FINDINGS

Pub. L. 113-23, § 2, Aug. 9, 2013, 127 Stat. 493, provided that: “Congress finds that—

“(1) the hydropower industry currently employs approximately 300,000 workers across the United States;

“(2) hydropower is the largest source of clean, renewable electricity in the United States;

“(3) as of the date of enactment of this Act [Aug. 9, 2013], hydropower resources, including pumped storage facilities, provide—

“(A) nearly 7 percent of the electricity generated in the United States; and

“(B) approximately 100,000 megawatts of electric capacity in the United States;

“(4) only 3 percent of the 80,000 dams in the United States generate electricity, so there is substantial potential for adding hydropower generation to non-powered dams; and

“(5) according to one study, by utilizing currently untapped resources, the United States could add ap-

proximately 60,000 megawatts of new hydropower capacity by 2025, which could create 700,000 new jobs over the next 13 years.”
