

ernment Organization and Employees, and enacting provisions set out as notes under section 1511a of Title 15 and section 1462 of this title] may be cited as the ‘Coastal Zone Management Act Amendments of 1976.’”

SHORT TITLE

Pub. L. 89-454, title III, §301, as added by Pub. L. 92-583, Oct. 27, 1972, 86 Stat. 1280, provided that: “This title [enacting this chapter] may be cited as the ‘Coastal Zone Management Act of 1972.’”

HYPOXIA ASSESSMENT

Pub. L. 110-114, title V, §5022, Nov. 8, 2007, 121 Stat. 1203, provided that: “The Secretary [of the Army] may participate with Federal, State, and local agencies, non-Federal and nonprofit entities, regional researchers, and other interested parties to assess hypoxia in the Gulf of Mexico.”

HARMFUL ALGAL BLOOMS AND HYPOXIA RESEARCH AND CONTROL

Pub. L. 108-456, title I, §102 (part), Dec. 10, 2004, 118 Stat. 3630, formerly set out as a note under this section, was transferred to section 4001a of Title 33, Navigation and Navigable Waters.

Pub. L. 105-383, title VI, Nov. 13, 1998, 112 Stat. 3447, as amended by Pub. L. 108-456, title I, §§102-105, Dec. 10, 2004, 118 Stat. 3630-3633; Pub. L. 110-161, div. B, title V, §528, Dec. 26, 2007, 121 Stat. 1930, formerly set out as a note under this section, was transferred to chapter 53 (§4001 et seq.) of Title 33, Navigation and Navigable Waters.

FINDINGS AND PURPOSE OF COASTAL ZONE ACT REAUTHORIZATION AMENDMENTS OF 1990

Pub. L. 101-508, title VI, §6202, Nov. 5, 1990, 104 Stat. 1388-299, provided that:

“(a) FINDINGS.—Congress finds and declares the following:

“(1) Our oceans, coastal waters, and estuaries constitute a unique resource. The condition of the water quality in and around the coastal areas is significantly declining. Growing human pressures on the coastal ecosystem will continue to degrade this resource until adequate actions and policies are implemented.

“(2) Almost one-half of our total population now lives in coastal areas. By 2010, the coastal population will have grown from 80,000,000 in 1960 to 127,000,000 people, an increase of approximately 60 percent, and population density in coastal counties will be among the highest in the Nation.

“(3) Marine resources contribute to the Nation’s economic stability. Commercial and recreational fishery activities support an industry with an estimated value of \$12,000,000,000 a year.

“(4) Wetlands play a vital role in sustaining the coastal economy and environment. Wetlands support and nourish fishery and marine resources. They also protect the Nation’s shores from storm and wave damage. Coastal wetlands contribute an estimated \$5,000,000,000 to the production of fish and shellfish in the United States coastal waters. Yet, 50 percent of the Nation’s coastal wetlands have been destroyed, and more are likely to decline in the near future.

“(5) Nonpoint source pollution is increasingly recognized as a significant factor in coastal water degradation. In urban areas, storm water and combined sewer overflow are linked to major coastal problems, and in rural areas, run-off from agricultural activities may add to coastal pollution.

“(6) Coastal planning and development control measures are essential to protect coastal water quality, which is subject to continued ongoing stresses. Currently, not enough is being done to manage and protect our coastal resources.

“(7) Global warming results from the accumulation of man-made gases, released into the atmosphere from such activities as the burning of fossil fuels, de-

forestation, and the production of chlorofluorocarbons, which trap solar heat in the atmosphere and raise temperatures worldwide. Global warming could result in significant global sea level rise by 2050 resulting from ocean expansion, the melting of snow and ice, and the gradual melting of the polar ice cap. Sea level rise will result in the loss of natural resources such as beaches, dunes, estuaries, and wetlands, and will contribute to the salinization of drinking water supplies. Sea level rise will also result in damage to properties, infrastructures, and public works. There is a growing need to plan for sea level rise.

“(8) There is a clear link between coastal water quality and land use activities along the shore. State management programs under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) are among the best tools for protecting coastal resources and must play a larger role, particularly in improving coastal zone water quality.

“(9) All coastal States should have coastal zone management programs in place that conform to the Coastal Zone Management Act of 1972, as amended by this Act.

“(b) PURPOSE.—It is the purpose of Congress in this subtitle [see Short Title of 1990 Amendment note above] to enhance the effectiveness of the Coastal Zone Management Act of 1972 [16 U.S.C. 1451 et seq.] by increasing our understanding of the coastal environment and expanding the ability of State coastal zone management programs to address coastal environmental problems.”

ESTABLISHMENT OF POSITIONS AND FIXING OF COMPENSATION BY SECRETARY OF COMMERCE; APPOINTMENTS

Pub. L. 94-370, §15(c), July 26, 1976, 90 Stat. 1032, related to establishment and compensation of four new positions without regard to the provisions of chapter 51 of Title 5, Government Organization and Employees, prior to repeal by Pub. L. 99-272, title VI, §6045(3), Apr. 7, 1986, 100 Stat. 127.

TERRITORIAL SEA OF UNITED STATES

For extension of territorial sea of United States, see Proc. No. 5928, set out as a note under section 1331 of Title 43, Public Lands.

EXECUTIVE ORDER NO. 13554

Ex. Ord. No. 13554, Oct. 5, 2010, 75 F.R. 62313, which established the Gulf Coast Ecosystem Restoration Task Force, was revoked, concurrent with the termination of the Task Force, by Ex. Ord. No. 13626, §6(d), Sept. 10, 2012, 77 F.R. 56752, set out as a note under section 1321 of Title 33, Navigation and Navigable Waters.

