(b) The additional grant made by this section is upon the express condition that all sales, grants, deeds, or patents for any of the lands so granted shall hereafter be subject to and contain a reservation to the State of all the coal and other minerals in the lands so sold, granted, deeded, or patented, together with the right to prospect for, mine, and remove the same. The coal and other mineral deposits in such lands not heretofore disposed of by the State shall be subject to lease by the State as the State legislature may direct, the proceeds and rentals and royalties therefrom to be utilized for the support or in aid of the common or public schools: *Provided*, That any lands or minerals hereafter disposed of contrary to the provisions of this section shall be forfeited to the United States by appropriate proceedings instituted by the Attorney General for that purpose in the United States district court for the district in which the property or some part thereof is located.

(c) Except as provided in subsection (d), any lands included within the limits of existing reservations of or by the United States, or specifically reserved for water-power purposes, or included in any pending suit or proceeding in the courts of the United States, or subject to or included in any valid application, claim, or right initiated or held under any of the existing laws of the United States, unless or until such reservation, application, claim, or right is extinguished, relinquished, or canceled, and all lands in the Territory of Alaska, are excluded from the provisions of this section.

(d)(1) Notwithstanding subsection (c), the fact that there is outstanding on any numbered school section, whether or not mineral in character, at the time of its survey a mineral lease or leases entered into by the United States, or an application therefor, shall not prevent the grant of such numbered school section to the State concerned as provided by this section and section 871 of this title.

(2) Any such numbered school section which has been surveyed prior to July 11, 1956, and which has not been granted to the State concerned solely by reason of the fact that there was outstanding on it at the time of the survey a mineral lease or leases entered into by the United States, or an application therefor, is hereby granted by the United States to such State under this section as if it had not been so leased; and the State shall succeed the position of the United States as lessor under such lease or leases.

(3) Any such numbered school section which is surveyed on or after July 11, 1956, and on which there is outstanding at the time of such survey a mineral lease or leases entered into by the United States, shall (unless excluded from the provisions of this section by subsection (c) for a reason other than the existence of an outstanding lease) be granted to the State concerned immediately upon completion of such survey; and the State shall succeed to the position of the United States as lessor under such lease or leases.

(4) The Secretary of the Interior shall, upon application by a State, issue patents to the State for the lands granted by this section and section 871 of this title, in accordance with section 871a¹ of this title. Such patent shall, if the lease is then outstanding, include a statement that the State succeeded to the position of the United States as lessor at the time the title vested in the State.

(5) Where at the time rents, royalties, and bonuses accrue the lands or deposits covered by a single lease are owned in part by the State and in part by the United States, the rents, royalties, and bonuses shall be allocated between them in proportion to the acreage in said lease owned by each.

(6) As used in this subsection, "lease" includes "permit" and "lessor" includes "grantor".
