

and heavy metals, on the environment, including marine and aquatic organisms;

(C) effects of modification of habitats, including coastal wetlands, seagrass beds and reefs, on the environment, including marine organisms;

(D) assessment of impacts of pollutant sources and pollutant discharges into the coastal environment;

(E) transport, dispersion, transformation, and fate and effect of contaminants in the marine environment;

(F) marine and estuarine habitat assessment and restoration;

(G) methods and techniques for modeling environmental quality conditions and trends;

(H) methods and techniques for sampling of water, sediment, marine and aquatic organisms, and demonstration of such methods and techniques;

(I) the effects on human health and the environment of contaminants or combinations of contaminants at various levels, whether natural or anthropogenic, that are found in the marine environment;

(J) environmental assessment of potential effects of major coastal and offshore development projects in the region;

(K) assessment of the effects of climate change on marine resources in the region; and

(L) analysis and interpretation of research data for the benefit of State and local environmental protection and resource management agencies in the region.

(3) Grant applications submitted pursuant to this subsection shall include—

(A) a description of the specific research projects to be conducted;

(B) identification of the organization responsible for each project and the principal investigator directing the project;

(C) a budget statement for each project;

(D) a schedule of milestones and interim products for each research project;

(E) a description of the relationship of the proposed project to the goals, objectives, and priorities of the research plan for the region and to other research projects; and

(F) any other information which may be required by the Administrator.

(c) Review and approval of project proposals

(1) The Administrator of the National Oceanic and Atmospheric Administration shall review the annual grant application and, with the concurrence of the Administrator of the Environmental Protection Agency, approve such grant application with such conditions as are determined to be appropriate based on peer reviews conducted pursuant to paragraph (2).

(2) The Administrator of the National Oceanic and Atmospheric Administration shall develop a system of peer review of grant applications which shall ensure that only the highest quality research is approved for funding and that each project is reviewed by research scientists outside the region concerned.

(d) Reporting

Any recipient of a grant under this section shall report to the appropriate Board, not later

than 18 months after award of the grant, on the activities of such recipient conducted pursuant to this subsection. Such report shall include narrative summaries and technical data in such form as the Administrator of the National Oceanic and Atmospheric Administration may require.

(Pub. L. 92-532, title IV, §405, as added Pub. L. 101-593, title III, §301, Nov. 16, 1990, 104 Stat. 2967.)

§ 1447e. Report on research program

(a) Preparation and submission of report

Each Board receiving a grant under section 1447d of this title shall, not later than 2 years after the approval of its comprehensive plan under section 1447d of this title and at 2-year intervals thereafter, prepare and submit to the Administrator of the National Oceanic and Atmospheric Administration and the Administrator of the Environmental Protection Agency a report describing—

(1) the findings and conclusions of research projects conducted in the region;

(2) recommendations for improvements in the design or implementation of programs for the protection of the marine environment; and

(3) available data and information concerning ecosystem health within the region.

(b) Transmittal to Congress

Upon receipt of a report prepared by a Board under subsection (a), the Administrator of the National Oceanic and Atmospheric Administration and the Administrator of the Environmental Protection Agency shall transmit a copy of such report to the Committees on Commerce, Science, and Transportation and on Environment and Public Works of the Senate and to the Committee on Merchant Marine and Fisheries of the House of Representatives.

(Pub. L. 92-532, title IV, §406, as added Pub. L. 101-593, title III, §301, Nov. 16, 1990, 104 Stat. 2969.)

ABOLITION OF HOUSE COMMITTEE ON MERCHANT MARINE AND FISHERIES

Committee on Merchant Marine and Fisheries of House of Representatives abolished and its jurisdiction transferred by House Resolution No. 6, One Hundred Fourth Congress, Jan. 4, 1995. Committee on Merchant Marine and Fisheries of House of Representatives treated as referring to Committee on Science of House of Representatives in case of provisions relating to marine research by section 1(b)(3) of Pub. L. 104-14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Science of House of Representatives changed to Committee on Science and Technology of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007. Committee on Science and Technology of House of Representatives changed to Committee on Science, Space, and Technology of House of Representatives by House Resolution No. 5, One Hundred Twelfth Congress, Jan. 5, 2011.

§ 1447f. Authorization of appropriations

(a) In general

For purposes of carrying out the provisions of this chapter, there are authorized to be appropriated \$18,000,000 for each of the fiscal years 1992 through 1996.

(b) Allocation

(1) Of funds appropriated in any fiscal year, not more than \$500,000 shall be reserved for administration of this chapter by the National Oceanic and Atmospheric Administration and the Environmental Protection Agency.

