

Federal agency under a lease-acquisition agreement under which the United States or a Federal agency will receive fee simple title under the terms of such agreement without further negotiation.

(3) The term “solar heating” means, with respect to any Federal building, the use of solar energy to meet all or part of the heating needs of such building (including hot water), or all or part of the needs of such building for hot water.

(4) The term “solar heating and cooling” means the use of solar energy to provide all or part of the heating needs of a Federal building (including hot water) and all or part of the cooling needs of such building, or all or part of the needs of such building for hot water.

(5) The term “solar energy equipment” means equipment for solar heating or solar heating and cooling.

(6) The term “Secretary” means the Secretary of Energy.

(Pub. L. 95-619, title V, § 521, Nov. 9, 1978, 92 Stat. 3275; Pub. L. 110-161, div. H, title I, § 1303(b), Dec. 26, 2007, 121 Stat. 2242.)

AMENDMENTS

2007—Par. (1)(B). Pub. L. 110-161 substituted “subparagraphs (B) through (I)” for “paragraphs (B) through (H)”.

§ 8242. Federal solar program

The Secretary, in consultation with the Administrator of the General Services Administration, shall develop and carry out a program to demonstrate the application to buildings of solar heating and solar heating and cooling technology in Federal buildings.

(Pub. L. 95-619, title V, § 522, Nov. 9, 1978, 92 Stat. 3276.)

§ 8243. Duties of Secretary

(a) Duties

In exercising the authority provided by section 8242 of this title, the Secretary, in consultation with the Administrator of the General Services Administration, shall—

(1) promulgate, by rule—

(A) requirements under which Federal agencies shall submit proposals for the installation of solar energy equipment in Federal buildings which are under their control and which are selected in accordance with procedures set forth in such rule, and

(B) criteria by which proposals under subparagraph (A) will be evaluated, which criteria shall provide for the inclusion in each proposal of a complete analysis of the present value, as determined by the Secretary, of the costs and benefits of the proposal to the Federal agency, and for the demonstration, to the maximum extent practicable, of innovative and diverse applications to a variety of types of Federal buildings of solar heating and solar heating and cooling technology, and for location of demonstration projects in areas where a private sector market for solar energy equipment is likely to develop;

(2) evaluate in writing each such proposal pursuant to the criteria promulgated pursuant to paragraph (1)(B), and make such evaluation available to the agency and, upon request, to any person;

(3) provide technical and financial assistance by interagency agreement for implementing a proposal evaluated under paragraph (2) and approved by the Secretary; except that such assistance shall be limited to the design, acquisition, construction, and installation of solar energy equipment;

(4) provide, by rule, that Federal agencies report to the Secretary periodically such information as they acquire respecting maintenance and operation of solar energy equipment for which assistance is provided under paragraph (3);

(5) require that a life cycle cost analysis in accordance with part B be done for any Federal building for which a proposal is submitted under this section and the results of such analysis be included in such proposal; and

(6) if solar energy equipment for which assistance is to be provided under paragraph (3) is not the minimum life-cycle cost alternative, require the Federal agency involved to submit a report to the Secretary stating the amount by which the life-cycle cost of such equipment exceeds the minimum life-cycle cost.

(b) Contents of proposals

Proposals under paragraph (1)(A) of subsection (a) shall include a list of the specific Federal buildings proposed to be provided with solar energy equipment, the funds necessary for the acquisition and installation of such equipment, the proposed implementation schedule, maintenance costs, the estimated savings in fossil fuels and electricity, the estimated payback time, and such other information as may be required by the Secretary.

(c) Initial submission of proposals

Under the requirements established under subsection (a)(1)(A), initial proposals for the installation of solar energy equipment in Federal buildings selected under subsection (a)(1)(A) shall be submitted not later than 180 days after the date of promulgation of the rule under subsection (a)(1).

(d) Program to disseminate information to Federal procurement and loan officers

In order to more widely disseminate information about the program under this part and under part B and the benefits of renewable energy and energy efficiency technology, the Secretary shall establish a program which includes site visits and technical briefings, to disseminate such information to Federal procurement officers and Federal loan officers. The Secretary shall utilize available funds for the program under this subsection.

(Pub. L. 95-619, title V, § 523, Nov. 9, 1978, 92 Stat. 3276; Pub. L. 101-218, § 8(a), Dec. 11, 1989, 103 Stat. 1868.)

AMENDMENTS

1989—Subsec. (d). Pub. L. 101-218 added subsec. (d).

§ 8244. Authorization of appropriations

There are authorized to be appropriated to the Secretary through fiscal year ending September 30, 1980, to carry out the purposes of this part not to exceed \$100,000,000. Funds so appropriated may be transferred by the Secretary to any Federal agency to the extent necessary to carry out the purposes of section 8243(a)(3) of this title.

