

label in accordance with the terms of the rules prescribed under subsection (d)(1)(A), to bear any label with respect to the comparative characteristics of such recycled oil with new oil which is not identical to that permitted by the rule respecting labeling standards prescribed under subsection (d)(1)(A)(ii); and

(2) no rule or order of the Commission may require any container of recycled oil to also bear a label containing any term, phrase, or description which connotes less than substantial equivalency of such recycled oil with new oil.

(f) Conformity of acts of Federal officials to Commission rules

After the effective date of the rules required to be prescribed under subsection (d)(1)(A), all Federal officials shall act within their authority to carry out the purposes of this section, including—

(1) revising procurement policies to encourage procurement of recycled oil for military and nonmilitary Federal uses whenever such recycled oil is available at prices competitive with new oil procured for the same end use; and

(2) educating persons employed by Federal and State governments and private sectors of the economy of the merits of recycled oil, the need for its use in order to reduce the drain on the Nation's oil reserves, and proper disposal of used oil to avoid waste of such oil and to minimize environmental hazards associated with improper disposal.

(Pub. L. 94-163, title III, §383, Dec. 22, 1975, 89 Stat. 940; Pub. L. 100-418, title V, §5115(c), Aug. 23, 1988, 102 Stat. 1433.)

AMENDMENTS

1988—Subsec. (c). Pub. L. 100-418 substituted “National Institute of Standards and Technology” for “National Bureau of Standards” in two places.

APPLICABILITY OF LABELING STANDARDS

Pub. L. 96-463, §4(c), Oct. 15, 1980, 94 Stat. 2056, provided: “Before the effective date of the labeling standards required to be prescribed under section 383(d)(1)(A) of the Energy Policy and Conservation Act [subsec. (d)(1)(A) of this section], no requirement of any rule or order of the Federal Trade Commission may apply, or remain applicable, to any container of recycled oil (as defined in section 383(b) of such Act [subsec. (b) of this section]) if such requirement provides that the container must bear any label referring to the fact that it has been derived from previously used oil. Nothing in this subsection [this note] shall be construed to affect any labeling requirement applicable to recycled oil under any authority of law to the extent such requirement relates to fitness for intended use or any other performance characteristic of such oil or to any characteristic of such oil other than that referred to in the preceding sentence.”

§ 6364. Operation of battery recharging stations in parking areas used by Federal employees

(1) Authorization

(A) In general

The Administrator of General Services may install, construct, operate, and maintain on a reimbursable basis a battery recharging station (or allow, on a reimbursable basis, the use

of a 120-volt electrical receptacle for battery recharging) in a parking area that is in the custody, control, or administrative jurisdiction of the General Services Administration for the use of only privately owned vehicles of employees of the General Services Administration, tenant Federal agencies, and others who are authorized to park in such area to the extent such use by only privately owned vehicles does not interfere with or impede access to the equipment by Federal fleet vehicles.

(B) Areas under other Federal agencies

The Administrator of General Services (on the request of a Federal agency) or the head of a Federal agency may install, construct, operate, and maintain on a reimbursable basis a battery recharging station (or allow, on a reimbursable basis, the use of a 120-volt electrical receptacle for battery recharging) in a parking area that is in the custody, control, or administrative jurisdiction of the requesting Federal agency, to the extent such use by only privately owned vehicles does not interfere with or impede access to the equipment by Federal fleet vehicles.

(C) Use of vendors

The Administrator of General Services, with respect to subparagraph (A) or (B), or the head of a Federal agency, with respect to subparagraph (B), may carry out such subparagraph through a contract with a vendor, under such terms and conditions (including terms relating to the allocation between the Federal agency and the vendor of the costs of carrying out the contract) as the Administrator or the head of the Federal agency, as the case may be, and the vendor may agree to.

(2) Imposition of fees to cover costs

(A) Fees

The Administrator of General Services or the head of the Federal agency under paragraph (1)(B) shall charge fees to the individuals who use the battery recharging station in such amount as is necessary to ensure that the respective agency recovers all of the costs such agency incurs in installing, constructing, operating, and maintaining the station.

(B) Deposit and availability of fees

Any fees collected by the Administrator of General Services or the Federal agency, as the case may be, under this paragraph shall be—

(i) deposited monthly in the Treasury to the credit of the respective agency's appropriations account for the operations of the building where the battery recharging station is located; and

(ii) available for obligation without further appropriation during—

(I) the fiscal year collected; and

(II) the fiscal year following the fiscal year collected.

