§ 3735. Expansion of the United States and Foreign Commercial Service in sub-Saharan Africa

(a) Findings

The Congress makes the following findings:

(1) The United States and Foreign Commercial Service (hereafter in this section referred to as the "Commercial Service") plays an important role in helping United States businesses identify export opportunities and develop reliable sources of information on commercial prospects in foreign countries.

(2) During the 1980s, the presence of the Commercial Service in sub-Saharan Africa consisted of 14 professionals providing services in eight countries. By early 1997, that presence had been reduced by half to seven professionals in only four countries.

(3) Since 1997, the Department of Commerce has slowly begun to increase the presence of the Commercial Service in sub-Saharan Africa, adding five full-time officers to established posts.

(4) Although the Commercial Service Officers in these countries have regional responsibilities, this kind of coverage does not adequately service the needs of United States businesses attempting to do business in sub-Saharan Africa.

(5) The Congress has, on several occasions, encouraged the Commercial Service to focus its resources and efforts in countries or regions in Europe or Asia to promote greater United States export activity in those markets, and similar encouragement should be provided for countries in sub-Saharan Africa as well.

(6) Because market information is not widely available in many sub-Saharan African countries, the presence of additional Commercial Service Officers and resources can play a significant role in assisting United States businesses in markets in those countries.

(b) Appointments

Subject to the availability of appropriations, by not later than December 31, 2001, the Secretary of Commerce, acting through the Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service, shall take steps to ensure that—

(1) at least 20 full-time Commercial Service employees are stationed in sub-Saharan Africa; and

(2) full-time Commercial Service employees are stationed in not less than 10 different sub-Saharan African countries.

(c) Initiative for sub-Saharan Africa

In order to encourage the export of United States goods and services to sub-Saharan African

countries, the International Trade Administration shall make a special effort to—

(1) identify United States goods and services which are the best prospects for export by United States companies to sub-Saharan Africa;

(2) identify, where appropriate, tariff and nontariff barriers that are preventing or hindering sales of United States goods and services to, or the operation of United States companies in, sub-Saharan Africa;

(3) hold discussions with appropriate authorities in sub-Saharan Africa on the matters described in paragraphs (1) and (2) with a view to securing increased market access for United States exporters of goods and services;

(4) identify current resource allocations and personnel levels in sub-Saharan Africa for the Commercial Service and consider plans for the deployment of additional resources or personnel to that region; and

(5) make available to the public, through printed and electronic means of communication, the information derived pursuant to paragraphs (1) through (4) for each of the 4 years after May 18, 2000.

§ 3736. Donation of air traffic control equipment to eligible sub-Saharan African countries

It is the sense of the Congress that, to the extent appropriate, the United States Government should make every effort to donate to governments of sub-Saharan African countries determined to be eligible under section 3703 of this title air traffic control equipment that is no longer in use, including appropriate related reimbursable technical assistance.

§ 3737. Additional authorities and increased flexibility to provide assistance under the Development Fund for Africa

(a) Use of sustainable development assistance to support further economic growth

It is the sense of the Congress that sustained economic growth in sub-Saharan Africa depends in large measure upon the development of a receptive environment for trade and investment, and that to achieve this objective the United States Agency for International Development should continue to support programs which help to create this environment. Investments in human resources, development, and implementation of free market policies, including policies to liberalize agricultural markets and improve food security, and the support for the rule of law and democratic governance should continue to be encouraged and enhanced on a bilateral and regional basis.

(b) Declarations of policy

The Congress makes the following declarations:

(1) The Development Fund for Africa established under chapter 10 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2293 et seq.)

has been an effective tool in providing development assistance to sub-Saharan Africa since 1988.

(2) The Development Fund for Africa will complement the other provisions of this chapter and lay a foundation for increased trade and investment opportunities between the United States and sub-Saharan Africa.

(3) Assistance provided through the Development Fund for Africa will continue to support programs and activities that promote the long term economic development of sub-Saharan Africa, such as programs and activities relating to the following:

(A) Strengthening primary and vocational education systems, especially the acquisition of middle-level technical skills for operating modern private businesses and the introduction of college level business education, including the study of international business, finance, and stock exchanges.

(B) Strengthening health care systems.

(C) Supporting democratization, good governance and civil society and conflict resolution efforts.

(D) Increasing food security by promoting the expansion of agricultural and agriculture-based industrial production and productivity and increasing real incomes for poor individuals.

(E) Promoting an enabling environment for private sector-led growth through sustained economic reform, privatization programs, and market-led economic activities.

(F) Promoting decentralization and local participation in the development process, especially linking the rural production sectors and the industrial and market centers throughout Africa.

(G) Increasing the technical and managerial capacity of sub-Saharan African individuals to manage the economy of sub-Saharan Africa.

(H) Ensuring sustainable economic growth through environmental protection.

(4) The African Development Foundation has a unique congressional mandate to empower the poor to participate fully in development and to increase opportunities for gainful employment, poverty alleviation, and more equitable income distribution in sub-Saharan Africa. The African Development Foundation has worked successfully to enhance the role of women as agents of change, strengthen the informal sector with an emphasis on supporting micro and small sized enterprises, indigenous technologies, and mobilizing local financing. The African Development Foundation should develop and implement strategies for promoting participation in the socioeconomic development process of grassroots and informal sector groups such as nongovernmental organizations, cooperatives, artisans, and traders into the programs and initiatives established under this chapter.

§ 3738. Assistance from United States private sector to prevent and reduce HIV/AIDS in sub-Saharan Africa

It is the sense of the Congress that United States businesses should be encouraged to provide assistance to sub-Saharan African countries to prevent and reduce the incidence of HIV/AIDS in sub-Saharan Africa. In providing such assistance, United States businesses should be encouraged to consider the establishment of an HIV/AIDS Response Fund in order to provide for coordination among such businesses in the collection and distribution of the assistance to sub-Saharan African countries.

§ 3739. Sense of the Congress relating to HIV/AIDS crisis in sub-Saharan Africa

(a) Findings

The Congress finds the following:

(1) Sustained economic development in sub-Saharan Africa depends in large measure upon successful trade with and foreign assistance to the countries of sub-Saharan Africa.

(2) The HIV/AIDS crisis has reached epidemic proportions in sub-Saharan Africa, where more than 21,000,000 men, women, and children are infected with HIV.

(3) Eighty-three percent of the estimated 11,700,000 deaths from HIV/AIDS worldwide have been in sub-Saharan Africa.

(4) The HIV/AIDS crisis in sub-Saharan Africa is weakening the structure of families and societies.

(5)(A) The HIV/AIDS crisis threatens the future of the workforce in sub-Saharan Africa.

(B) Studies show that HIV/AIDS in sub-Saharan Africa most severely affects individuals between the ages of 15 and 49—the age group that provides the most support for the economies of sub-Saharan African countries.

(6) Clear evidence demonstrates that HIV/AIDS is destructive to the economies of sub-Saharan African countries.

(7) Sustained economic development is critical to creating the public and private sector resources in sub-Saharan Africa necessary to fight the HIV/AIDS epidemic.

(b) Sense of the Congress

It is the sense of the Congress that—
