#### EX. ORD. NO. 13580. INTERAGENCY WORKING GROUP ON COORDINATION OF DOMESTIC ENERGY DEVELOPMENT AND PERMITTING IN ALASKA

Ex. Ord. No. 13580, July 12, 2011, 76 F.R. 41989, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to establish an interagency working group to coordinate the efforts of Federal agencies responsible for overseeing the safe and responsible development of onshore and offshore energy resources and associated infrastructure in Alaska and to help reduce our dependence on foreign oil, it is hereby ordered as follows:

**SECTION 1. Policy.** Interagency coordination is important for the safe, responsible, and efficient development of oil and natural gas resources in Alaska, both onshore and on the Alaska Outer Continental Shelf (OCS), while protecting human health and the environment, as well as indigenous populations. A number of executive departments and agencies (agencies) are charged with ensuring that resource development projects in Alaska comply with health, safety, and environmental protection standards. To formalize and promote ongoing interagency coordination, this order establishes a high-level, interagency working group that will facilitate coordinated and efficient domestic energy development and permitting in Alaska while ensuring that all applicable standards are fully met.

**SEC. 2. Establishment.** There is established an Interagency Working Group on Coordination of Domestic Energy Development and Permitting in Alaska (Working Group), led by the Department of the Interior.