(Pub. L. 95-619, title V, §524, Nov. 9, 1978, 92 Stat. 3277.)

PART B—FEDERAL ENERGY MANAGEMENT

§ 8251. Findings

The Congress finds that—

(1) the Federal Government is the largest single energy consumer in the Nation;

(2) the cost of meeting the Federal Government's energy requirement is substantial;

(3) there are significant opportunities in the Federal Government to conserve and make more efficient use of energy through improved operations and maintenance, the use of new energy efficient technologies, and the application and achievement of energy efficient design and construction;

(4) Federal energy conservation measures can be financed at little or no cost to the Federal Government by using private investment capital made available through contracts authorized by subchapter VII of this chapter; and

(5) an increase in energy efficiency by the Federal Government would benefit the Nation by reducing the cost of government, reducing national dependence on foreign energy resources, and demonstrating the benefits of greater energy efficiency to the Nation.

(Pub. L. 95-619, title V, §541, Nov. 9, 1978, 92 Stat. 3277; Pub. L. 100-615, §2(a), Nov. 5, 1988, 102 Stat. 3185.)

AMENDMENTS

1988—Pub. L. 100-615 amended Congressional findings provisions generally.

EXECUTIVE ORDER NO. 13123

Ex. Ord. No. 13123, June 3, 1999, 64 F.R. 30851, which directed the Federal Government to reduce greenhouse gas emissions, energy consumption, and water usage and required agencies to develop an annual implementation plan, to request funding necessary to achieve the goals of this order, and to make annual progress reports to the President, was revoked by Ex. Ord. No. 13423, §11(a)(ii), Jan. 24, 2007, 72 F.R. 3923, formerly set out in a note under section 4321 of this title.

EX. ORD. NO. 13221. ENERGY EFFICIENT STANDBY POWER DEVICES

Ex. Ord. No. 13221, July 31, 2001, 66 F.R. 40571, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Energy Conservation Policy Act (Public Law 95-619, 92 Stat. 3206, 42 U.S.C. 8252 et seq.), as amended by the Energy Policy Act of 1992 (EPACT) (Public Law 102-486, 106 Stat. 2776), and section 301 of title 3, United States Code, and in order to further encourage energy conservation by the Federal Government, it is hereby ordered as follows:

SECTION 1. Energy Efficient Standby Power Devices. Each agency, when it purchases commercially available, off-the-shelf products that use external standby

power devices, or that contain an internal standby power function, shall purchase products that use no more than one watt in their standby power consuming mode. If such products are not available, agencies shall purchase products with the lowest standby power wattage while in their standby power consuming mode. Agencies shall adhere to these requirements, when life-cycle cost-effective and practicable and where the relevant product's utility and performance are not compromised as a result. By December 31, 2001, and on an annual basis thereafter, the Department of Energy, in consultation with the Department of Defense and the General Services Administration, shall compile a preliminary list of products to be subject to these requirements. The Department of Energy shall finalize the list and may remove products deemed inappropriate for listing.

SEC. 2. Independent Agencies. Independent agencies are encouraged to comply with the provisions of this order.

SEC. 3. Definition. "Agency" means an executive agency as defined in 5 U.S.C. 105. For the purpose of this order, military departments, as defined in 5 U.S.C. 102, are covered by the Department of Defense.

GEORGE W. BUSH.

§ 8252. Purpose

It is the purpose of this part to promote the conservation and the efficient use of energy and water, and the use of renewable energy sources, by the Federal Government.

(Pub. L. 95-619, title V, §542, Nov. 9, 1978, 92 Stat. 3277; Pub. L. 100-615, §2(a), Nov. 5, 1988, 102 Stat. 3185; Pub. L. 102-486, title I, §152(a), Oct. 24, 1992, 106 Stat. 2844.)

AMENDMENTS

1992—Pub. L. 102-486 inserted "and water, and the use of renewable energy sources," after "use of energy".

1988—Pub. L. 100-615 amended section generally, substituting statement of purpose for policy statement declaring it to be United States policy for Federal Government to have the opportunity and responsibility, with participation of industry, to further develop, demonstrate, and promote use of energy conservation, solar heating and cooling, and other renewable energy sources in Federal buildings.

§ 8253. Energy management requirements

(a) Energy performance requirement for Federal buildings

(1) Subject to paragraph (2), each agency shall apply energy conservation measures to, and shall improve the design for the construction of, the Federal buildings of the agency (including each industrial or laboratory facility) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2006 through 2015 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2003, by the percentage specified in the following table:

Fiscal Year	Percentage Reduction
2006	2
2007	4
2008	9
2009	12
2010	15
2011	18
2012	21
2013	24
2014	27
