§ 940f. Extension of period of existing guarantee

(a) In general

Subject to the limitations in this section and the provisions of the Federal Credit Reform Act of 1990 [2 U.S.C. 661 et seq.], as amended, a borrower of a loan made by the Federal Financing Bank and guaranteed under this chapter may request an extension of the final maturity of the outstanding principal balance of such loan or any loan advance thereunder. If the Secretary and the Federal Financing Bank approve such an extension, then the period of the existing guarantee shall also be considered extended.

(b) Limitations

(1) Feasibility and security

Extensions under this section shall not be made unless the Secretary first finds and certifies that, after giving effect to the extension, in his judgment the security for all loans to the borrower made or guaranteed under this chapter is reasonably adequate and that all such loans will be repaid within the time agreed.

(2) Extension of useful life or collateral

Extensions under this section shall not be granted unless the borrower first submits with its request either—

(A) evidence satisfactory to the Secretary that a Federal or State agency with jurisdiction and expertise has made an official determination, such as through a licensing proceeding, extending the useful life of a generating plant or transmission line pledged as collateral to or beyond the new final maturity date being requested by the borrower, or

(B) a certificate from an independent licensed engineer concluding, on the basis of a thorough engineering analysis satisfactory to the Secretary, that the useful life of the generating plant or transmission line pledged as collateral extends to or beyond the new final maturity date being requested by the borrower.

(3) Amount eligible for extension

Extensions under this section shall not be granted if the principal balance extended exceeds the appraised value of the generating plant or transmission line referred to in subsection paragraph (2).

(4) Period of extension

Extensions under this section shall in no case result in a final maturity greater than 55 years from the time of original disbursement
