**§ 851. Deficiencies in grants to State by reason of settlements, etc., on designated sections generally**

Where settlements with a view to preemption or homestead have been, or shall hereafter be made, before the survey of the lands in the field, which are found to have been made on sections sixteen or thirty-six, those sections shall be subject to the claims of such settlers; and if such sections or either of them have been or shall be granted, reserved, or pledged for the use of schools or colleges in the State in which they lie, other lands of equal acreage are hereby appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State, in lieu of such as may be thus taken by preemption or homestead settlers. And other lands of equal acreage are also hereby appropriated and granted and may be selected, in accordance with the provisions of section 852 of this title, by said State where sections sixteen or thirty-six are, before title could pass to the State, included within any Indian, military, or other reservation, or are, before

title could pass to the State, otherwise disposed of by the United States: *Provided*, That the selection of any lands under this section in lieu of sections granted or reserved to a State shall be a waiver by the State of its right to the granted or reserved sections. And other lands of equal acreage are also appropriated and granted, and may be selected, in accordance with the provisions of section 852 of this title, by said State to compensate deficiencies for school purposes, where sections sixteen or thirty-six are fractional in quantity, or where one or both are wanting by reason of the township being fractional, or from any natural cause whatever. And it shall be the duty of the Secretary of the Interior, without awaiting the extension of the public surveys, to ascertain and determine, by protraction or otherwise, the number of townships that will be included within such Indian, military, or other reservations, and thereupon the State shall be entitled to select indemnity lands to the extent of section for section in lieu of sections therein which have been or shall be granted, reserved, or pledged; but such selections may not be made within the boundaries of said reservation: *Provided, however*, That nothing in this section contained shall prevent any State from awaiting the extinguishment of any such military, Indian, or other reservation and the restoration of the lands therein embraced to the public domain and then taking the sections sixteen and thirty-six in place therein.

### § 852. Selections to supply deficiencies of school lands

#### (a) Restrictions

The lands appropriated by section 851 of this title shall be selected from any unappropriated, surveyed or unsurveyed public lands within the

State where such losses or deficiencies occur subject to the following restrictions:

(1) No lands mineral in character may be selected by a State except to the extent that the selection is being made as indemnity for mineral lands lost to the State because of appropriation before title could pass to the State;

(2) No lands on a known geologic structure of a producing oil or gas field may be selected except to the extent that the selection is being made as indemnity for lands on such a structure lost to the State because of appropriation before title could pass to the State; and

(3) Land subject to a mineral lease or permit may be selected if none of the land subject to that lease or permit is in a producing or producible status, subject, however, to the restrictions and conditions of the preceding and following paragraphs of this subsection.

(4) If a selection is consummated as to a portion but not all of the lands subject to any mineral lease or permit, then, as to such portion and for so long only as such lease or permit or any lease issued pursuant to such permit shall remain in effect, there shall be automatically reserved to the United States the mineral or minerals for which the lease or permit was issued, together with such further rights as may be necessary for the full and complete enjoyment of all rights, privileges and benefits under or with respect to the lease or permit: *Provided, however*, That after approval of the selection the Secretary of the Interior shall determine what portion of any rents and royalties accruing thereafter which may be paid under the lease or permit is properly applicable to that portion of the land subject to the lease or permit selected by the State, the portion applicable being determined by applying to the sum of the rents and royalties the same ratio as that existing between the acreage selected by the State and the total acreage subject to the lease or permit; of the portion applicable to the selected land 90 per centum shall be paid to the State by the United States annually and 10 per centum shall be deposited in the Treasury of the United States as miscellaneous receipts.

(5) If a selection is consummated as to all of the lands subject to any mineral lease or permit or if, where the selecting State has previously acquired title to a portion of the lands subject to a mineral lease or permit, a selection is consummated as to all of the remaining lands subject to that lease or permit, then and upon condition that the United States shall retain all rents and royalties theretofore paid and that the lessee or permittee shall have and may enjoy under and with respect to that lease or permit all the rights, privileges, and benefits which he would have had or might have enjoyed had the selection not been made and approved, the State shall succeed to all the rights of the United States under the lease or permit as to the mineral or minerals covered thereby, subject, however, to all obligations of the United States under and with respect to that lease or permit.
