

§ 1609. National Forest System

(a) Congressional declaration of constituent elements and purposes; lands etc., included within; return of lands to public domain

Congress declares that the National Forest System consists of units of federally owned forest, range, and related lands throughout the United States and its territories, united into a nationally significant system dedicated to the long-term benefit for present and future generations, and that it is the purpose of this section to include all such areas into one integral system. The “National Forest System” shall include all national forest lands reserved or withdrawn from the public domain of the United States, all national forest lands acquired through purchase, exchange, donation, or other means, the national grasslands and land utilization projects administered under title III of the Bankhead-Jones Farm Tenant Act [7 U.S.C. 1010 et seq.], and other lands, waters, or interests therein which are administered by the Forest Service or are designated for administration through the Forest Service as a part of the system. Notwithstanding the provisions of section 473 of this title, no land now or hereafter reserved or withdrawn from the public domain as national forests pursuant to section 471¹ of this title, or any act supplementary to and amendatory thereof, shall be returned to the public domain except by an act of Congress.

(b) Location of Forest Service offices

The on-the-ground field offices, field supervisory offices, and regional offices of the Forest Service shall be so situated as to provide the optimum level of convenient, useful services to the public, giving priority to the maintenance and location of facilities in rural areas and towns near the national forest and Forest Service program locations in accordance with the standards in section 2204b-1(b) of title 7.

REFERENCES IN TEXT

The Bankhead-Jones Farm Tenant Act, referred to in subsec. (a), is act July 22, 1937, ch. 517, 50 Stat. 522, as amended. Title III of the Bankhead Jones Farm Tenant Act is classified generally to subchapter III (§1010 et seq.) of chapter 33 of Title 7, Agriculture. For complete classification of this Act to the Code, see Short Title note set out under section 1000 of Title 7 and Tables.

Section 471 of this title, referred to in subsec. (a), was repealed by Pub. L. 94-579, title VII, § 704(a), Oct. 21, 1976, 90 Stat. 2792.)

AMENDMENTS

1976—Subsec. (a). Pub. L. 94-588, § 9, prohibited the return to the public domain of land reserved or withdrawn from the public domain as national forests pursuant to section 471 of this title except by an act of Congress.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transpor-

tation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

AMENDMENTS

2018—Pub. L. 115-141 substituted “Secretary” for “Secretary of Agriculture”.

1976—Pub. L. 94-588, § 10, inserted “and on the date of enactment of any legislation amendatory or supplementary thereto”.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

§ 1611. Timber

(a) Limitations on removal; variations in allowable sale quantity; public participation

The Secretary shall limit the sale of timber from each national forest to a quantity equal to or less than a quantity which can be removed from such forest annually in perpetuity on a

¹ See References in Text note below.

sustained-yield basis: *Provided*, That, in order to meet overall multiple-use objectives, the Secretary may establish an allowable sale quantity for any decade which departs from the projected long-term average sale quantity that would otherwise be established: *Provided further*, That any such planned departure must be consistent with the multiple-use management objectives of the land management plan. Plans for variations in the allowable sale quantity must be made with public participation as required by section 1604(d) of this title. In addition, within any decade, the Secretary may sell a quantity in excess of the annual allowable sale quantity established pursuant to this section in the case of any national forest so long as the average sale quantities of timber from such national forest over the decade covered by the plan do not exceed such quantity limitation. In those cases where a forest has less than two hundred thousand acres of commercial forest land, the Secretary may use two or more forests for purposes of determining the sustained yield.

(b) Salvage harvesting

Nothing in subsection (a) of this section shall prohibit the Secretary from salvage or sanitation harvesting of timber stands which are substantially damaged by fire, windthrow, or other catastrophe, or which are in imminent danger from insect or disease attack. The Secretary may either substitute such timber for timber that would otherwise be sold under the plan or, if not feasible, sell such timber over and above the plan volume.

AMENDMENTS

2018—Subsec. (a). Pub. L. 115-141 substituted “Secretary shall limit” for “Secretary of Agriculture shall limit”.

TRANSFER OF FUNCTIONS

For transfer of certain enforcement functions of Secretary or other official in Department of Agriculture under this subchapter to Federal Inspector, Office of Federal Inspector for Alaska Natural Gas Transportation System, and subsequent transfer to Secretary of Energy, then to Federal Coordinator for Alaska Natural Gas Transportation Projects, see note set out under section 1601 of this title.

TIMBER SALES PIPELINE RESTORATION FUND

Pub. L. 104-134, title I, §101(c) [title III, §327], Apr. 26, 1996, 110 Stat. 1321-156, 1321-206; renumbered title I, Pub. L. 104-140, §1(a), May 2, 1996, 110 Stat. 1327, provided that:

“(a) The Secretary of Agriculture and the Secretary of the Interior shall each establish a Timber Sales Pipeline Restoration Fund (hereinafter ‘Agriculture Fund’ and ‘Interior Fund’ or ‘Funds’). Any revenues received from sales released under section 2001(k) of the fiscal year 1995 Supplemental Appropriations for Disaster Assistance and Rescissions Act [probably means section 2001(k) of Pub. L. 104-19, set out below], minus the funds necessary to make payments to States or local governments under other law concerning the distribution of revenues derived from the affected lands, which are in excess of \$37,500,000 (hereinafter ‘excess revenues’) shall be deposited into the Funds. The distribution of excess revenues between the Agriculture

Fund and Interior Fund shall be calculated by multiplying the total of excess revenues times a fraction with a denominator of the total revenues received from all sales released under such section 2001(k) and numerators of the total revenues received from such sales on lands within the National Forest System and the total revenues received from such sales on lands administered by the Bureau of Land Management, respectively: *Provided*, That revenues or portions thereof from sales released under such section 2001(k), minus the amounts necessary for State and local government payments and other necessary deposits, may be deposited into the Funds immediately upon receipt thereof and subsequently redistributed between the Funds or paid into the United States Treasury as miscellaneous receipts as may be required when the calculation of excess revenues is made.

