(a) In general

In connection with any project undertaken pursuant to this subchapter, provisions, including contracts of sale, may be made for furnishing municipal or miscellaneous water supplies, or for developing and furnishing power in addition to the power requirements of irrigation: *Provided*, That expenditures from appropriations made directly pursuant to the authority contained in section 590z-10(1) of this title to meet costs allocated to municipal or miscellaneous water supplies or surplus power shall not exceed \$500,000 for any one project: *Provided further*, That no contract relating to a water supply for municipal or miscellaneous purposes or to electric power shall be made unless, in the judgment of the Secretary, it will not impair the efficiency of the project for irrigation purposes. All right, title, and interest in the facilities provided for such municipal or miscellaneous water supplies or surplus power and the revenues derived therefrom shall be and remain in the United States. Contracts for such municipal or miscellaneous water supplies or for such surplus power shall be at such rates as, in the Secretary's judgment, will produce revenues at least sufficient to cover the appropriate share of the annual operation and maintenance cost of the project and such fixed charges, including interest, as the Secretary deems proper. Contracts for the sale of surplus power shall be for periods not to exceed forty years and contracts for water supply for municipal or miscellaneous purposes shall be for such periods as the Secretary may determine and may include such renewal options as the Secretary deems desirable: *And provided further*, That in sales or leases of such power, preference shall be given to municipalities and other public corporations or agencies; and also to cooperatives and other nonprofit organizations financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936 [7 U.S.C. 901 et seq.] and any amendments thereof.