(3) No effect on existing programs for House and Senate

Nothing in this subsection affects the installation, construction, operation, or maintenance of battery recharging stations by the Architect of the Capitol—

(A) under section 2171 of title 2, relating to employees of the House of Representatives and individuals authorized to park in any parking area under the jurisdiction of the House of Representatives on the Capitol Grounds; or

(B) under section 2170 of title 2, relating to employees of the Senate and individuals authorized to park in any parking area under the jurisdiction of the Senate on the Capitol Grounds.

(4) No effect on similar authorities

Nothing in this subsection—

(A) repeals or limits any existing authorities of a Federal agency to install, construct, operate, or maintain battery recharging stations; or

(B) requires a Federal agency to seek reimbursement for the costs of installing or constructing a battery recharging station—

(i) that has been installed or constructed prior to December 4, 2015;

(ii) that is installed or constructed for Federal fleet vehicles, but that receives incidental use to recharge privately owned vehicles; or

(iii) that is otherwise installed or constructed pursuant to appropriations for that purpose.

(5) Annual report to Congress

Not later than 2 years after December 4, 2015, and annually thereafter for 10 years, the Administrator of General Services shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report describing—

(A) the number of battery recharging stations installed by the Administrator on the Administrator's own initiative under this subsection;

(B) requests from other Federal agencies to install battery recharging stations; and

(C) the status and disposition of requests from other Federal agencies.

(6) Federal agency defined

In this subsection, the term “Federal agency” has the meaning given the term “Executive agency” in section 105 of title 5 and includes—

(A) the United States Postal Service;

(B) the Executive Office of the President;

(C) the military departments (as defined in section 102 of title 5); and

(D) the judicial branch.

(7) Effective date

This subsection shall apply with respect to fiscal year 2016 and each succeeding fiscal year.

(Pub. L. 114–94, div. A, title I, §1413(c), Dec. 4, 2015, 129 Stat. 1418.)

CODIFICATION

Section was enacted as part of the Fixing America's Surface Transportation Act, also known as the FAST Act, and not as part of the Energy Policy and Conservation Act which comprises this chapter.

EFFECTIVE DATE

Section effective Oct. 1, 2015, see section 1003 of Pub. L. 114–94, set out as an Effective Date of 2015 Amendment note under section 5313 of Title 5, Government Organization and Employees.

PART E—ENERGY CONSERVATION PROGRAM FOR SCHOOLS AND HOSPITALS

CODIFICATION

This part was, in the original, designated part G and has been changed to part E for purposes of codification.

§ 6371. Definitions

For the purposes of this part—

(1) The term “building” means any structure the construction of which was completed on or before May 1, 1989, which includes a heating or cooling system, or both.

(2) The term “energy conservation measure” means an installation or modification of an installation in a building which is primarily intended to maintain or reduce energy consumption and reduce energy costs or allow the use of an alternative energy source, including, but not limited to—

(A) insulation of the building structure and systems within the building;

(B) storm windows and doors, multiglazed windows and doors, heat absorbing or heat reflective glazed and coated windows and door systems, additional glazing, reductions in glass area, and other window and door system modifications;

(C) automatic energy control systems and load management systems;

(D) equipment required to operate variable steam, hydraulic, and ventilating systems adjusted by automatic energy control systems;

(E) solar space heating or cooling systems, solar electric generating systems, or any combination thereof;

(F) solar water heating systems;

(G) furnace or utility plant and distribution system modifications including—

(i) replacement burners, furnaces, boilers, or any combination thereof, which substantially increases the energy efficiency of the heating system,

(ii) devices for modifying flue openings which will increase the energy efficiency of the heating system,

(iii) electrical or mechanical furnace ignition systems which replace standing gas pilot lights, and

(iv) utility plant system conversion measures including conversion of existing oil- and gas-fired boiler installations to alternative energy sources, including coal;

(H) caulking and weatherstripping;

(I) replacement or modification of lighting fixtures which replacement or modification increases the energy efficiency of the lighting system without increasing the overall illumination of a facility (unless such increase in illumination is necessary to conform to any applicable State or local building code or, if no such code applies, the increase is considered appropriate by the Secretary);

(J) energy recovery systems;

(K) cogeneration systems which produce steam or forms of energy such as heat, as well as electricity for use primarily within a building or a complex of buildings owned by a school or hospital and which meet such fuel efficiency requirements as the Secretary may by rule prescribe;