“(b)(1) From the funds deposited into the Agriculture Fund and into the Interior Fund pursuant to subsection (a)—

“(A) seventy-five percent shall be available, without fiscal year limitation or further appropriation, for preparation of timber sales, other than salvage sales as defined in section 2001(a)(3) of the fiscal year 1995 Supplemental Appropriations for Disaster Assistance and Rescissions Act [probably means section 2001(a)(3) of Pub. L. 104-19, set out below], which—

“(i) are situated on lands within the National Forest System and lands administered by the Bureau of Land Management, respectively; and

“(ii) are in addition to timber sales for which funds are otherwise available in this Act or other appropriations Acts; and

“(B) twenty-five percent shall be available, without fiscal year limitation or further appropriation, to expend on the backlog of recreation projects on lands within the National Forest System and lands administered by the Bureau of Land Management, respectively.

“(2) Expenditures under this subsection for preparation of timber sales may include expenditures for Forest Service activities within the forest land management budget line item and associated timber roads, and Bureau of Land Management activities within the Oregon and California grant lands account and the forestry management area account, as determined by the Secretary concerned.

“(c) Revenues received from any timber sale prepared under subsection (b) or under this subsection, minus the amounts necessary for State and local government payments and other necessary deposits, shall be deposited into the Fund from which funds were expended on such sale. Such deposited revenues shall be available for preparation of additional timber sales and completion of additional recreation projects in accordance with the requirements set forth in subsection (b).

“(d) The Secretary concerned shall terminate all payments into the Agriculture Fund or the Interior Fund, and pay any unobligated funds in the affected Fund into the United States Treasury as miscellaneous receipts, whenever the Secretary concerned makes a finding, published in the Federal Register, that sales sufficient to achieve the total allowable sales quantity of the National Forest System for the Forest Service or the allowable sales level for the Oregon and California grant lands for the Bureau of Land Management, respectively, have been prepared.

“(e) Any timber sales prepared and recreation projects completed under this section shall comply with all applicable environmental and natural resource laws and regulations.

“(f) The Secretary concerned shall report annually to the Committees on Appropriations of the United States Senate and the House of Representatives on expenditures made from the Fund for timber sales and recreation projects, revenues received into the Fund from timber sales, and timber sale preparation and recreation project work undertaken during the previous year and projected for the next year under the Fund. Such information shall be provided for each Forest

Service region and Bureau of Land Management State office.

“(g) The authority of this section shall terminate upon the termination of both Funds in accordance with the provisions of subsection (d).”

EMERGENCY SALVAGE TIMBER SALE PROGRAM

Pub. L. 104-19, title II, §2001, July 27, 1995, 109 Stat. 240, as amended by Pub. L. 104-134, title I, §101(c) [title III, §316], Apr. 26, 1996, 110 Stat. 1321-156, 1321-202; renumbered title I, Pub. L. 104-140, §1(a), May 2, 1996, 110 Stat. 1327, provided for salvage timber sales from certain Federal lands by the Secretary of Agriculture and the Secretary of the Interior from July 27, 1995 to Dec. 31, 1996.

§ 1612. Public participation

(a) Adequate notice and opportunity to comment

In exercising his authorities under this subchapter and other laws applicable to the Forest Service, the Secretary, by regulation, shall establish procedures, including public hearings where appropriate, to give the Federal, State, and local governments and the public adequate notice and an opportunity to comment upon the formulation of standards, criteria, and guidelines applicable to Forest Service programs.

(b) Advisory boards

In providing for public participation in the planning for and management of the National Forest System, the Secretary, pursuant to the Federal Advisory Committee Act (86 Stat. 770) and other applicable law, shall establish and consult such advisory boards as he deems necessary to secure full information and advice on the execution of his responsibilities. The membership of such boards shall be representative of a cross section of groups interested in the planning for and management of the National Forest System and the various types of use and enjoyment of the lands thereof.

SUBCHAPTER II—RESEARCH

§ 1641. Findings and purpose

(a) Findings

Congress finds the following:

(1) Forests and rangeland, and the resources of forests and rangeland, are of strategic economic and ecological importance to the United States, and the Federal Government has an important and substantial role in ensuring the continued health, productivity, and sustainability of the forests and rangeland of the United States.

(2) Over 75 percent of the productive commercial forest land in the United States is privately owned, with some 60 percent owned by small nonindustrial private owners. These 10,000,000 nonindustrial private owners are critical to providing both commodity and non-commodity values to the citizens of the United States.

(3) The National Forest System manages only 17 percent of the commercial timberland of the United States, with over half of the standing softwoods inventory located on that land. Dramatic changes in Federal agency policy during the early 1990’s have significantly curtailed the management of this vast timber resource, causing abrupt shifts in the supply of timber from public to private ownership. As a result of these shifts in supply, some 60 percent of total wood production in the United States is now coming from private forest land in the southern United States.

(4) At the same time that pressures are building for the removal of even more land from commercial production, the Federal Government is significantly reducing its commitment to productivity-related research regarding forests and rangeland, which is critically needed by the private sector for the sustained management of remaining available timber
