“(1) section 914 of title 17, United States Code, which authorizes the Secretary of Commerce to issue orders extending interim protection under chapter 9 of title 17, United States Code, to mask works fixed in semiconductor chip products and originating in foreign countries that are making good faith efforts and reasonable progress toward providing protection, by treaty or legislation, to mask works of United States nationals, has resulted in substantial and positive legislative developments in foreign countries regarding protection of mask works;

“(3) no multilateral treaty recognizing the protection of mask works has come into force, nor has the United States become bound by any multilateral agreement regarding such protection; and

“(4) bilateral and multilateral relationships regarding the protection of mask works should be directed toward the international protection of mask works in an effective, consistent, and harmonious manner, and the existing bilateral authority of the Secretary of Commerce under chapter 9 of title 17, United States Code, should be extended to facilitate the continued development of protection for mask works.

“(2) the Secretary of Commerce has determined that most of the industrialized countries of the world are eligible for orders affording interim protection under section 914 of title 17, United States Code;

“(3) the World Intellectual Property Organization has commenced meetings to draft an international convention regarding the protection of integrated electronic circuits;

“(4) these bilateral and multilateral developments are encouraging steps toward improving international protection of mask works in a consistent and harmonious manner; and

“(5) it is inherent in section 902 of title 17, United States Code, that the President has the authority to revise, suspend, or revoke, as well as issue, proclamations extending mask work protection to nationals, domiciliaries, and sovereign authorities of other countries, if conditions warrant.
