

ties and to transfer project lands or facilities to Federal agencies or State or local public bodies by lease agreement or exchange upon such terms and conditions as will best promote the development and operation of such lands or facilities in the public interest for recreation and fish and wildlife enhancement purposes.

**(c) Transfer of lands; consent of other Federal agencies to use of lands for recreation or fish and wildlife purposes; transfers to Secretary of Agriculture of forest lands; continuing administration of lands and waters for other project purposes; prohibition against limitation of authority under existing provisions of law**

No lands under the jurisdiction of any other Federal agency may be included for or devoted to recreation or fish and wildlife purposes under the authority of this section without the consent of the head of such agency; and the head of any such agency is authorized to transfer any such lands to the jurisdiction of the Secretary of the Interior for purposes of this section. The Secretary of the Interior is authorized to transfer jurisdiction over project lands within or adjacent to the exterior boundaries of national forests and facilities thereon to the Secretary of Agriculture for recreation and other national forest system purposes; and such transfer shall be made in each case in which the project reservoir area is located wholly within the exterior boundaries of a national forest unless the Secretaries of Agriculture and Interior jointly determine otherwise. Where any project lands are transferred hereunder to the jurisdiction of the Secretary of Agriculture, the lands involved shall become national forest lands: *Provided*, That the lands and waters within the flow lines of any reservoir or otherwise needed or used for the operation of the project for other purposes shall continue to be administered by the Secretary of the Interior to the extent he determines to be necessary for such operation. Nothing herein shall limit the authority of the Secretary of the Interior granted by existing provisions of law relating to recreation or fish and wildlife development in connection with water resource projects or to disposition of public lands for such purposes.

AMENDMENTS

1992—Subsec. (a). Pub. L. 102-575, §2804(e)(2), substituted “subsection (b) or (c) of section 4601-14” for “subsection 4601-14(b)”.

Pub. L. 102-575, §2804(e)(1), which directed amendment of subsec. (a) by striking “purposes: *Provided*,” and all that follows through end of sentence and inserting “purposes”, could not be executed because the words “purposes: *Provided*,” did not appear subsequent to amendment by Pub. L. 102-377. See below.

Pub. L. 102-377 substituted “purposes.” for “purposes: *Provided*, That not more than \$100,000 shall be available to carry out the provisions of this subsection at any one reservoir.”

**§ 4601-19. Feasibility reports**

Effective on and after July 1, 1966, neither the Secretary of the Interior nor any bureau nor any

person acting under his authority shall engage in the preparation of any feasibility report under reclamation law with respect to any water resource project unless the preparation of such feasibility report has been specifically authorized by law, any other provision of law to the contrary notwithstanding.

(Pub. L. 89-72, §8, July 9, 1965, 79 Stat. 217.)

**§ 4601-20. Construction of projects under certain laws with allocations to recreation and fish and wildlife enhancement exceeding allocations to other functions unauthorized; exception**

Nothing contained in this part shall be taken to authorize or to sanction the construction under the Federal reclamation laws or under any Rivers and Harbors or Flood Control Act of any project in which the sum of the allocations to recreation and fish and wildlife enhancement exceeds the sum of the allocations to irrigation, hydroelectric power, municipal, domestic and industrial water supply, navigation, and flood control, except that this section shall not apply to any such project for the enhancement of anadromous fisheries, shrimp, or for the conservation of migratory birds protected by treaty, when each of the other functions of such a project has, of itself, a favorable benefit-cost ratio.

**§ 4601-21. Definitions**

As used in this part:

(a) The term “project” shall mean a project or any appropriate unit thereof.

(b) The term “separable costs,” as applied to any project purpose, means the difference between the capital cost of the entire multiple-purpose project and the capital cost of the project with the purpose omitted.

(c) The term “joint costs” means the difference between the capital cost of the entire multiple-purpose project and the sum of the separable costs for all project purposes.

(d) The term “feasibility report” shall mean any report of the scope required by the Congress when formally considering authorization of the project of which the report treats.

(e) The term “capital cost” includes interest during construction, wherever appropriate.
