

(July 1, 1944, ch. 373, title XIV, §1433, as added Pub. L. 107-188, title IV, §401, June 12, 2002, 116 Stat. 682; amended Pub. L. 115-270, title II, §2013(a), Oct. 23, 2018, 132 Stat. 3850.)

REFERENCES IN TEXT

The Emergency Planning and Community Right-To-Know Act of 1986, referred to in subsec. (c), is Pub. L. 99-499, title III, Oct. 17, 1986, 100 Stat. 1728, which is classified generally to chapter 116 (§11001 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 11001 of this title and Tables.

Section 12(d) of the National Technology Transfer and Advancement Act of 1995, referred to in subsec. (f)(2), is section 12(d) of Pub. L. 104-113, which is set out as a note under section 272 of Title 15, Commerce and Trade.

AMENDMENTS

2018—Pub. L. 115-270 amended section generally. Prior to amendment, section related to terrorist and other intentional acts.

SENSITIVE INFORMATION

Pub. L. 115-270, title II, §2013(b), Oct. 23, 2018, 132 Stat. 3854, provided that:

“(1) PROTECTION FROM DISCLOSURE.—Information submitted to the Administrator of the Environmental Protection Agency pursuant to section 1433 of the Safe Drinking Water Act [42 U.S.C. 300i-2], as in effect on the day before the date of enactment of America’s Water Infrastructure Act of 2018 [Oct. 23, 2018], shall be protected from disclosure in accordance with the provisions of such section as in effect on such day.

“(2) DISPOSAL.—The Administrator, in partnership with community water systems (as defined in section 1401 of the Safe Drinking Water Act [42 U.S.C. 300f]), shall develop a strategy to, in a timeframe determined appropriate by the Administrator, securely and permanently dispose of, or return to the applicable community water system, any information described in paragraph (1).”

§ 300i-3. Contaminant prevention, detection and response

(a) In general

The Administrator, in consultation with the Centers for Disease Control and, after consultation with appropriate departments and agencies of the Federal Government and with State and local governments, shall review (or enter into contracts or cooperative agreements to provide for a review of) current and future methods to prevent, detect and respond to the intentional introduction of chemical, biological or radiological contaminants into community water systems and source water for community water systems, including each of the following:

(1) Methods, means and equipment, including real time monitoring systems, designed to monitor and detect various levels of chemical, biological, and radiological contaminants or indicators of contaminants and reduce the likelihood that such contaminants can be successfully introduced into public water systems and source water intended to be used for drinking water.

(2) Methods and means to provide sufficient notice to operators of public water systems, and individuals served by such systems, of the introduction of chemical, biological or radiological contaminants and the possible effect of such introduction on public health and the safety and supply of drinking water.

(3) Methods and means for developing educational and awareness programs for community water systems.

(4) Procedures and equipment necessary to prevent the flow of contaminated drinking water to individuals served by public water systems.

(5) Methods, means, and equipment which could negate or mitigate deleterious effects on public health and the safety and supply caused by the introduction of contaminants into water intended to be used for drinking water, including an examination of the effectiveness of various drinking water technologies in removing, inactivating, or neutralizing biological, chemical, and radiological contaminants.

(6) Biomedical research into the short-term and long-term impact on public health of various chemical, biological and radiological contaminants that may be introduced into public water systems through terrorist or other intentional acts.

(b) Funding

For the authorization of appropriations to carry out this section, see section 300i-4(e) of this title.

(July 1, 1944, ch. 373, title XIV, §1434, as added Pub. L. 107-188, title IV, §402, June 12, 2002, 116 Stat. 685.)

CHANGE OF NAME

Centers for Disease Control changed to Centers for Disease Control and Prevention by Pub. L. 102-531, title III, §312, Oct. 27, 1992, 106 Stat. 3504.

§ 300i-4. Supply disruption prevention, detection and response

(a) Disruption of supply or safety

The Administrator, in coordination with the appropriate departments and agencies of the Federal Government, shall review (or enter into contracts or cooperative agreements to provide for a review of) methods and means by which terrorists or other individuals or groups could disrupt the supply of safe drinking water or take other actions against water collection, pretreatment, treatment, storage and distribution facilities which could render such water significantly less safe for human consumption, including each of the following:

(1) Methods and means by which pipes and other constructed conveyances utilized in public water systems could be destroyed or otherwise prevented from providing adequate supplies of drinking water meeting applicable public health standards.

(2) Methods and means by which collection, pretreatment, treatment, storage and distribution facilities utilized or used in connection with public water systems and collection and pretreatment storage facilities used in connection with public water systems could be destroyed or otherwise prevented from providing adequate supplies of drinking water meeting applicable public health standards.

(3) Methods and means by which pipes, constructed conveyances, collection, pretreatment, treatment, storage and distribution systems that are utilized in connection with public water systems could be altered or
