

poses of this subsection. The Administrator may transfer a portion of such funds to the Centers for Disease Control and Prevention for such purposes.

(July 1, 1944, ch. 373, title XIV, §1458, as added Pub. L. 104-182, title I, §137, Aug. 6, 1996, 110 Stat. 1680.)

PUBLIC HEALTH ASSESSMENT OF EXPOSURE TO
PERCHLORATE

Pub. L. 108-136, div. A, title III, §323, Nov. 24, 2003, 117 Stat. 1440, provided that:

“(a) **EPIDEMIOLOGICAL STUDY OF EXPOSURE TO PERCHLORATE.**—The Secretary of Defense shall provide for an independent epidemiological study of exposure to perchlorate in drinking water. The entity conducting the study shall—

“(1) assess the incidence of thyroid disease and measurable effects of thyroid function in relation to exposure to perchlorate;

“(2) ensure that the study is of sufficient scope and scale to permit the making of meaningful conclusions of the measurable public health threat associated with exposure to perchlorate, especially the threat to sensitive subpopulations; and

“(3) examine thyroid function, including measurements of urinary iodine and thyroid hormone levels, in a sufficient number of pregnant women, neonates, and infants exposed to perchlorate in drinking water and match measurements of perchlorate levels in the drinking water of each study participant in order to permit the development of meaningful conclusions on the public health threat to individuals exposed to perchlorate.

“(b) **REVIEW OF EFFECTS OF PERCHLORATE ON ENDOCRINE SYSTEM.**—The Secretary shall provide for an independent review of the effects of perchlorate on the human endocrine system. The entity conducting the review shall assess—

“(1) available data on human exposure to perchlorate, including clinical data and data on exposure of sensitive subpopulations, and the levels at which health effects were observed; and

“(2) available data on other substances that have endocrine effects similar to perchlorate to which the public is frequently exposed.

“(c) **PERFORMANCE OF STUDY AND REVIEW.**—(1) The Secretary shall provide for the performance of the study under subsection (a) through the Centers for Disease Control and Prevention, the National Institutes of Health, or another Federal entity with experience in environmental toxicology selected by the Secretary.

“(2) The Secretary shall provide for the performance of the review under subsection (b) through the Centers for Disease Control and Prevention, the National Institutes of Health, or another appropriate Federal research entity with experience in human endocrinology selected by the Secretary. The Secretary shall ensure that the panel conducting the review is composed of individuals with expertise in human endocrinology.

“(d) **REPORTING REQUIREMENTS.**—Not later than June 1, 2005, the Federal entities conducting the study and review under this section shall submit to the Secretary reports containing the results of the study and review.”

§ 300j-19. Algal toxin risk assessment and management

(a) Strategic plan

(1) Development

Not later than 90 days after August 7, 2015, the Administrator shall develop and submit to Congress a strategic plan for assessing and managing risks associated with algal toxins in drinking water provided by public water systems. The strategic plan shall include steps and timelines to—

(A) evaluate the risk to human health from drinking water provided by public water systems contaminated with algal toxins;

(B) establish, publish, and update a comprehensive list of algal toxins which the Administrator determines may have an adverse effect on human health when present in drinking water provided by public water systems, taking into account likely exposure levels;

(C) summarize—

(i) the known adverse human health effects of algal toxins included on the list published under subparagraph (B) when present in drinking water provided by public water systems; and

(ii) factors that cause toxin-producing cyanobacteria and algae to proliferate and express toxins;

(D) with respect to algal toxins included on the list published under subparagraph (B), determine whether to—

(i) publish health advisories pursuant to section 300g-1(b)(1)(F) of this title for such algal toxins in drinking water provided by public water systems;

(ii) establish guidance regarding feasible analytical methods to quantify the presence of algal toxins; and

(iii) establish guidance regarding the frequency of monitoring necessary to determine if such algal toxins are present in drinking water provided by public water systems;

(E) recommend feasible treatment options, including procedures, equipment, and source water protection practices, to mitigate any adverse public health effects of algal toxins included on the list published under subparagraph (B); and

(F) enter into cooperative agreements with, and provide technical assistance to, affected States and public water systems, as identified by the Administrator, for the purpose of managing risks associated with algal toxins included on the list published under subparagraph (B).

(2) Updates

The Administrator shall, as appropriate, update and submit to Congress the strategic plan developed under paragraph (1).

