

the Public Health Service Act which comprises this chapter.

§ 284r. Basic research

(1) Developing policies

Not later than 2 years after December 13, 2016, the Director of the National Institutes of Health (referred to in this section as the “Director of the National Institutes of Health”), taking into consideration the recommendations developed under section 2039,¹ shall develop policies for projects of basic research funded by National Institutes of Health to assess—

- (A) relevant biological variables including sex, as appropriate; and
- (B) how differences between male and female cells, tissues, or animals may be examined and analyzed.

(2) Revising policies

The Director of the National Institutes of Health may update or revise the policies developed under paragraph (1) as appropriate.

(3) Consultation and outreach

In developing, updating, or revising the policies under this section, the Director of the National Institutes of Health shall—

- (A) consult with—
 - (i) the Office of Research on Women’s Health;
 - (ii) the Office of Laboratory Animal Welfare; and
 - (iii) appropriate members of the scientific and academic communities; and

(B) conduct outreach to solicit feedback from members of the scientific and academic communities on the influence of sex as a variable in basic research, including feedback on when it is appropriate for projects of basic research involving cells, tissues, or animals to include both male and female cells, tissues, or animals.

(4) Additional requirements

The Director of the National Institutes of Health shall—

- (A) ensure that projects of basic research funded by the National Institutes of Health are conducted in accordance with the policies developed, updated, or revised under this section, as applicable; and
- (B) encourage that the results of such research, when published or reported, be disaggregated as appropriate with respect to the analysis of any sex differences.

(Pub. L. 114–255, div. A, title II, §2038(g), Dec. 13, 2016, 130 Stat. 1066.)

REFERENCES IN TEXT

Section 2039, referred to in par. (1), is section 2039 of Pub. L. 114–255, which is set out as a note under section 282 of this title.

CODIFICATION

Section was enacted as part of the 21st Century Cures Act, and not as part of the Public Health Service Act which comprises this chapter.

§ 284s. Tick-borne diseases

(a) In general

The Secretary of Health and Human Services (referred to in this section as “the Secretary”) shall continue to conduct or support epidemiological, basic, translational, and clinical research related to vector-borne diseases, including tick-borne diseases.

(b) Reports

The Secretary shall ensure that each triennial report under section 283 of this title (as amended by section 2032) includes information on actions undertaken by the National Institutes of Health to carry out subsection (a) with respect to tick-borne diseases.

(c) Tick-Borne Diseases Working Group

(1) Establishment

The Secretary shall establish a working group, to be known as the Tick-Borne Disease Working Group (referred to in this section as the “Working Group”), comprised of representatives of appropriate Federal agencies and other non-Federal entities, to provide expertise and to review all efforts within the Department of Health and Human Services related to all tick-borne diseases, to help ensure interagency coordination and minimize overlap, and to examine research priorities.

(2) Responsibilities

The working group shall—

(A) not later than 2 years after December 13, 2016, develop or update a summary of—

- (i) ongoing tick-borne disease research, including research related to causes, prevention, treatment, surveillance, diagnosis, diagnostics, duration of illness, and intervention for individuals with tick-borne diseases;

(ii) advances made pursuant to such research;

(iii) Federal activities related to tick-borne diseases, including—

- (I) epidemiological activities related to tick-borne diseases; and
- (II) basic, clinical, and translational tick-borne disease research related to the pathogenesis, prevention, diagnosis, and treatment of tick-borne diseases;

(iv) gaps in tick-borne disease research described in clause (iii)(II);

(v) the Working Group’s meetings required under paragraph (4); and

(vi) the comments received by the Working Group;

(B) make recommendations to the Secretary regarding any appropriate changes or improvements to such activities and research; and

(C) solicit input from States, localities, and nongovernmental entities, including organizations representing patients, health care providers, researchers, and industry regarding scientific advances, research questions, surveillance activities, and emerging strains in species of pathogenic organisms.

(3) Membership

The members of the working group shall represent a diversity of scientific disciplines and
