator, in consultation with the Secretary of Health and Human Services, shall establish a program to certify laboratories as qualified to test substances for lead content unless the Administrator determines, by the date specified in this paragraph, that effective voluntary accreditation programs are in place and operating on a nationwide basis at the time of such determination. To be certified under such program, a laboratory shall, at a minimum, demonstrate an ability to test substances accurately for lead content.

(2) Not later than 24 months after October 28, 1992, and annually thereafter, the Administrator shall publish and make available to the public a list of certified or accredited environmental sampling laboratories.

(3) If the Administrator determines under paragraph (1) that effective voluntary accreditation programs are in place for environmental sampling laboratories, the Administrator shall review the performance and effectiveness of such programs within 3 years after such determination. If, upon such review, the Administrator determines that the voluntary accreditation programs are not effective in assuring the quality and consistency of laboratory analyses, the Administrator shall, not more than 12 months thereafter, establish a certification program that meets the requirements of paragraph (1).

(c) Exposure studies

(1) The Secretary of Health and Human Services (hereafter in this subsection referred to as the "Secretary"), acting through the Director of the Centers for Disease Control,¹ (CDC), and the Director of the National Institute of Environmental Health Sciences, shall jointly conduct a study of the sources of lead exposure in children who have elevated blood lead levels (or other indicators of elevated lead body burden), as defined by the Director of the Centers for Disease Control.

(2) The Secretary, in consultation with the Director of the National Institute for Occupational Safety and Health, shall conduct a comprehensive

study of means to reduce hazardous occupational lead abatement exposures. This study shall include, at a minimum, each of the following—

(A) Surveillance and intervention capability in the States to identify and prevent hazardous exposures to lead abatement workers.

(B) Demonstration of lead abatement control methods and devices and work practices to identify and prevent hazardous lead exposures in the workplace.

(C) Evaluation, in consultation with the National Institute of Environmental Health Sciences, of health effects of low and high levels of occupational lead exposures on reproductive, neurological, renal, and cardiovascular health.

(D) Identification of high risk occupational settings to which prevention activities and resources should be targeted.

(E) A study assessing the potential exposures and risks from lead to janitorial and custodial workers.

(3) The studies described in paragraphs (1) and (2) shall, as appropriate, examine the relative contributions to elevated lead body burden from each of the following:

(A) Drinking water.

(B) Food.

(C) Lead-based paint and dust from lead-based paint.

(D) Exterior sources such as ambient air and lead in soil.

(E) Occupational exposures, and other exposures that the Secretary determines to be appropriate.

(4) Not later than 30 months after October 28, 1992, the Secretary shall submit a report to the Congress concerning the studies described in paragraphs (1) and (2).

(d) Public education

(1) The Administrator, in conjunction with the Secretary of Health and Human Services, acting through the Director of the Agency for Toxic Substances and Disease Registry, and in conjunction with the Secretary of Housing and Urban Development, shall sponsor public education and outreach activities to increase public awareness of—

(A) the scope and severity of lead poisoning from household sources;

(B) potential exposure to sources of lead in schools and childhood day care centers;

(C) the implications of exposures for men and women, particularly those of childbearing age;

(D) the need for careful, quality, abatement and management actions;

(E) the need for universal screening of children;

(F) other components of a lead poisoning prevention program;

(G) the health consequences of lead exposure resulting from lead-based paint hazards;

(H) risk assessment and inspection methods for lead-based paint hazards; and

(I) measures to reduce the risk of lead exposure from lead-based paint.

(2) The activities described in paragraph (1) shall be designed to provide educational services and information to—

¹ So in original. The comma probably should not appear.

- (A) health professionals;
- (B) the general public, with emphasis on parents of young children;
- (C) homeowners, landlords, and tenants;
- (D) consumers of home improvement products;
- (E) the residential real estate industry; and
- (F) the home renovation industry.

(3) In implementing the activities described in paragraph (1), the Administrator shall assure coordination with the President's Commission on Environmental Quality's education and awareness campaign on lead poisoning.

