

“(1) FINDINGS.—Congress finds that—

“(A) food borne illness is a serious health problem;

“(B) its incidence can be reduced through proper handling of food; and

“(C) eggs are perishable and therefore are particularly susceptible to supporting microbial growth if proper temperature controls are not maintained.

“(2) PURPOSES.—It is the purpose of this section [amending sections 1034, 1037, 1041, 1042, 1046, and 1052 of this title and enacting provisions set out as a note under section 1034 of this title] to prescribe the temperature at which eggs are maintained in order to reduce the potential for harmful microbial growth to protect the health and welfare of consumers.”

§ 1032. Congressional declaration of policy

It is hereby declared to be the policy of the Congress to provide for the inspection of certain egg products, restrictions upon the disposition of certain qualities of eggs, and uniformity of standards for eggs, and otherwise regulate the processing and distribution of eggs and egg products as hereinafter prescribed to prevent the movement or sale for human food, of eggs and egg products which are adulterated or misbranded or otherwise in violation of this chapter.

REFERENCES IN TEXT

This chapter, referred to in text, was in the original “this Act”, meaning Pub. L. 91-597, Dec. 29, 1970, 84 Stat. 1620, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 1031 of this title and Tables.

EFFECTIVE DATE

For effective date of this section, see section 29 of Pub. L. 91-597, set out as a note under section 1031 of this title.

§ 1033. Definitions

For purposes of this chapter—

(a) The term “adulterated” applies to any egg or egg product under one or more of the following circumstances—

(1) if it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such article shall not be considered adulterated under this clause if the quantity of such substance in or on such article does not ordinarily render it injurious to health;

(2)(A) if it bears or contains any added poisonous or added deleterious substance (other than one which is (i) a pesticide chemical in or on a raw agricultural commodity; (ii) a food additive; or (iii) a color additive) which may, in the judgment of the Secretary, make such article unfit for human food;

(B) if it is, in whole or in part, a raw agricultural commodity and such commodity bears or contains a pesticide chemical which is unsafe within the meaning of section 346a of this title;

(C) if it bears or contains any food additive which is unsafe within the meaning of section 348 of this title;

(D) if it bears or contains any color additive which is unsafe within the meaning of section

379e of this title: *Provided*, That an article which is not otherwise deemed adulterated under clause (B), (C), or (D) shall nevertheless be deemed adulterated if use of the pesticide chemical, food additive, or color additive, in or on such article, is prohibited by regulations of the Secretary in official plants;

(3) if it consists in whole or in part of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for human food;

(4) if it has been prepared, packaged, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health;

(5) if it is an egg which has been subjected to incubation or the product of any egg which has been subjected to incubation;

(6) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;

(7) if it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to section 348 of this title; or

(8) if any valuable constituent has been in whole or in part omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

(b) The term “capable of use as human food” shall apply to any egg or egg product, unless it is denatured, or otherwise identified, as required by regulations prescribed by the Secretary to deter its use as human food.

(c) The term “commerce” means interstate, foreign, or intrastate commerce.

(d) The term “container” or “package” includes any box, can, tin, plastic, or other receptacle, wrapper, or cover.

(1) The term “immediate container” means any consumer package; or any other container in which egg products, not consumer packaged, are packed.

(2) The term “shipping container” means any container used in packaging a product packed in an immediate container.

(e) The term “egg handler” means any person who engages in any business in commerce which involves buying or selling any eggs (as a poultry producer or otherwise), or processing any egg products, or otherwise using any eggs in the preparation of human food.

(f) The term “egg product” means any dried, frozen, or liquid eggs, with or without added ingredients, excepting products which contain eggs only in a relatively small proportion or historically have not been, in the judgment of the Secretary, considered by consumers as products of the egg food industry, and which may be exempted by the Secretary under such conditions as he may prescribe to assure that the egg ingredients are not adulterated and such products are not represented as egg products.
