

nations of the Organization of Economic Cooperation and Development (OECD), designed to develop a viable standard governing the allocation of development assistance for the production and export of commodities. Such consultations shall relate to commodities which are in surplus in the world market and if produced for export would cause substantial harm to producers of the same, similar or competing products. Not later than one year after the enactment of this Act [Oct. 18, 1978] the President shall report to the President of the Senate, the Speaker of the House of Representatives, and the Chairmen of the House and Senate Appropriations Committees on the progress made in carrying out this section."

**POLICY WITH RESPECT TO COUNTRIES MOST SERIOUSLY AFFECTED BY FOOD SHORTAGES; PRESIDENTIAL REPORTS TO CONGRESS**

Pub. L. 93-559, §55(a), Dec. 30, 1974, 88 Stat. 1819, provided that: "The United Nations has designated thirty-two countries as 'Most Seriously Affected' by the current economic crisis. These are countries without the internal food production capability or the foreign exchange availability to secure food to meet their immediate food requirements. The Congress calls upon the President and Secretary of State to take the following actions designed to mobilize appropriate resources to meet the food emergency:

"(1) Review and make appropriate adjustments in the level of programming of our food and fertilizer assistance programs with the aim of increasing to the maximum extent feasible the volume of food and fertilizer available to those countries most seriously affected by current food shortages.

"(2) Call upon all traditional and potential new donors of food, fertilizer, or the means of financing these commodities to immediately increase their participation in efforts to address the emergency food needs of the developing world.

"(3) Make available to these most seriously affected countries the maximum feasible volume of food commodities, with appropriate regard to the current domestic price and supply situations.

"(4) Maintain regular and full consultation with the appropriate committees of the Congress and report to the Congress and the Nation on steps which are being taken to help meet this food emergency. In accordance with this provision, the President shall report to the Congress on a global assessment of food needs for fiscal year 1975, specifying expected food grain deficits and currently planned programming of food assistance, and steps which are being taken to encourage other countries to increase their participation in food assistance or the financing of food assistance. Such report should reach the Congress promptly and should be supplemented quarterly for the remainder of fiscal year 1975.

"(5) The Congress directs that during the fiscal year ending June 30, 1975, not more than 30 percent of concessional food aid should be allocated to countries other than those which are most seriously affected by current food shortages, unless the President demonstrates to the appropriate Committees of the Congress that the use of such food assistance is solely for humanitarian food purposes.

"(6) The Congress calls upon the President to proceed with the implementation of resolutions and recommendations adopted by the World Food Conference. The Congress believes that it is incumbent upon the United States to take a leading role in assisting in the development of a viable and coherent world food policy which would begin the task of alleviating widespread hunger and suffering prevalent in famine-stricken nations. The President shall report to the Congress within 120 days of enactment of this Act [Dec. 30, 1974] on the implementation of the resolutions and the extent to which the United States is participating in the implementation of resolutions adopted at the World Food Conference."

## § 2179. Prototype desalting plant

### (a) Assistance in development

In furtherance of the purposes of subchapter I of this chapter and for the purpose of improving existing, and developing and advancing new, technology and experience in the design, construction, and operation of large-scale desalting plants of advanced concepts which will contribute materially to low-cost desalination in all countries, including the United States, the President, if he determines it to be feasible, is authorized to participate in the development of a large-scale water treatment and desalting prototype plant and necessary appurtenances to be constructed in Israel as an integral part of a dual-purpose power generating and desalting project. Such participation shall include financial, technical, and such other assistance as the President deems appropriate to provide for the study, design, construction, and, for a limited demonstration period of not to exceed five years, operation and maintenance of the water treatment and desalting facilities of the dual-purpose project.

### (b) Terms and conditions

Any agreement entered into under subsection (a) of this section shall include such terms and conditions as the President deems appropriate to insure, among other things, that all information, products, uses, processes, patents, and other developments obtained or utilized in the development of this prototype plant will be available without further cost to the United States for the use and benefit of the United States throughout the world, and to insure that the United States, its officers, and employees have a permanent right to review data and have access to such plant for the purpose of observing its operations and improving science and technology in the field of desalination.

### (c) Contracts

In carrying out the provisions of this section, the President may enter into contracts with public or private agencies and with any person without regard to section 3324(a) and (b) of title 31 and section 6101 of title 41.

### (d) Patents

Nothing in this section shall be construed as intending to deprive the owner of any background patent or any right which such owner may have under that patent.

### (e) Federal agencies

In carrying out the provisions of this section, the President may utilize the personnel, services, and facilities of any Federal agency.

### (f) Authorization of appropriations

The United States costs, other than its administrative costs, for the study, design, construction, and operation of a prototype plant under this section shall not exceed either 50 per centum of the total capital costs of the facilities associated with the production of water, and 50 per centum of the operation and maintenance costs for the demonstration period, or \$20,000,000, whichever is less. There are authorized to be appropriated, subject to the limitations of this subsection, such sums as may be necessary to
