

the Secretary, taking into account population and climate of each State, and such other factors as the Secretary may deem appropriate.

(B) Ten percent of amounts made available under section 6371f(b)<sup>1</sup> of this title shall be allocated among the States in such manner as the Secretary determines by rule after taking into account the availability and cost of fuel or other energy used in, and the amount of fuel or other energy consumed by, schools and hospitals in the States, and such other factors as he deems appropriate.

(2) The Secretary shall allocate 10 percent of the amounts made available under section 6371f(b)<sup>1</sup> of this title in any year for purposes of making grants as provided under section 6371e(b)(2) of this title in excess of the 50 percent limitation contained in section 6371e(b)(1) of this title.

(3) In the case of any State which received for any fiscal year an amount which exceeded 50 percent of the cost of any energy audit as provided in section 6371b(e)(2) of this title, the aggregate amount allocated to such State under this subsection for such fiscal year (determined after applying paragraphs (1) and (2)) shall be reduced by an amount equal to such excess. The amount of such reduction shall be reallocated to the States for such fiscal year as provided in this subsection except that for purposes of such reallocation, the State which received such excess shall not be eligible for any portion of such reallocation.

**(b) Restrictions on allocations to States**

The total amount allocated to any State under subsection (a) in any year shall not exceed 10 percent of the total amount allocated to all the States in such year under such subsection (a). Except for the District of Columbia, Puerto Rico, Guam, American Samoa, the Northern Mariana Islands, and the Virgin Islands, not less than 0.5 percent of such total allocation to all States for that year shall be allocated in such year for the total of grants to States and to schools and hospitals in each State which has an approved State plan under this part.

**(c) Prescription of rules governing allocations among States with regard to energy audits**

Not later than 60 days after November 9, 1978, the Secretary shall prescribe rules governing the allocation among the States of funds for grants for preliminary energy audits and energy audits. Such rules shall take into account the population and climate of such States and such other factors as he may deem appropriate.

**(d) Prescription of rules limiting allocations to States for administrative expenses**

The Secretary shall prescribe rules limiting the amount of funds allocated to a State which may be expended for administrative expenses by such State.

**(e) Reallocations**

Funds allocated for projects in any States for a fiscal year under this section but not obligated in such fiscal year shall be available for reallocation under subsection (a) of this section in the subsequent fiscal year.

Section 6371f of this title, referred to in subsec. (a)(1), (2), was amended by Pub. L. 101-440, §8(b), Oct. 18, 1990, 104 Stat. 1015, and, as so amended, no longer contains a subsec. (b).

AMENDMENTS

1984—Subsec. (b). Pub. L. 98-454 inserted reference to Northern Mariana Islands.

**§ 6371h. Administration; detailed description in annual report**

(a) The Secretary may prescribe such rules as may be necessary in order to carry out the provisions of this part.

(b) The Secretary shall include in his annual report a detailed description of the actions taken under this part in the preceding fiscal year and the actions planned to be taken in the subsequent fiscal year. Such description shall show the allocations made (including the allocations made to each State) and include information on the types of conservation measures implemented, with funds allocated, and an estimate of the energy savings achieved.

AMENDMENTS

1980—Subsec. (b). Pub. L. 96-470 substituted “include in his annual report a detailed description” for “, within one year after November 9, 1978, and annually thereafter while funds are available under this part, submit to Congress a detailed report” and “Such description” for “Such report”.

**§ 6371h-1. Energy sustainability and efficiency grants and loans for institutions**

**(a) Definitions**

In this section:

**(1) Combined heat and power**

The term “combined heat and power” means the generation of electric energy and heat in a single, integrated system, with an overall thermal efficiency of 60 percent or greater on a higher-heating-value basis.

**(2) District energy systems**

The term “district energy systems” means systems providing thermal energy from a renewable energy source, thermal energy source, or highly efficient technology to more than 1 building or fixed energy-consuming use from 1 or more thermal-energy production facilities through pipes or other means to provide space heating, space conditioning, hot water, steam, compression, process energy, or other end uses for that energy.

**(3) Energy sustainability**

The term “energy sustainability” includes using a renewable energy source, thermal energy source, or a highly efficient technology for transportation, electricity generation, heating, cooling, lighting, or other energy services in fixed installations.
