

§ 9519. Biennial report

The Director shall, on a biennial basis, transmit to the President, the Board, and the appropriate congressional committees, and make widely available to the public (including by means of the Internet), a report containing the following:

(1) A description of the activities carried out by and through the National Education Centers during the prior fiscal years.

(2) A summary of each grant, contract, and cooperative agreement in excess of \$100,000 funded through the National Education Centers during the prior fiscal years, including, at a minimum, the amount, duration, recipient, purpose of the award, and the relationship, if any, to the priorities and mission of the Institute, which shall be available in a user-friendly electronic database.

(3) A description of how the activities of the National Education Centers are consistent with the principles of scientifically valid research and the priorities and mission of the Institute.

(4) Such additional comments, recommendations, and materials as the Director considers appropriate.

(Pub. L. 107-279, title I, §119, Nov. 5, 2002, 116 Stat. 1953.)

§ 9520. Competitive awards

Activities carried out under this Act through grants, contracts, or cooperative agreements, at a minimum, shall be awarded on a competitive basis and, when practicable, through a process of peer review.

PART B—NATIONAL CENTER FOR EDUCATION RESEARCH

§ 9531. Establishment**(a) Establishment**

There is established in the Institute a National Center for Education Research (in this part referred to as the “Research Center”).

(b) Mission

The mission of the Research Center is—

(1) to sponsor sustained research that will lead to the accumulation of knowledge and understanding of education, to—

(A) ensure that all children have access to a high-quality education;

(B) improve student academic achievement, including through the use of educational technology;

(C) close the achievement gap between high-performing and low-performing students through the improvement of teaching and learning of reading, writing, mathematics, science, and other academic subjects; and

(D) improve access to, and opportunity for, postsecondary education;

(2) to support the synthesis and, as appropriate, the integration of education research;

(3) to promote quality and integrity through the use of accepted practices of scientific inquiry to obtain knowledge and understanding of the validity of education theories, practices, or conditions; and

(4) to promote scientifically valid research findings that can provide the basis for improving academic instruction and lifelong learning.

(Pub. L. 107-279, title I, §131, Nov. 5, 2002, 116 Stat. 1954.)

§ 9532. Commissioner for Education Research

The Research Center shall be headed by a Commissioner for Education Research (in this part referred to as the “Research Commissioner”) who shall have substantial knowledge of the activities of the Research Center, including a high level of expertise in the fields of research and research management.

(Pub. L. 107-279, title I, §132, Nov. 5, 2002, 116 Stat. 1954.)

§ 9533. Duties**(a) General duties**

The Research Center shall—

(1) maintain published peer-review standards and standards for the conduct and evaluation of all research and development carried out under the auspices of the Research Center in accordance with this part;

(2) propose to the Director a research plan that—

(A) is consistent with the priorities and mission of the Institute and the mission of the Research Center and includes the activities described in paragraph (3); and

(B) shall be carried out pursuant to paragraph (4) and, as appropriate, be updated and modified;

(3) carry out specific, long-term research activities that are consistent with the priorities and mission of the Institute, and are approved by the Director;

(4) implement the plan proposed under paragraph (2) to carry out scientifically valid research that—

(A) uses objective and measurable indicators, including timelines, that are used to assess the progress and results of such research;

(B) meets the procedures for peer review established by the Director under section

9514(f)(5) of this title and the standards of research described in section 9534 of this title; and

(C) includes both basic research and applied research, which shall include research conducted through field-initiated research and ongoing research initiatives;

(5) promote the use of scientifically valid research within the Federal Government, including active participation in interagency research projects described in section 9518 of this title;

(6) ensure that research conducted under the direction of the Research Center is relevant to education practice and policy;

(7) synthesize and disseminate, through the National Center for Education Evaluation and Regional Assistance, the findings and results of education research conducted or supported by the Research Center;

(8) assist the Director in the preparation of a biennial report, as described in section 9519 of this title;

(9) carry out research on successful State and local education reform activities, including those that result in increased academic achievement and in closing the achievement gap, as approved by the Director;

(10) carry out research initiatives regarding the impact of technology, including—

(A) research into how technology affects student achievement;

(B) long-term research into cognition and learning issues as they relate to the uses of technology;

(C) rigorous, peer-reviewed, large-scale, long-term, and broadly applicable empirical research that is designed to determine which approaches to the use of technology are most effective and cost-efficient in practice and under what conditions; and

(D) field-based research on how teachers implement technology and Internet-based resources in the classroom, including an understanding¹ how these resources are being accessed, put to use, and the effectiveness of such resources; and

(11) carry out research that is rigorous, peer-reviewed, and large scale to determine which methods of mathematics and science teaching are most effective, cost efficient, and able to be applied, duplicated, and scaled up for use in elementary and secondary classrooms, including in low-performing schools, to improve the teaching of, and student achievement in, mathematics and science as required under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.).

