§ 635a-4. Guarantees for export accounts receivable and inventory

The Export-Import Bank of the United States is authorized and directed to establish a program to provide guarantees for loans extended by financial institutions or other public or private creditors to export trading companies as defined in section 1843(c)(14)(F)(i) of this title, or to other exporters, when such loans are secured by export accounts receivable, inventories of exportable goods, accounts receivable from leases, performance contracts, grant commitments, participation fees, member dues, revenue from publications, or such other collateral as the Board of Directors may deem appropriate, and when in the judgment of the Board of Directors—

(1) the private credit market is not providing adequate financing to enable otherwise creditworthy export trading companies or exporters to consummate export transactions; and

(2) such guarantees would facilitate expansion of exports which would not otherwise occur.

The Board of Directors shall attempt to insure that a major share of any loan guarantees ultimately serves to promote exports from small, medium-size, and minority businesses or agricultural concerns. Guarantees provided under the authority of this section shall be subject to limitations contained in annual appropriations Acts.

Not later than 180 days after December 4, 2015, the President shall submit to Congress a proposal, and a strategy for achieving the proposal, that the United States Government will pursue with other major exporting countries, including OECD members and non-OECD members, to eliminate over a period of not more than 10 years subsidized export-financing programs, tied aid, export credits, and all other forms of government-supported export subsidies.

(d) Negotiations with non-OECD members

The President shall initiate and pursue negotiations with countries that are not OECD members to bring those countries into a multilateral agreement establishing rules and limitations on officially supported export credits.
