(a) Payments and advances to States

When the Secretary of the Interior shall find that any project approved by him has been completed or, if involving research relating to fish, is being conducted, in compliance with said plans and specifications, he shall cause to be paid to the proper authority of said State the amount set aside for said project. The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States' pro rata share of the project in conformity with said plans and specifications. If a State has elected to avail itself of the benefits of this chapter by preparing a comprehensive fish and wildlife plan as provided for under option (1) of subsection (a) of section 777e of this title, and this plan has been approved by the Secretary of the Interior, then the Secretary may, in his discretion, and under such rules and regulations, as he may prescribe, advance funds to the State for financing the United States' pro rata share agreed upon between the State fish and game department and the Secretary.

(b) Construction work; joint payments

Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of the Interior and in accordance with the rules and regulations made pursuant to this chapter. The Secretary of the Interior and the State fish and game department of each State may jointly determine at what times and in what amounts payments shall be made under this chapter. Such payments shall be made against the said appropriation to such official or officials, or depository, as may be designated by the State fish and game department and authorized under the laws of the State to receive public funds of the State.

§ 777g. Maintenance of projects

(a) Duty of States; status of projects; title to property

To maintain fish-restoration and management projects established under the provisions of this chapter shall be the duty of the States according to their respective laws. Beginning July 1, 1953, maintenance of projects heretofore completed under the provisions of this chapter may be considered as projects under this chapter. Title to any real or personal property acquired by any State, and to improvements placed on State-owned lands through the use of funds paid to the State under the provisions of this chapter, shall be vested in such State.

(b) Funding requirements

(1) Each State shall allocate 15 percent of the funds apportioned to it for each fiscal year under section 777c of this title for the payment of up to 75 per centum of the costs of the acquisition, development, renovation, or improvement of facilities (and auxiliary facilities necessary to insure the safe use of such facilities) that create, or add to, public access to the waters of the United States to improve the suitability of such waters for recreational boating purposes. Notwithstanding this provision, States within a United States Fish and Wildlife Service Administrative Region may allocate more or less than 15 percent in a fiscal year, provided that the total regional allocation averages 15 percent over a 5 year period.

(2) So much of the funds that are allocated by a State under paragraph (1) in any fiscal year that remained unexpended or unobligated at the close of such year are authorized to be made available for the purposes described in paragraph (1) during the succeeding four fiscal years, but any portion of such funds that remain unexpended or unobligated at the close of such period are authorized to be made available for expenditure by the Secretary of the Interior to supplement the 58.012 percent of the balance of each annual appropriation to be apportioned among the States under section 777c(c) of this title.

Each State may use not to exceed 15 percent of the funds apportioned to it under section 777c of this title to pay up to 75 per centum of the costs of an aquatic resource education and outreach and communications program for the purpose of increasing public understanding of the Nation's water resources and associated aquatic life forms. The non-Federal share of such costs may not be derived from other Federal grant programs. The Secretary shall issue not later than the one hundred and twentieth day after the effective date of this subsection such regulations as he deems advisable regarding the criteria for such programs.
