

HISTORICAL AND REVISION NOTES

Revised section 14103

Source: International Convention on Tonnage Measurement of Ships.

Section 14103(a) authorizes the Secretary to delegate to a qualified person the authority to measure a vessel and issue an International Tonnage Certificate or other certificate of measurement. The term “qualified person” means an organization that the Secretary believes has the necessary qualifications to measure a vessel competently, such as the American Bureau of Shipping.

The conferees intend that in section 14103 the term “qualified person” includes not only organizations that the Secretary finds to be qualified to perform measurement duties, but any person as that term is defined in section 1 of title 1, United States Code (including individuals), that the Secretary determines qualified to perform measurement duties. The House and Senate conferees also agree that, where authorized, in addition to information required by the Secretary, regulatory tonnage should be used on all certificates and documents related to a vessel unless the owner otherwise requests.

Section 14103(b) provides for the appeal to the Secretary of a decision made by a person that has received delegated authority. This ensures that the Secretary has full oversight of delegated tonnage measurement functions.

Section 14103(c) authorizes the Secretary to delegate to a country that is a party to the International Convention on Tonnage Measurement of Ships, 1969, the authority to measure a vessel and issue an International Tonnage Certificate.

Section 14103(d) clarifies the Secretary’s authority to revoke at any time and without cause a delegation of authority to measure a vessel or issue a certificate. This authority is given so that no delay occurs administratively in revoking a delegation wherever the Secretary decides a revocation is warranted.

AMENDMENTS

2010—Subsec. (c). Pub. L. 111–281 substituted “that engages on” for “intended to be engaged on”.

§ 14104. Measurement to determine application of a law

(a) When the application of a law of the United States to a vessel depends on the vessel’s tonnage, the vessel shall be measured under this part.

(b) If a statute allows for an alternate tonnage to be prescribed under this section, the Secretary may prescribe it by regulation. Any such regulation shall be considered to be an interpretive regulation for purposes of section 553 of title 5. Until an alternate tonnage is prescribed, the statutorily established tonnage shall apply to vessels measured under chapter 143 or chapter 145 of this title.

(c) The head of each Federal agency shall ensure that regulations issued by the agency that specify particular tonnages comply with the alternate tonnages implemented by the Secretary. (Pub. L. 99–509, title V, §5101(3), Oct. 21, 1986, 100 Stat. 1920; Pub. L. 104–324, title VII, §702, Oct. 19, 1996, 110 Stat. 3933.)

HISTORICAL AND REVISION NOTES

Revised section 14104

Source: Section (U.S. Code) 46 App. U.S.C. 71.

Section 14104 requires that a vessel be measured under Part J of this subtitle when the application of a U.S. law to the vessel depends on its tonnage.

AMENDMENTS

1996—Pub. L. 104–324 designated existing provisions as subsec. (a) and added subsecs. (b) and (c).

CHAPTER 143—CONVENTION MEASUREMENT

Sec.	Application.
14301.	Measurement.
14302.	Tonnage Certificate.
14303.	Remeasurement.
14304.	Optional regulatory measurement.
14305.	Reciprocity for foreign vessels.
14306.	Inspection of foreign vessels.
14307.	

HISTORICAL AND REVISION NOTES

Chapter 143 provides implementing legislation for the International Convention on Tonnage Measurement of Ships (Convention) which came into effect in the United States on February 10, 1983. Chapter 143, therefore, is based primarily on the Convention, not on provisions in existing U.S. law.

AMENDMENTS

2010—Pub. L. 111–281, title III, §303(e)(3), Oct. 15, 2010, 124 Stat. 2925, substituted “Tonnage Certificate” for “International Tonnage Certificate (1969)” in item 14303.

§ 14301. Application

(a) Except as otherwise provided in this section, this chapter applies to any vessel for which the application of an international agreement or other law of the United States to the vessel depends on the vessel’s tonnage.

(b) This chapter does not apply to the following:

(1) a vessel of war, unless the government of the country to which the vessel belongs elects to measure the vessel under this chapter.

(2) a vessel of less than 24 meters (79 feet) overall in length.

(3) a vessel of United States or Canadian registry or nationality, or a vessel operated under the authority of the United States or Canada, and that is operating only on the Great Lakes, unless the owner requests.

(4) a vessel of United States registry or nationality, or one operated under the authority of the United States (except a vessel that engages on a foreign voyage) the keel of which was laid or that was at a similar stage of construction before January 1, 1986, unless—

(A) the owner requests; or

(B) the vessel undergoes a change that the Secretary finds substantially affects the vessel’s gross tonnage.

(5) a barge of United States registry or nationality, or a barge operated under the authority of the United States (except a barge that engages on a foreign voyage) unless the owner requests.

(c) An existing vessel that has not undergone a change that the Secretary finds substantially affects the vessel’s gross tonnage (or a vessel to which IMO Resolutions A.494 (XII) of November 19, 1981, A.540 (XIII) of November 17, 1983, or A.541 (XIII) of November 17, 1983, apply) may retain its tonnages existing on July 18, 1994, for the application of relevant requirements under international agreements (except the Convention) and other laws of the United States. However, if the vessel undergoes a change substantially affecting its tonnage after July 18, 1994, the vessel shall be remeasured under this chapter.
