CHAPTER 31—ASSISTIVE TECHNOLOGY FOR INDIVIDUALS WITH DISABILITIES

Sec.	
3001.	Findings and purposes.
3002.	Definitions.
3003.	State grants for assistive technology.
3004.	State grants for protection and advocacy services related to assistive technology.
3005.	National activities.

§ 3001. Findings and purposes**(a) Findings**

Congress finds the following:

(1) Over 54,000,000 individuals in the United States have disabilities, with almost half experiencing severe disabilities that affect their ability to see, hear, communicate, reason, walk, or perform other basic life functions.

(2) Disability is a natural part of the human experience and in no way diminishes the right of individuals to—

(A) live independently;

(B) enjoy self-determination and make choices;

(C) benefit from an education;

(D) pursue meaningful careers; and

(E) enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of society in the United States.

(3) Technology is one of the primary engines for economic activity, education, and innovation in the Nation, and throughout the world. The commitment of the United States to the development and utilization of technology is one of the main factors underlying the strength and vibrancy of the economy of the United States.

(4) As technology has come to play an increasingly important role in the lives of all persons in the United States, in the conduct of business, in the functioning of government, in the fostering of communication, in the conduct of commerce, and in the provision of education, its impact upon the lives of individuals with disabilities in the United States has been comparable to its impact upon the remainder of the citizens of the United States. Any development in mainstream technology will have profound implications for individuals with disabilities in the United States.

(5) Substantial progress has been made in the development of assistive technology de-
