(2) The National Drug Control Strategy shall also include an assessment of the quality of techniques and instruments to measure current drug use and supply and demand reduction activities, and the adequacy of the coverage of existing national drug use instruments and techniques to measure the total illicit drug user population and groups at-risk for drug use.

(3) The Director shall coordinate an effort among the relevant drug control program agencies to assess the quality, access, management, effectiveness, and standards of accountability of drug abuse treatment, prevention, education, and other demand reduction activities.