(b) Eligibility

Research carried out under subsection (a) through contracts, grants, or cooperative agreements shall be carried out only by recipients with the ability and capacity to conduct scientifically valid research.

(c) National research and development centers

(1) Support

In carrying out activities under subsection (a)(3), the Research Commissioner shall sup-

port not less than 8 national research and development centers. The Research Commissioner shall assign each of the 8 national research and development centers not less than 1 of the topics described in paragraph (2). In addition, the Research Commissioner may assign each of the 8 national research and development centers additional topics of research consistent with the mission and priorities of the Institute and the mission of the Research Center.

(2) Topics of research

The Research Commissioner shall support the following topics of research, through national research and development centers or through other means:

(A) Adult literacy.

(B) Assessment, standards, and accountability research.

(C) Early childhood development and education.

(D) English language learners research.

(E) Improving low achieving schools.

(F) Innovation in education reform.

(G) State and local policy.

(H) Postsecondary education and training.

(I) Rural education.

(J) Teacher quality.

(K) Reading and literacy.

(3) Duties of centers

The national research and development centers shall address areas of national need, including in educational technology areas. The Research Commissioner may support additional national research and development centers to address topics of research not described in paragraph (2) if such topics are consistent with the priorities and mission of the Institute and the mission of the Research Center. The research carried out by the centers shall incorporate the potential or existing role of educational technology, where appropriate, in achieving the goals of each center.

(4) Scope

Support for a national research and development center shall be for a period of not more than 5 years, shall be of sufficient size and scope to be effective, and notwithstanding section 9534(b) of this title, may be renewed without competition for not more than 5 additional years if the Director, in consultation with the Research Commissioner and the Board, determines that the research of the national research and development center—

(A) continues to address priorities of the Institute; and

(B) merits renewal (applying the procedures and standards established in section 9534 of this title).

(5) Limit

No national research and development center may be supported under this subsection for a period of more than 10 years without submitting to a competitive process for the award of the support.

(6) Continuation of awards

The Director shall continue awards made to the national research and development centers

§ 9534. Standards for conduct and evaluation of research

(a) In general

In carrying out this part, the Research Commissioner shall—

(1) ensure that all research conducted under the direction of the Research Center follows scientifically based research standards;

(2) develop such other standards as may be necessary to govern the conduct and evaluation of all research, development, and wide dissemination activities carried out by the Research Center to assure that such activities meet the highest standards of professional excellence;

(3) review the procedures utilized by the National Institutes of Health, the National Science Foundation, and other Federal departments or agencies engaged in research and development, and actively solicit recommendations from research organizations and members of the general public in the development of the standards described in paragraph (2); and

(4) ensure that all research complies with Federal guidelines relating to research misconduct.

(b) Peer review

(1) In general

The Director shall establish a peer review system, involving highly qualified individuals with an in-depth knowledge of the subject to be investigated, for reviewing and evaluating all applications for grants and cooperative agreements that exceed \$100,000, and for evaluating and assessing the products of research by all recipients of grants and cooperative agreements under this Act.

(2) Evaluation

The Research Commissioner shall—

(A) develop the procedures to be used in evaluating applications for research grants, cooperative agreements, and contracts, and specify the criteria and factors (including, as applicable, the use of longitudinal data linking test scores, enrollment, and graduation rates over time) which shall be considered in making such evaluations; and

(B) evaluate the performance of each recipient of an award of a research grant, contract, or cooperative agreement at the conclusion of the award.

(c) Long-term research

The Research Commissioner shall ensure that not less than 50 percent of the funds made available for research for each fiscal year shall be used to fund long-term research programs of not less than 5 years, which support the priorities and mission of the Institute and the mission of the Research Center.
