§ 941h. Great Lakes monitoring, assessment, science, and research

(a) Definitions

In this section:

(1) Director

The term “Director” means the Director of the United States Geological Survey.

(2) Great Lakes Basin

The term “Great Lakes Basin” means the air, land, water, and living organisms in the United States within the drainage basin of the Saint Lawrence River at and upstream from the point at which such river and the Great Lakes become the international boundary between Canada and the United States.

(b) Findings

Congress finds the following:

(1) The Great Lakes support a diverse ecosystem, on which the vibrant and economically valuable Great Lakes fisheries depend.

(2) To continue successful fisheries management and coordination, as has occurred since signing of the Convention on Great Lakes Fisheries between the United States and Canada on September 10, 1954, management of the ecosystem and its fisheries require sound, reliable science, and the use of modern scientific technologies.

(3) Fisheries research is necessary to support multi-jurisdictional fishery management decisions and actions regarding recreational and sport fishing, commercial fisheries, tribal har-
