§ 1606. Budget requests by President for Forest Service activities

(a) Transmittal to Speaker of House and President of Senate of Assessment, Program and Statement of Policy used in framing requests; time for transmittal; implementation by President of programs established under Statement of Policy unless Statement subsequently disapproved by Congress; time for disapproval

On the date Congress first convenes in 1976 and thereafter following each updating of the Assessment and the Program, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate, when Congress convenes, the Assessment as set forth in section 1601 of this title and the Pro-

gram as set forth in section 1602 of this title, together with a detailed Statement of Policy intended to be used in framing budget requests by that Administration for Forest Service activities for the five- or ten-year program period beginning during the term of such Congress for such further action deemed appropriate by the Congress. Following the transmission of such Assessment, Program, and Statement of Policy, the President shall, subject to other actions of the Congress, carry out programs already established by law in accordance with such Statement of Policy or any subsequent amendment or modification thereof approved by the Congress, unless, before the end of the first period of ninety calendar days of continuous session of Congress after the date on which the President of the Senate and the Speaker of the House are recipients of the transmission of such Assessment, Program, and Statement of Policy, either House adopts a resolution reported by the appropriate committee of jurisdiction disapproving the Statement of Policy. For the purpose of this subsection, the continuity of a session shall be deemed to be broken only by an adjournment sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain shall be excluded in the computation of the ninety-day period. Notwithstanding any other provision of this subchapter, Congress may revise or modify the Statement of Policy transmitted by the President, and the revised or modified Statement of Policy shall be used in framing budget requests.

(b) Contents of requests to show extent of compliance of projected programs and policies with policies approved by Congress; requests not conforming to approved policies; expenditure of appropriations

Commencing with the fiscal budget for the year ending September 30, 1977, requests presented by the President to the Congress governing Forest Service activities shall express in qualitative and quantitative terms the extent to which the programs and policies projected under the budget meet the policies approved by the Congress in accordance with subsection (a) of this section. In any case in which such budget so presented recommends a course which fails to meet the policies so established, the President shall specifically set forth the reason or reasons for requesting the Congress to approve the lesser programs or policies presented. Amounts appropriated to carry out the policies approved in accordance with subsection (a) of this section shall be expended in accordance with the Congressional Budget and Impoundment Control Act of 1974.

(c) Annual evaluation report to Congress of Program components; time of submission; status of major research programs; application of findings; status, etc., of cooperative forestry assistance programs and activities

For the purpose of providing information that will aid Congress in its oversight responsibilities and improve the accountability of agency expenditures and activities, the Secretary shall prepare an annual report which evaluates the component elements of the Program required to

be prepared by section 1602 of this title which shall be furnished to the Congress at the time of submission of the annual fiscal budget commencing with the third fiscal year after August 17, 1974. With regard to the research component of the program, the report shall include, but not be limited to, a description of the status of major research programs, significant findings, and how these findings will be applied in National Forest System management and in cooperative State and private Forest Service programs. With regard to the cooperative forestry assistance part of the Program, the report shall include, but not be limited to, a description of the status, accomplishments, needs, and work backlogs for the programs and activities conducted under the Cooperative Forestry Assistance Act of 1978 [16 U.S.C. 2101 et seq.].

(d) Required contents of annual evaluation report

These annual evaluation reports shall set forth progress in implementing the Program required to be prepared by section 1602 of this title, together with accomplishments of the Program as they relate to the objectives of the Assessment. Objectives should be set forth in qualitative and quantitative terms and accomplishments should be reported accordingly. The report shall contain appropriate measurements of pertinent costs and benefits. The evaluation shall assess the balance between economic factors and environmental quality factors. Program benefits shall include, but not be limited to, environmental quality factors such as esthetics, public access, wildlife habitat, recreational and wilderness use, and economic factors such as the excess of cost savings over the value of foregone benefits and the rate of return on renewable resources.

(e) Additional required contents of annual evaluation report

The reports shall indicate plans for implementing corrective action and recommendations for new legislation where warranted.

