

§ 833c. Preference to public bodies and cooperatives

In order to insure that the facilities for the generation of electric energy at the Fort Peck project shall be operated for the benefit of the general public, and particularly of domestic and rural consumers, the Bureau shall at all times, in disposing of electric energy generated at said project, give preference and priority to public bodies and cooperatives.

(May 18, 1938, ch. 250, § 4, 52 Stat. 405.)

TRANSFER OF FUNCTIONS

Power marketing functions of Bureau of Reclamation, including construction, operation, and maintenance of transmission lines and attendant facilities, transferred to Secretary of Energy by section 7152(a)(1)(E), (3) of Title 42, The Public Health and Welfare, and are to be exercised by Secretary through a separate Administration within Department of Energy.

For transfer of functions of other officers, employees, and agencies of Department of the Interior, with certain exceptions, to Secretary of the Interior, with power to delegate, see Reorg. Plan No. 3 of 1950, §§1, 2, eff. May 24, 1950, 15 F.R. 3174, 64 Stat. 1262, set out in the Appendix to Title 5, Government Organization and Employees.

§ 833d. Rate schedules; preparation, approval, and uniformity

Schedules of rates and charges for electric energy produced at the Fort Peck project and sold to purchasers as in this chapter provided shall be prepared by the Bureau and become effective upon confirmation and approval thereof by the Secretary of Energy. Subject to confirmation and approval by the Secretary of Energy, such rate schedules may be modified from time to time by the Bureau and shall be fixed and established with a view to encouraging the widest possible diversified use of electric energy. The said rate schedules may provide for uniform rate or rates uniform throughout prescribed transmission areas in order to extend the benefits of an integrated transmission system and encourage the equitable distribution of the electric energy developed at the Fort Peck project.

Executive and administrative functions of Federal Power Commission, with certain reservations, transferred to Chairman of such Commission, with authority vested in him to authorize their performance by any officer, employee, or administrative unit under his jurisdiction, by Reorg. Plan No. 9 of 1950, §§1, 2, eff. May 24,

1950, 15 F.R. 3175, 64 Stat. 1265, set out as a note under section 792 of this title.

§ 833e. Factors in determining rate schedules

It is the intent of Congress that rate schedules for the sale of electric energy which is or may be generated at the Fort Peck project in excess of the amount required for operating the dam and appurtenant works at said project shall be determined with due regard to and predicated upon the fact that such electric energy is developed from water power created as an incident to the construction of the dam in the Missouri River at the Fort Peck project for the purposes set forth in section 833 of this title. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of Fort Peck project) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment over a reasonable period of years. Rate schedules shall be based upon an allocation of costs made by the Secretary of Energy. In computing the cost of electric energy developed from water power created as an incident to and a byproduct of the construction of Fort Peck project, the Secretary of Energy may allocate to the costs of electric facilities such a share of the cost of facilities having joint value for the production of electric energy and other purposes as the power development may fairly bear as compared with such other purposes.

§ 833f. Purchase of supplies and services

Notwithstanding any other provision of law, all purchases and contracts made by the Bureau or the Secretary of the Army for supplies or for services, except for personal services, shall be made after advertising, in such manner and at such times, sufficiently in advance of opening bids, as the Bureau or Secretary of the Army, as the case may be, shall determine to be adequate to insure notice and opportunity for competi-

tion. Such advertisement shall not be required, however, when (1) an emergency requires immediate delivery of the supplies or performance of the services; or (2) repair parts, accessories, supplemental equipment, or services are required for supplies or services previously furnished or contracted for; or (3) the aggregate amount involved in any purchase of supplies or procurement of services does not exceed \$500; in which cases such purchase of supplies or procurement of services may be made in the open market in the manner common among businessmen. In comparing bids and in making awards, the Bureau or the Secretary of the Army, as the case may be, may consider such factors as relative quality and adaptability of supplies or services, the bidder's financial responsibility, skill, experience, record of integrity in dealing, and ability to furnish repairs and maintenance services, the time of delivery or performance offered, and whether the bidder has complied with the specifications.
