(B) ensure that environmental reviews and authorization decisions involving multiple agencies are conducted in a manner that is concurrent, synchronized, timely, and efficient;

(C) provide for agency use, to the maximum extent permitted by law, of environmental studies, analysis, and decisions conducted in support of earlier Federal, State, tribal, or local environmental reviews or authorization decisions; and

(D) ensure that agencies apply NEPA in a manner that reduces unnecessary burdens and delays as much as possible, including by using CEQ's authority to interpret NEPA to simplify and accelerate the NEPA review process.

(ii) *Dispute Resolution.* Except where dispute resolution processes are otherwise provided for in law, including under 42 U.S.C. 4370m-2, or by Executive Order or other Presidential directive, upon request of a lead Federal agency, cooperating agency, or participating agency, CEQ may mediate interagency disputes arising between Federal agencies concerning Federal environmental review or authorization decisions for any infrastructure project pertaining to any environmental law, regulation, order or policy, and shall facilitate resolution of any conflicting positions of the relevant agencies.

(iii) *Agency Procedures.* CEQ shall form and lead an interagency working group, consisting of the Director of OMB, agency CERPOs, and such other representatives of agencies as CEQ deems appropriate. The working group shall review the NEPA implementing regulations and other environmental review and authorization processing policies of agencies that are members of the FPISC to identify impediments to efficient and effective environmental reviews and authorizations for infrastructure projects. The working group shall also identify those agencies that require an action plan to address identified impediments. Based on this review, agencies shall develop action plans that set forth the actions they will take and timelines for completing those actions, and they shall submit those action plans to CEQ and OMB for comment. Each agency's action plan shall, at a minimum, establish procedures for a regular review and update of categorical exclusions, where appropriate.

(f) *Federal Permitting Improvement Steering Council.*

(i) *Organizational Support.* Unless otherwise determined by the Director of OMB, the General Services Administration (GSA) shall provide necessary administrative and organizational support to the FPISC, including personnel, procurement, and budget support. The GSA Administrator, or the head of another agency designated by the Director of OMB, may delegate any authority to the FPISC Executive Director necessary for the operation and administration of the FPISC and the Office of the Executive Director, and the Executive Director may redelegate these authorities, as appropriate.

(ii) *Additional Duties.* In addition to the duties and responsibilities charged to the FPISC Executive Director under 42 U.S.C. 4370m-4370m-12 and this order, the FPISC Executive Director may, upon request of a FPISC member agency or a project sponsor, work with the lead agency or any cooperating and participating agencies to facilitate the environmental review and authorization process for any infrastructure project regardless of whether the project is a "covered project" under 42 U.S.C. 4370m, including by resolving disputes and promoting early coordination. The FPISC Executive Director, the Director of OMB, or the Chairman of CEQ may establish any appropriate policies or procedures concerning the FPISC Executive Director's facilitation of the environmental review and authorization process under this subsection. Agencies must cooperate with the FPISC Executive Director with respect to the implementation of these additional duties.

(g) *Energy Corridors.* The Departments of the Interior and Agriculture, as appropriate, shall be the lead agen-

cies for facilitating the identification and designation of energy right-of-way corridors on Federal lands for Government-wide expedited environmental review for the development of energy infrastructure projects.

(h) The Department of the Interior shall provide to OMB a strategy and recommendations for a multi-agency reorganization effort that would further the aims of this order. OMB, in consultation with the Department of the Interior, shall coordinate with the heads of other agencies affected to incorporate the strategy, as appropriate, into the comprehensive reorganization plan developed under Executive Order 13781 of March 13, 2017 (Comprehensive Plan for Reorganizing the Executive Branch).

SEC. 6. Executive Order 13690 of January 30, 2015 (Establishing a Federal Flood Risk Management Standard and a Process for Further Soliciting and Considering Stakeholder Input), is revoked.

SEC. 7. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.
