

“(1) that is on a reservation (as defined in section 3 of the Indian Financing Act of 1974 (25 U.S.C. 1452)) that serves a federally recognized Indian Tribe; and

“(2) the purpose of which is to connect, expand, or repair an existing public water system, as defined in section 1401(4) of the Safe Drinking Water Act (42 U.S.C. 300f(4)), in order to improve water quality, water pressure, or water services.

“(c) REQUIREMENT.—In carrying out the program under subsection (a)(1), the Administrator of the Environmental Protection Agency shall select not less than one eligible project for a reservation that serves more than one federally recognized Indian Tribe.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program under subsection (a) \$20,000,000 for each of fiscal years 2019 through 2022.”

§ 300j-3d. Water supply cost savings

(a) Drinking water technology clearinghouse

The Administrator, in consultation with the Secretary of Agriculture, shall—

(1) develop a technology clearinghouse for information on the cost-effectiveness of innovative and alternative drinking water delivery systems, including wells and well systems; and

(2) disseminate such information to the public and to communities and not-for-profit organizations seeking Federal funding for drinking water delivery systems serving 500 or fewer persons.

(b) Water system assessment

In any application for a grant or loan for the purpose of construction, replacement, or rehabilitation of a drinking water delivery system serving 500 or fewer persons, the funding for which would come from the Federal Government (either directly or through a State), a unit of local government or not-for-profit organization shall self-certify that the unit of local government or organization has considered, as an alternative drinking water supply, drinking water delivery systems sourced by publicly owned—

- (1) individual wells;
- (2) shared wells; and
- (3) community wells.

(c) Report to Congress

Not later than 3 years after December 16, 2016, the Comptroller General of the United States shall submit to Congress a report that describes—

- (1) the use of innovative and alternative drinking water delivery systems described in this section;
- (2) the range of cost savings for communities using innovative and alternative drinking water delivery systems described in this section; and
- (3) the use of drinking water technical assistance programs operated by the Administrator and the Secretary of Agriculture.

(Pub. L. 114-322, title II, §2108, Dec. 16, 2016, 130 Stat. 1728.)

CODIFICATION

Section was enacted as part of the Water and Waste Act of 2016, and also as part of the Water Infrastructure Improvements for the Nation Act, also known as the WIIN Act, and not as part of the Public Health Service Act which comprises this chapter.

DEFINITION OF “ADMINISTRATOR”

Pub. L. 114-322, title II, §2002, Dec. 16, 2016, 130 Stat. 1716, provided that: “In this title [see section 2001 of

Pub. L. 114-322, set out as a Short Title of 2016 Amendment note under section 201 of this title], the term ‘Administrator’ means the Administrator of the Environmental Protection Agency.”

§ 300j-4. Records and inspections

(a) Provision of information to Administrator; monitoring program for unregulated contaminants

(1)(A) Every person who is subject to any requirement of this subchapter or who is a grantee, shall establish and maintain such records, make such reports, conduct such monitoring, and provide such information as the Administrator may reasonably require by regulation to assist the Administrator in establishing regulations under this subchapter, in determining whether such person has acted or is acting in compliance with this subchapter, in administering any program of financial assistance under this subchapter, in evaluating the health risks of unregulated contaminants, or in advising the public of such risks. In requiring a public water system to monitor under this subsection, the Administrator may take into consideration the system size and the contaminants likely to be found in the system’s drinking water.

(B) Every person who is subject to a national primary drinking water regulation under section 300g-1 of this title shall provide such information as the Administrator may reasonably require, after consultation with the State in which such person is located if such State has primary enforcement responsibility for public water systems, on a case-by-case basis, to determine whether such person has acted or is acting in compliance with this subchapter.

(C) Every person who is subject to a national primary drinking water regulation under section 300g-1 of this title shall provide such information as the Administrator may reasonably require to assist the Administrator in establishing regulations under section 300g-1 of this title, after consultation with States and suppliers of water. The Administrator may not require under this subparagraph the installation of treatment equipment or process changes, the testing of treatment technology, or the analysis or processing of monitoring samples, except where the Administrator provides the funding for such activities. Before exercising this authority, the Administrator shall first seek to obtain the information by voluntary submission.

(D) The Administrator shall not later than 2 years after August 6, 1996, after consultation with public health experts, representatives of the general public, and officials of State and local governments, review the monitoring requirements for not fewer than 12 contaminants identified by the Administrator, and promulgate any necessary modifications.

(2) MONITORING PROGRAM FOR UNREGULATED CONTAMINANTS.—

(A) ESTABLISHMENT.—The Administrator shall promulgate regulations establishing the criteria for a monitoring program for unregulated contaminants. The regulations shall require monitoring of drinking water supplied by public water systems and shall vary the frequency and schedule for monitoring requirements for systems based on the number of per-
