

CODIFICATION

Section was enacted as part of the America COMPETES Reauthorization Act of 2010, also known as the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Reauthorization Act of 2010, and not as part of the National Science and Technology Policy, Organization, and Priorities Act of 1976 which comprises this chapter.

§ 6625. Coordination of international science and technology partnerships

(a) Short title

This section may be cited as the “International Science and Technology Cooperation Act of 2016”.

(b) Establishment

The Director of the Office of Science and Technology Policy shall establish a body under the National Science and Technology Council with the responsibility to identify and coordinate international science and technology cooperation that can strengthen the United States science and technology enterprise, improve economic and national security, and support United States foreign policy goals.

(c) NSTC body leadership

The body established under subsection (b) shall be co-chaired by senior level officials from the Office of Science and Technology Policy and the Department of State.

(d) Responsibilities

The body established under subsection (b) shall—

- (1) plan and coordinate interagency international science and technology cooperative research and training activities and partnerships supported or managed by Federal agencies;
- (2) work with other National Science and Technology Council committees to help plan and coordinate the international component of national science and technology priorities;
- (3) establish Federal priorities and policies for aligning, as appropriate, international science and technology cooperative research and training activities and partnerships supported or managed by Federal agencies with the foreign policy goals of the United States;
- (4) identify opportunities for new international science and technology cooperative research and training partnerships that advance both the science and technology and the foreign policy priorities of the United States;
- (5) in carrying out paragraph (4), solicit input and recommendations from non-Federal science and technology stakeholders, including institutions of higher education, scientific and professional societies, industry, and other relevant organizations and institutions; and
- (6) identify broad issues that influence the ability of United States scientists and engineers to collaborate with foreign counterparts, including barriers to collaboration and access to scientific information.

(e) Report to Congress

The Director of the Office of Science and Technology Policy shall submit to the Committee on Commerce, Science, and Transportation and the

Committee on Foreign Relations of the Senate and the Committee on Science, Space, and Technology and the Committee on Foreign Affairs of the House of Representatives a biennial report on the requirements of this section.

(f) Website

The Director shall make each report available to the public on the Office of Science and Technology Policy website.

(g) Termination

The body established under subsection (b) shall terminate on the date that is 10 years after January 6, 2017.

(h) Additional reports to Congress

The Director of the Office of Science and Technology Policy shall submit, not later than 60 days after January 6, 2017, and annually thereafter, to the Committee on Commerce, Science, and Transportation and the Committee on Foreign Relations of the Senate and the Committee on Science, Space, and Technology and the Committee on Foreign Affairs of the House of Representatives a report that lists and describes the details of all foreign travel by Office of Science and Technology Policy staff and detailees.

(Pub. L. 114-329, title II, §208, Jan. 6, 2017, 130 Stat. 3002.)

CODIFICATION

Section was enacted as the International Science and Technology Cooperation Act of 2016 and also as part of the American Innovation and Competitiveness Act, and not as part of the National Science and Technology Policy, Organization, and Priorities Act of 1976 which comprises this chapter.

DEFINITION

For definition of “institutions of higher education” as used in this section, see section 2 of Pub. L. 114-329, set out as a note under section 1862s of this title.

§ 6626. Working group on inclusion in STEM fields

(a) Establishment

The Office of Science and Technology Policy, in collaboration with Federal departments and agencies, shall establish an interagency working group to compile and summarize available research and best practices on how to promote diversity and inclusions in STEM fields and examine whether barriers exist to promoting diversity and inclusion within Federal agencies employing scientists and engineers.

(b) Responsibilities

The working group shall be responsible for reviewing and assessing research, best practices, and policies across Federal science agencies related to the inclusion of individuals identified in sections 1885a and 1885b of this title in the Federal STEM workforce, including available research and best practices on how to promote diversity and inclusion in STEM fields, including—

- (1) policies providing flexibility for scientists and engineers that are also caregivers, particularly on the timing of research grants;
- (2) policies to address the proper handling of claims of sexual harassment;
