§ 834. Determination of taxable investment income

(a) General rule

For purposes of section 831(b), the term “taxable investment income” means the gross investment income, minus the deductions provided in subsection (c).

(b) Gross investment income

For purposes of subsection (a), the term “gross investment income” means the sum of the following:

(1) The gross amount of income during the taxable year from—

(A) interest, dividends, rents, and royalties,

(B) the entering into of any lease, mortgage, or other instrument or agreement from which the insurance company derives interest, rents, or royalties,

(C) the alteration or termination of any instrument or agreement described in subparagraph (B), and

(D) gains from sales or exchanges of capital assets to the extent provided in subchapter P (relating to capital gains and losses).

(2) The gross income during the taxable year from any trade or business (other than an insurance business) carried on by the insurance company, or by a partnership of which the insurance company is a partner. In computing gross income under this paragraph, there shall be excluded any item described in paragraph (1).

(c) Deductions

In computing taxable investment income, the following deductions shall be allowed:

(1) Tax-free interest

The amount of interest which under section 103 is excluded for the taxable year from gross income.

(2) Investment expenses

Investment expenses paid or accrued during the taxable year. If any general expenses are in part assigned to or included in the investment expenses, the total deduction under this paragraph shall not exceed one-fourth of 1 percent of the mean of the book value of the invested assets held at the beginning and end of the taxable year plus one-fourth of the amount by which taxable investment income (computed without any deduction for investment expenses allowed by this paragraph, for tax-free interest allowed by paragraph (1), or for dividends received allowed by paragraph (7)), exceeds 3¾ percent of the book value of the mean of the invested assets held at the beginning and end of the taxable year.

(3) Real estate expenses

Taxes (as provided in section 164), and other expenses, paid or accrued during the taxable

year exclusively on or with respect to the real estate owned by the company. No deduction shall be allowed under this paragraph for any amount paid out for new buildings, or for permanent improvements or betterments made to increase the value of any property.

(4) Depreciation

The depreciation deduction allowed by section 167.

(5) Interest paid or accrued

All interest paid or accrued within the taxable year on indebtedness, except on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from taxation under this subtitle.

(6) Capital losses

Capital losses to the extent provided in subchapter P (sec. 1201 and following) plus losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Capital assets shall be considered as sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders to the extent that the gross receipts from their sale or exchange are not greater than the excess, if any, for the taxable year of the sum of dividends and similar distributions paid to policyholders, losses paid, and expenses paid over the sum of the items described in subsection (b) (other than paragraph (1)(D) thereof) and net premiums received. In the application of section 1212 for purposes of this section, the net capital loss for the taxable year shall be the amount by which losses for such year from sales or exchanges of capital assets exceeds the sum of the gains from such sales or exchanges and whichever of the following amounts is the lesser:

(A) the taxable investment income (computed without regard to gains or losses from sales or exchanges of capital assets); or

(B) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

(7) Special deductions

The special deductions allowed by part VIII (except section 248) of subchapter B (sec. 241 and following, relating to dividends received). In applying section 246(b) (relating to limitation on aggregate amount of deductions for dividends received) for purposes of this paragraph, the reference in such section to “taxable income” shall be treated as a reference to “taxable investment income”.

(8) Trade or business deductions

The deductions allowed by this subtitle (without regard to this part) which are attributable to any trade or business (other than an insurance business) carried on by the insurance company, or by a partnership of which the insurance company is a partner; except that for purposes of this paragraph—

(A) any item, to the extent attributable to the carrying on of the insurance business, shall not be taken into account, and

(B) the deduction for net operating losses provided in section 172 shall not be allowed.

(9) Depletion

The deduction allowed by section 611 (relating to depletion).

(d) Other applicable rules

(1) Rental value of real estate

The deduction under subsection (c)(3) or (4) on account of any real estate owned and occupied in whole or in part by a mutual insurance company subject to the tax imposed by section 831 shall be limited to an amount which bears the same ratio to such deduction (computed without regard to this paragraph) as the rental value of the space not so occupied bears to the rental value of the entire property.

(2) Amortization of premium and accrual of discount

The gross amount of income during the taxable year from interest and the deduction provided in subsection (c)(1) shall each be decreased to reflect the appropriate amortization of premium and increased to reflect the appropriate accrual of discount attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness held by a mutual insurance company subject to the tax imposed by section 831. Such amortization and accrual shall be determined—

(A) in accordance with the method regularly employed by such company, if such method is reasonable, and

(B) in all other cases, in accordance with regulations prescribed by the Secretary.

No accrual of discount shall be required under this paragraph on any bond (as defined in section 171(d)) except in the case of discount which is original issue discount (as defined in section 1273).

(3) Double deductions

Nothing in this part shall permit the same item to be deducted more than once.

(e) Definitions

For purposes of this part—

(1) Net premiums

The term “net premiums” means gross premiums (including deposits and assessments) written or received on insurance contracts during the taxable year less return premiums and premiums paid or incurred for reinsurance. Amounts returned where the amount is not fixed in the insurance contract but depends on the experience of the company or the discretion of the management shall not be included in return premiums but shall be treated as dividends to policyholders under paragraph (2).

(2) Dividends to policyholders

The term “dividends to policyholders” means dividends and similar distributions paid or declared to policyholders. For purposes of the preceding sentence, the term “paid or declared” shall be construed according to the

method regularly employed in keeping the books of the insurance company.