§ 1452. Congressional declaration of policy

The Congress finds and declares that it is the national policy—

(1) to preserve, protect, develop, and where possible, to restore or enhance, the resources of the Nation’s coastal zone for this and succeeding generations;

(2) to encourage and assist the states to exercise effectively their responsibilities in the coastal zone through the development and implementation of management programs to achieve wise use of the land and water resources of the coastal zone, giving full consideration to ecological, cultural, historic, and esthetic values as well as the needs for compatible economic development, which programs should at least provide for—

(A) the protection of natural resources, including wetlands, flood plains, estuaries, beaches, dunes, barrier islands, coral reefs,

and fish and wildlife and their habitat, within the coastal zone,

(B) the management of coastal development to minimize the loss of life and property caused by improper development in flood-prone, storm surge, geological hazard, and erosion-prone areas and in areas likely to be affected by or vulnerable to sea level rise, land subsidence, and saltwater intrusion, and by the destruction of natural protective features such as beaches, dunes, wetlands, and barrier islands.¹

(C) the management of coastal development to improve, safeguard, and restore the quality of coastal waters, and to protect natural resources and existing uses of those waters,

(D) priority consideration being given to coastal-dependent uses and orderly processes for siting major facilities related to national defense, energy, fisheries development, recreation, ports and transportation, and the location, to the maximum extent practicable, of new commercial and industrial developments in or adjacent to areas where such development already exists,

(E) public access to the coasts for recreation purposes,

(F) assistance in the redevelopment of deteriorating urban waterfronts and ports, and sensitive preservation and restoration of historic, cultural, and esthetic coastal features,

(G) the coordination and simplification of procedures in order to ensure expedited governmental decisionmaking for the management of coastal resources,

(H) continued consultation and coordination with, and the giving of adequate consideration to the views of, affected Federal agencies,

(I) the giving of timely and effective notification of, and opportunities for public and local government participation in, coastal management decisionmaking,

(J) assistance to support comprehensive planning, conservation, and management for living marine resources, including planning for the siting of pollution control and aquaculture facilities within the coastal zone, and improved coordination between State and Federal coastal zone management agencies and State and wildlife agencies, and

(K) the study and development, in any case in which the Secretary considers it to be appropriate, of plans for addressing the adverse effects upon the coastal zone of land subsidence and of sea level rise; and

(3) to encourage the preparation of special area management plans which provide for increased specificity in protecting significant natural resources, reasonable coastal-dependent economic growth, improved protection of life and property in hazardous areas, including those areas likely to be affected by land subsidence, sea level rise, or fluctuating water levels of the Great Lakes, and improved predictability in governmental decisionmaking;

(4) to encourage the participation and cooperation of the public, state and local govern-

ments, and interstate and other regional agencies, as well as of the Federal agencies having programs affecting the coastal zone, in carrying out the purposes of this chapter;

(5) to encourage coordination and cooperation with and among the appropriate Federal, State, and local agencies, and international organizations where appropriate, in collection, analysis, synthesis, and dissemination of coastal management information, research results, and technical assistance, to support State and Federal regulation of land use practices affecting the coastal and ocean resources of the United States; and

(6) to respond to changing circumstances affecting the coastal environment and coastal resource management by encouraging States to consider such issues as ocean uses potentially affecting the coastal zone.

(Pub. L. 89-454, title III, §303, as added Pub. L. 92-583, Oct. 27, 1972, 86 Stat. 1281; amended Pub. L. 96-464, §3, Oct. 17, 1980, 94 Stat. 2060; Pub. L. 101-508, title VI, §6203(b), Nov. 5, 1990, 104 Stat. 1388-301; Pub. L. 102-587, title II, §2205(b)(2), Nov. 4, 1992, 106 Stat. 5050.)

AMENDMENTS

1992—Par. (2). Pub. L. 102-587 made technical amendment to directory language of Pub. L. 101-508, §6203(b)(1). See 1990 Amendment note below.

1990—Par. (2). Pub. L. 101-508, §6203(b)(1), as amended by Pub. L. 102-587, substituted “as well as the needs for compatible” for “as well as to needs for”.

Par. (2)(B). Pub. L. 101-508, §6203(b)(2), substituted “likely to be affected by or vulnerable to sea level rise, land subsidence,” for “of subsidence”.

Par. (2)(C) to (J). Pub. L. 101-508, §6203(b)(3), redesignated subpars. (C) to (I) as (D) to (J), respectively, and added subpar. (C).

Par. (2)(K). Pub. L. 101-508, §6203(b)(4), added subpar. (K).

Par. (3). Pub. L. 101-508, §6203(b)(5), inserted “including those areas likely to be affected by land subsidence, sea level rise, or fluctuating water levels of the Great Lakes,” after “hazardous areas.”

Pars. (5), (6). Pub. L. 101-508, §6203(b)(6), added pars. (5) and (6).

1980—Pub. L. 96-464, in amending section generally, expanded declaration of policy to provide for higher level of protection for significant natural coastal resources and inserted provisions for special area management planning to increase predictability for necessary coastal-dependent economic growth, improve hazard mitigation, and improve predictability in government decisionmaking.

§ 1453. Definitions

For purposes of this chapter—

(1) The term “coastal zone” means the coastal waters (including the lands therein and thereunder) and the adjacent shorelands (including the waters therein and thereunder), strongly influenced by each other and in proximity to the shorelines of the several coastal states, and includes islands, transitional and intertidal areas, salt marshes, wetlands, and beaches. The zone extends, in Great Lakes waters, to the international boundary between the United States and Canada and, in other areas, seaward to the outer limit of State title and ownership under the Submerged Lands Act (43 U.S.C. 1301 et seq.), the Act of March 2, 1917 (48 U.S.C. 749) [48 U.S.C. 731 et seq.], the
