

tiate a study of the need for and feasibility of establishing a reactor engineering simulator facility at a national laboratory, for the primary purpose of fostering research in generic design improvements and simplifications through the simulation of the performance of various types of light water reactors under a wide variety of abnormal conditions and postulated accident conditions.

**(b) Applicability of relevant factors**

In performing the study, the Secretary shall consider relevant factors including, but not limited to—

- (1) the potential advantages that would accrue from the establishment of such a facility;
- (2) the extent to which such a facility would further the generic safety research and development program established by this chapter;
- (3) the extent to which such a facility can be established by nongovernmental entities;
- (4) the opportunities for cost sharing by nongovernmental entities in the construction and operation of such a facility;
- (5) the importance of such a facility in emergencies to limit the extent of any future nuclear powerplant excursions;
- (6) the potential for international cooperation in the establishment and operation of such a facility; and
- (7) the appropriate national laboratory for siting such a facility.

**(c) Report to Congressional committees**

The Secretary shall, by January 1, 1982, submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report characterizing the study and the resulting conclusions and recommendations. (Pub. L. 96-567, § 5, Dec. 22, 1980, 94 Stat. 3331.)

CHANGE OF NAME

**§ 9705. Federal Nuclear Operations Corps' study**

**(a) Cooperation and coordination requirements; purpose**

The Secretary, in cooperation with the Nuclear Regulatory Commission, shall initiate a study as to the sufficiency of efforts in the United States to provide specially trained professionals to operate the controls of nuclear powerplants and other facilities in the back-end of the nuclear fuel cycle. In carrying out the study, the Secretary shall coordinate his activities with the ongoing programs of the utility industry and other Federal governmental agencies for obtaining high standards of operator performance.

**(b) Assessments**

(1) In conducting the study the Secretary shall assess the desirability and feasibility of creating

a Federal Corps of such professionals to inspect and supervise such operations.

(2) The assessment shall consider the establishment of an academy to train Corps professionals in all aspects of nuclear technology, nuclear operations, nuclear regulatory and related law, and health science.

(3) The assessment shall include the appropriate organizational approach for the establishment of a Federal Corps within the executive branch.

**(c) Report to Congress**

The Secretary shall complete the study within one year after December 22, 1980, and shall submit a report along with his recommendations to the Congress.