(2) Funds appropriated in a fiscal year which are available after allocation pursuant to paragraph (1), shall be used to support the administrative costs of Boards established pursuant to section 1447b(a) of this title, provided that such funding does not exceed \$300,000 for each research Board in each fiscal year.

(3) Seventy-five percent of funds appropriated in a fiscal year available after allocation pursuant to paragraphs (1) and (2), shall be allocated equally among Boards located in regions submitting research project grant applications pursuant to section 1447d(b) of this title.

(4) Twenty-five percent of funds appropriated in a fiscal year available after allocation pursuant to paragraphs (1) and (2), shall be allocated among Boards located in regions submitting research project grant applications pursuant to section 1447d(b) of this title which, in the judgment of the Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Administrator of the Environmental Protection Agency, propose the most needed and highest quality research.

(Pub. L. 92-532, title IV, §407, as added Pub. L. 101-593, title III, §301, Nov. 16, 1990, 104 Stat. 2969.)

CHAPTER 33—COASTAL ZONE MANAGEMENT

Sec.	
1451.	Congressional findings.
1452.	Congressional declaration of policy.
1453.	Definitions.
1454.	Submittal of State program for approval.

1456.	Coordination and cooperation.
1456-1.	Authorization of the Coastal and Estuarine Land Conservation Program.
1456a.	Coastal Zone Management Fund.
1456b.	Coastal zone enhancement grants.
1456c.	Technical assistance.
1456d.	Coastal and Estuarine Land Conservation Program.
1457.	Public hearings.
1458.	Review of performance.
1459.	Records and audit.
1460.	Walter B. Jones excellence in coastal zone management awards.
1461.	National Estuarine Research Reserve System.
1462.	Coastal zone management reports.
1463.	Rules and regulations.
1463a.	Omitted.
1463b.	National Coastal Resources Research and Development Institute.
1464.	Authorization of appropriations.
1465.	Appeals to the Secretary.
1466.	Appeals relating to offshore mineral development.

§ 1451. Congressional findings

The Congress finds that—

(a) There is a national interest in the effective management, beneficial use, protection, and development of the coastal zone.

(b) The coastal zone is rich in a variety of natural, commercial, recreational, ecological, in-

dustrial, and esthetic resources of immediate and potential value to the present and future well-being of the Nation.

(c) The increasing and competing demands upon the lands and waters of our coastal zone occasioned by population growth and economic development, including requirements for industry, commerce, residential development, recreation, extraction of mineral resources and fossil fuels, transportation and navigation, waste disposal, and harvesting of fish, shellfish, and other living marine resources, have resulted in the loss of living marine resources, wildlife, nutrient-rich areas, permanent and adverse changes to ecological systems, decreasing open space for public use, and shoreline erosion.

(d) The habitat areas of the coastal zone, and the fish, shellfish, other living marine resources, and wildlife therein, are ecologically fragile and consequently extremely vulnerable to destruction by man's alterations.

(e) Important ecological, cultural, historic, and esthetic values in the coastal zone which are essential to the well-being of all citizens are being irretrievably damaged or lost.

(f) New and expanding demands for food, energy, minerals, defense needs, recreation, waste disposal, transportation, and industrial activities in the Great Lakes, territorial sea, exclusive economic zone, and Outer Continental Shelf are placing stress on these areas and are creating the need for resolution of serious conflicts among important and competing uses and values in coastal and ocean waters;¹

(g) Special natural and scenic characteristics are being damaged by ill-planned development that threatens these values.

(h) In light of competing demands and the urgent need to protect and to give high priority to natural systems in the coastal zone, present state and local institutional arrangements for planning and regulating land and water uses in such areas are inadequate.

(i) The key to more effective protection and use of the land and water resources of the coastal zone is to encourage the states to exercise their full authority over the lands and waters in the coastal zone by assisting the states, in cooperation with Federal and local governments and other vitally affected interests, in developing land and water use programs for the coastal zone, including unified policies, criteria, standards, methods, and processes for dealing with land and water use decisions of more than local significance.

(j) The national objective of attaining a greater degree of energy self-sufficiency would be advanced by providing Federal financial assistance to meet state and local needs resulting from new or expanded energy activity in or affecting the coastal zone.

(k) Land uses in the coastal zone, and the uses of adjacent lands which drain into the coastal zone, may significantly affect the quality of coastal waters and habitats, and efforts to control coastal water pollution from land use activities must be improved.

(l) Because global warming may result in a substantial sea level rise with serious adverse

¹ So in original. The semicolon probably should be a period.