(f) Form of annual evaluation report

The reports shall be structured for Congress in concise summary form with necessary detailed data in appendices.

STATEMENT OF POLICY

Pub. L. 96-514, title III, §310, Dec. 12, 1980, 94 Stat. 2984, provided that: “The Statement of Policy transmitted by the President to the Speaker of the House of Representatives and the President of the Senate on June 19, 1980, as required under section 8 of the Forest and Rangeland Renewable Resources Planning Act of 1974 [this section], is revised and modified to read as follows:

“STATEMENT OF POLICY

“BASIC PRINCIPLES

“It is the policy of the United States—

“(1) forests and rangeland, in all ownerships, should be managed to maximize their net social and economic contributions to the Nation’s well being, in an environmentally sound manner.

“(2) the Nation’s forested land, except such public land that is determined by law or policy to be maintained in its existing or natural state, should be managed at levels that realize its capabilities to satisfy the Nation’s need for food, fiber, energy, water, soil stability, wildlife and fish, recreation, and esthetic values.

“(3) the productivity of suitable forested land, in all ownerships, should be maintained and enhanced to minimize the inflationary impacts of wood product prices on the domestic economy and permit a net export of forest products by the year 2030.

“(4) in order to achieve this goal, it is recognized that in the major timber growing regions most of the commercial timber lands will have to be brought to and maintained, where possible, at 90 percent of their potential level of growth, consistent with the provi-

sions of the National Forest Management Act of 1976 [see Short Title of 1976 Amendment note set out under section 1600 of this title] on Federal lands, so that all resources are utilized in the combination that will best meet the needs of the American people.

“(5) forest and rangeland protection programs should be improved to more adequately protect forest and rangeland resources from fire, erosion, insects, disease, and the introduction or spread of noxious weeds, insects, and animals.

“(6) the Federal agencies carrying out the policies contained in this Statement will cooperate and coordinate their efforts to accomplish the goals contained in this Statement and will consult, coordinate, and cooperate with the planning efforts of the States.

“(7) in carrying out the Assessment and the Program under the Forest and Rangeland Renewable Resources Planning Act of 1974 [this subchapter] and the Appraisal and the Program under the Soil and Water Resources Conservation Act of 1977 [section 2001 et seq. of this title], the Secretary of Agriculture shall assure that resources and economic information and evaluation data will be continually improved so that the best possible information is always available for use by Federal agencies and the public.

“RANGE LAND DATA BASE AND ITS IMPROVEMENT

“The data on and understanding of the cover and condition of range lands is less refined than the data on and understanding of commercial forest land. Range lands have significant value in the production of water and protection of watersheds; the production of fish and wildlife food and habitat; recreation; and the production of livestock forage. An adequate data base on the cover and condition of range lands should be developed by the year 1990. Currently, cattle production from these lands is annually estimated at 213 million animal unit months of livestock forage. These lands should be maintained and enhanced, including their water and other resource values, so that they can annually provide 310 million animal units months of forage by the year 2030, along with other benefits.

“GENERAL ACCEPTANCE OF HIGH BOUND PROGRAM

“Congress generally accepts the ‘high-bound’ program described on pages 7 through 18 of the 1980 Report to Congress on the Nation’s Renewable Resources prepared by the Secretary of Agriculture. However, Congress finds that the ‘high-bound’ program may not be sufficient to accomplish the goals contained in this statement, particularly in the area of range and watershed resources, State and private forest cooperation and timber management.

“STATE AND PRIVATE LANDS

“States and owners of private forest and rangelands will be encouraged, consistent with their individual objectives, to manage their land in support of this Statement of Policy. The State and private forestry and range programs of the Forest Service will be essential to the furtherance of this Statement of Policy.

“FUNDING THE GOALS

“In order to accomplish the policy goals contained in this statement by the year 2030, the Federal Government should adequately fund programs of research (including cooperative research), extension, cooperative forestry assistance and protection, and improved management of the forest and rangelands. The Secretary of Agriculture shall continue his efforts to evaluate the cost-effectiveness of the renewable resource programs.”