(b) Information coordination

In carrying out this section the Administrator shall—

(1) identify gaps in the Agency’s understanding of algal toxins, including—

(A) the human health effects of algal toxins included on the list published under subsection (a)(1)(B); and

(B) methods and means of testing and monitoring for the presence of harmful algal toxins in source water of, or drinking water provided by, public water systems;

(2) as appropriate, consult with—

(A) other Federal agencies that—

(i) examine or analyze cyanobacteria or algal toxins; or

(ii) address public health concerns related to harmful algal blooms;

- (B) States;
- (C) operators of public water systems;
- (D) multinational agencies;
- (E) foreign governments;
- (F) research and academic institutions;

and

(G) companies that provide relevant drinking water treatment options; and

(3) assemble and publish information from each Federal agency that has—

- (A) examined or analyzed cyanobacteria or algal toxins; or
- (B) addressed public health concerns related to harmful algal blooms.

(c) Use of science

The Administrator shall carry out this section in accordance with the requirements described in section 300g-1(b)(3)(A) of this title, as applicable.

(d) Feasible

For purposes of this section, the term “feasible” has the meaning given such term in section 300g-1(b)(4)(D) of this title.

(July 1, 1944, ch. 373, title XIV, §1459, as added Pub. L. 114-45, §2(a), Aug. 7, 2015, 129 Stat. 473.)

§ 300j-19a. Assistance for small and disadvantaged communities

(a) Definition of underserved community

In this section:

(1) In general

The term “underserved community” means a political subdivision of a State that, as determined by the Administrator, has an inadequate system for obtaining drinking water.

(2) Inclusions

The term “underserved community” includes a political subdivision of a State that either, as determined by the Administrator—

- (A) does not have household drinking water or wastewater services; or
- (B) is served by a public water system that violates, or exceeds, as applicable, a requirement of a national primary drinking water regulation issued under section 300g-1 of this title, including—

- (i) a maximum contaminant level;
- (ii) a treatment technique; and
- (iii) an action level.

(b) Establishment

(1) In general

The Administrator shall establish a program under which grants are provided to eligible entities for use in carrying out projects and activities the primary purposes of which are to assist public water systems in meeting the requirements of this subchapter.

(2) Inclusions

Projects and activities under paragraph (1) include—

- (A) investments necessary for the public water system to comply with the requirements of this subchapter;

(B) assistance that directly and primarily benefits the disadvantaged community on a per-household basis; and

(C) programs to provide household water quality testing, including testing for unregulated contaminants.

(c) Eligible entities

An eligible entity under this section—

(1) is—

- (A) a public water system;
- (B) a water system that is located in an area governed by an Indian Tribe; or
- (C) a State, on behalf of an underserved community; and

(2) serves a community—

(A) that, under affordability criteria established by the State under section 300j-12(d)(3) of this title, is determined by the State—

- (i) to be a disadvantaged community; or
- (ii) to be a community that may become a disadvantaged community as a result of carrying out a project or activity under subsection (b); or

(B) with a population of less than 10,000 individuals that the Administrator determines does not have the capacity to incur debt sufficient to finance a project or activity under subsection (b).

(d) Priority

In prioritizing projects and activities for implementation under this section, the Administrator shall give priority to projects and activities that benefit underserved communities.

(e) Local participation

In prioritizing projects and activities for implementation under this section, the Administrator shall consult with and consider the priorities of States, Indian Tribes, and local governments in which communities described in subsection (c)(2) are located.

(f) Technical, managerial, and financial capability

The Administrator may provide assistance to increase the technical, managerial, and financial capability of an eligible entity receiving a grant under this section if the Administrator determines that the eligible entity lacks appropriate technical, managerial, or financial capability and is not receiving such assistance under another Federal program.

(g) Cost sharing

Before providing a grant to an eligible entity under this section, the Administrator shall enter into a binding agreement with the eligible entity to require the eligible entity—

- (1) to pay not less than 45 percent of the total costs of the project or activity, which may include services, materials, supplies, or other in-kind contributions;
- (2) to provide any land, easements, rights-of-way, and relocations necessary to carry out the project or activity; and
- (3) to pay 100 percent of any operation and maintenance costs associated with the project or activity.

(h) Waiver

The Administrator may waive, in whole or in part, the requirement under subsection (g)(1) if