(4) The Administrator, in consultation with the Chairman of the Consumer Product Safety Commission, shall develop information to be distributed by retailers of home improvement products to provide consumers with practical information related to the hazards of renovation and remodeling where lead-based paint may be present.

(e) Technical assistance

(1) Clearinghouse

Not later than 6 months after October 28, 1992, the Administrator shall establish, in consultation with the Secretary of Housing and Urban Development and the Director of the Centers for Disease Control, a National Clearinghouse on Childhood Lead Poisoning (hereinafter in this section referred to as "Clearinghouse"). The Clearinghouse shall—

- (A) collect, evaluate, and disseminate current information on the assessment and reduction of lead-based paint hazards, adverse health effects, sources of exposure, detection and risk assessment methods, environmental hazards abatement, and clean-up standards;
- (B) maintain a rapid-alert system to inform certified lead-based paint activities contractors of significant developments in research related to lead-based paint hazards; and
- (C) perform any other duty that the Administrator determines necessary to achieve the purposes of this chapter.

(2) Hotline

Not later than 6 months after October 28, 1992, the Administrator, in cooperation with other Federal agencies and with State and local governments, shall establish a single lead-based paint hazard hotline to provide the public with answers to questions about lead poisoning prevention and referrals to the Clearinghouse for technical information.

(f) Products for lead-based paint activities

Not later than 30 months after October 28, 1992, the President shall, after notice and opportunity for comment, establish by rule appropriate criteria, testing protocols, and performance characteristics as are necessary to ensure, to the greatest extent possible and consistent with the purposes and policy of this subchapter, that lead-based paint hazard evaluation and reduction products introduced into commerce after a period specified in the rule are effective for the intended use described by the manufacturer. The rule shall identify the types or classes of products that are subject to such rule. The

President, in implementation of the rule, shall, to the maximum extent possible, utilize independent testing laboratories, as appropriate, and consult with such entities and others in developing the rules. The President may delegate the authorities under this subsection to the Environmental Protection Agency or the Secretary of Commerce or such other appropriate agency.

(Pub. L. 94-469, title IV, §405, as added Pub. L. 102-550, title X, §1021(a), Oct. 28, 1992, 106 Stat. 3917.)

§ 2686. Lead hazard information pamphlet

(a) Lead hazard information pamphlet

Not later than 2 years after October 28, 1992, after notice and opportunity for comment, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Housing and Urban Development and with the Secretary of Health and Human Services, shall publish, and from time to time revise, a lead hazard information pamphlet to be used in connection with this subchapter and section 4852d of title 42. The pamphlet shall—

- (1) contain information regarding the health risks associated with exposure to lead;
- (2) provide information on the presence of lead-based paint hazards in federally assisted, federally owned, and target housing;
- (3) describe the risks of lead exposure for children under 6 years of age, pregnant women, women of childbearing age, persons involved in home renovation, and others residing in a dwelling with lead-based paint hazards;
- (4) describe the risks of renovation in a dwelling with lead-based paint hazards;
- (5) provide information on approved methods for evaluating and reducing lead-based paint hazards and their effectiveness in identifying, reducing, eliminating, or preventing exposure to lead-based paint hazards;
- (6) advise persons how to obtain a list of contractors certified pursuant to this subchapter in lead-based paint hazard evaluation and reduction in the area in which the pamphlet is to be used;
- (7) state that a risk assessment or inspection for lead-based paint is recommended prior to the purchase, lease, or renovation of target housing;
- (8) state that certain State and local laws impose additional requirements related to lead-based paint in housing and provide a listing of Federal, State, and local agencies in each State, including address and telephone number, that can provide information about applicable laws and available governmental and private assistance and financing; and
- (9) provide such other information about environmental hazards associated with residential real property as the Administrator deems appropriate.

(b) Renovation of target housing

Within 2 years after October 28, 1992, the Administrator shall promulgate regulations under this subsection to require each person who performs for compensation a renovation of target housing to provide a lead hazard information