STATEMENT OF PURPOSES OF AMENDMENT BY
COOPERATIVE FORESTRY ASSISTANCE ACT OF 1978

Section 15, formerly section 12 of Pub. L. 95-313, renumbered §15, Pub. L. 101-624, title XII, §1215(1), Nov. 28, 1990, 104 Stat. 3525, provided in part that the amendment of subsec. (c) of this section by Pub. L. 95-313 is to insure that Congress has adequate information to

implement its oversight responsibilities and to provide accountability for expenditures and activities under the Cooperative Forestry Assistance Act of 1978. See Short Title note set out under section 2101 of this title for classification of the Cooperative Forestry Assistance Act of 1978 in the Code.

§ 1606a. Reforestation Trust Fund

(a) Establishment; source of funds

There is established in the Treasury of the United States a trust fund, to be known as the Reforestation Trust Fund (hereinafter in this section referred to as the "Trust Fund"), consisting of such amounts as are transferred to the Trust Fund under subsection (b)(1) and any interest earned on investment of amounts in the Trust Fund under subsection (c)(2).

(b) Transfer of certain tariff receipts to Trust Fund; fiscal year limitation; quarterly transfers; adjustment of estimates

(1) Subject to the limitation in paragraph (2), the Secretary of the Treasury shall transfer to the Trust Fund an amount equal to the sum of the tariffs received in the Treasury after January 1, 1989, under headings 4401 through 4412 and subheadings 4418.50.00, 4418.90.20, 4420.10.00, 4420.90.80, 4421.90.10 through 4421.90.20, and 4421.90.70 of chapter 44, subheadings 6808.00.00 and 6809.11.00 of chapter 68 and subheading 9614.10.00 of chapter 96 of the Harmonized Tariff Schedule of the United States.

(2) The Secretary shall not transfer more than \$30,000,000 to the Trust Fund for any fiscal year.

(3) The amounts required to be transferred to the Trust Fund under paragraph (1) shall be transferred at least quarterly from the general fund of the Treasury to the Trust Fund on the basis of estimates made by the Secretary of the Treasury. Proper adjustment shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of or less than the amounts required to be transferred.

(c) Report to Congress; printing as House and Senate document; investments; sale and redemption of obligations; credits for Trust Fund

(1) It shall be the duty of the Secretary of the Treasury to hold the Trust Fund, and (after consultation with the Secretary of Agriculture) to report to the Congress each year on the financial condition and the results of the operations of the Trust Fund during the preceding fiscal year and on its expected condition and operations during the next fiscal year. Such report shall be printed as both a House and Senate document of the session of the Congress to which the report is made.

(2)(A) It shall be the duty of the Secretary of the Treasury to invest such portion of the Trust Fund as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (i) on original issue at the issue price, or (ii) by purchase of outstanding obligations at the market price. The purposes for which obligations of the United States may be issued under chapter 31 of title 31 are

hereby extended to authorize the issuance at par of special obligations exclusively to the Trust Fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the Public Debt; except that where such average rate is not a multiple of one-eighth of 1 percent, the rate of interest of such special obligations shall be the multiple of one-eighth of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary of the Treasury determines that the purchase of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States on original issue or at the market price, is not in the public interest.

(B) Any obligation acquired by the Trust Fund (except special obligations issued exclusively to the Trust Fund) may be sold by the Secretary of the Treasury at the market price, and such special obligations may be redeemed at par plus accrued interest.

(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in Trust Fund shall be credited to and form a part of the Trust Fund.

(d) Obligations from Trust Fund

The Secretary of Agriculture is on and after December 19, 1985, authorized to obligate such sums as are available in the Trust Fund (including any amounts not obligated in previous fiscal years) for—

(1) reforestation and timber stand improvement as specified in section 1601(d) of this title and other forest stand improvement activities to enhance forest health and reduce hazardous fuel loads of forest stands in the National Forest System; and

(2) properly allocable administrative costs of the Federal Government for the activities specified above.
