

**(3) Codesign and application development****(A) In general**

The Secretary shall—

(i) carry out the Program through an integration of applications, computer science, applied mathematics, and computer hardware architecture using the partnerships established pursuant to paragraph (2) to ensure that, to the maximum extent practicable, two or more exascale computing machine architectures are capable of solving Department target applications and broader scientific problems, including predictive modeling and simulation and large scale data analytics and management; and

(ii) conduct outreach programs to increase the readiness for the use of such platforms by domestic industries, including manufacturers.

**(B) Report**

The Secretary shall submit to Congress a report describing—

(i) how the integration under subparagraph (A) is furthering application science data and computational workloads across application interests, including national security, material science, physical science, cybersecurity, biological science, the Materials Genome and BRAIN Initiatives of the President, advanced manufacturing, and the national electric grid; and

(ii) the roles and responsibilities of National Laboratories and industry, including the definition of the roles and responsibilities within the Department to ensure an integrated program across the Department.

**(4) Project review****(A) In general**

The exascale architectures developed pursuant to partnerships established pursuant to paragraph (2) shall be reviewed through a project review process.

**(B) Report**

Not later than 90 days after September 28, 2018, the Secretary shall submit to Congress a report on—

(i) the results of the review conducted under subparagraph (A); and

(ii) the coordination and management of the Program to ensure an integrated research program across the Department.

**(5) Annual reports**

At the time of the budget submission of the Department for each fiscal year, the Secretary, in consultation with the members of the partnerships established pursuant to paragraph (2), shall submit to Congress a report that describes funding for the Program as a whole by functional element of the Department and critical milestones.

## REFERENCES IN TEXT

This subchapter, referred to in subsec. (c)(1), was in the original “this Act”, meaning Pub. L. 108–423, Nov.

30, 2004, 118 Stat. 2400, which is classified principally to this subchapter. For complete classification of this Act to the Code, see Short Title note set out under section 5501 of this title and Tables.

## CODIFICATION

This section was enacted as part of the American Super Computing Leadership Act of 2017 which comprises this subchapter, and not as part of the High-Performance Computing Act of 1991 which comprises this chapter.

## AMENDMENTS

2018—Subsec. (a)(1). Pub. L. 115–246, § 304(a)(3)(A), substituted “coordinated program across the Department” for “program”.

Subsec. (b)(2). Pub. L. 115–246, § 304(a)(3)(B), struck out “, which may include vector, reconfigurable logic, streaming, processor-in-memory, and multithreading architectures” before semicolon at end.

Subsec. (d). Pub. L. 115–246, § 304(a)(3)(C), added subsec. (d) and struck out former subsec. (d) which related to the establishment of a High-End Software Development Center.

#### § 5701. Short title; findings

##### (a) Short title

This chapter may be cited as the “Telephone Disclosure and Dispute Resolution Act”.

##### (b) Findings

The Congress finds the following:

(1) The use of pay-per-call services, most commonly through the use of 900 telephone numbers, has grown exponentially in the past few years into a national, billion-dollar industry as a result of recent technological innovations. Such services are convenient to consumers, cost-effective to vendors, and profitable to communications common carriers.

(2) Many pay-per-call businesses provide valuable information, increase consumer choices, and stimulate innovative and responsive services that benefit the public.

(3) The interstate nature of the pay-per-call industry means that its activities are beyond the reach of individual States and therefore requires Federal regulatory treatment to protect the public interest.

(4) The lack of nationally uniform regulatory guidelines has led to confusion for callers, subscribers, industry participants, and regulatory agencies as to the rights of callers and the oversight responsibilities of regulatory authorities, and has allowed some pay-per-call businesses to engage in practices that abuse the rights of consumers.

(5) Some interstate pay-per-call businesses have engaged in practices which are misleading to the consumer, harmful to the public interest, or contrary to accepted standards of business practices and thus cause harm to the many reputable businesses that are serving the public.
