[For definitions of terms used in section 10701 of Pub. L. 111-11, set out above, see section 10302 of Pub. L. 111-11, set out as a note under section 407 of this title.]

§ 620a. Priority to planning reports of certain additional participating projects; reports to States; San Juan-Chama project; Juniper project

In carrying out further investigations of projects under the Federal reclamation laws in the Upper Colorado River Basin, the Secretary shall give priority to completion of planning reports on the Gooseberry, Eagle Divide, Bluestone, Battlement Mesa, Grand Mesa, Yellow Jacket, Basalt, Middle Park (including the Troublesome, Rabbit Ear, and Azure units), Upper Gunnison (including the East River, Ohio Creek, and Tomichi Creek units), Lower Yampa (including the Juniper and Great Northern units), Upper Yampa (including the Hayden Mesa, Wessels, and Toponas units) and Sublette (including a diversion of water from the Green River to the North Platte River Basin Wyoming), Ute Indian unit of the Central Utah Project, San Juan County (Utah), Price River, Grand County (Utah), Gray Canyon, and Juniper (Utah) participating projects: *Provided*, That the planning report for the Ute Indian unit of the Central Utah participating project shall be completed on or before December 31, 1974, to enable the United States of America to meet the commitments heretofore made to the Ute Indian Tribe of the Uintah and Ouray Indian Reservation under the agreement dated September 20, 1965 (Contract Numbered 14-06-W-194). Said reports shall be completed as expeditiously as funds are made available therefor and shall be submitted promptly to the affected States, which in the case of the San Juan-Chama project shall include the State of Texas, and thereafter to the President and the Congress: *Provided*, That with reference to the plans and specifications for the San Juan-Chama project, the storage for control and regulation of water imported from the San Juan River shall (1) be limited to a single off-stream dam and reservoir on a tributary of the Chama River, (2) be used solely for control and regulation and no power facilities shall be established, installed or operated thereat, and (3) be operated at all times by the Bureau of Reclamation of the Department of the Interior in strict compliance with the Rio Grande Compact as administered by the Rio Grande Compact Commission. The preparation of detailed designs and specifications for the works proposed to be constructed in connection with projects shall be carried as far forward as the investigations thereof indicate is reasonable in the circumstances.

The Secretary, concurrently with the investigations directed by the preceding paragraph, shall also give priority to completion of a planning report on the Juniper project.

STORAGE OF WATER AT ABIQUIU DAM IN NEW MEXICO

Pub. L. 100-522, Oct. 24, 1988, 102 Stat. 2604, provided that:

“SECTION 1. WATER STORAGE.

“Notwithstanding any other provision of law, the Secretary of the Army, acting through the Chief of Engineers, is authorized to store 200,000 acre-feet of Rio Grande system water at Abiquiu Dam, New Mexico, in lieu of the water storage authorized by section 5 of Public Law 97-140 [set out below], to the extent that contracting entities under section 5 of Public Law 97-140 no longer require such storage. The Secretary is authorized further to acquire lands adjacent to Abiquiu Dam on which the Secretary holds easements as of the date of enactment of this Act [Oct. 24, 1988] if such acquisition is necessary to assure proper recreational access at Abiquiu Dam. The Secretary is further directed to report to Congress as soon as possible with recommendations on additional easements that may be required to assure implementation of this Act.

“SEC. 2. LIMITATION.

“The authorization to store water and to acquire lands under section 1 is subject to the provisions of the Rio Grande Compact and the resolutions of the Rio Grande Compact Commission.”

STORAGE OF SAN JUAN-CHAMA PROJECT WATER IN OTHER RESERVOIRS

Pub. L. 97-140, § 5, Dec. 29, 1981, 95 Stat. 1717, provided that:

“(a) The proviso of section 2 of Public Law 84-485 [this section] shall not be construed to prohibit the storage of San Juan-Chama project water acquired by contract with the Secretary of the Interior pursuant to Public Law 87-483 [section 615ii et seq. of this title] in any reservoir, including the storage of water for recreation and other beneficial purposes by any party contracting with the Secretary for project water.

“(b) The Secretary of the Army, acting through the Chief of Engineers, is authorized to enter into agreements with entities which have contracted with the Secretary of the Interior for water from the San Juan-Chama project pursuant to Public Law 87-483 for storage of a total of two hundred thousand acre-feet of such water in Abiquiu Reservoir. The Secretary of the Interior is hereby authorized to release San Juan-Chama project water to contracting entities for such storage. The agreements to thus store San Juan-Chama project water shall not interfere with the authorized purposes of the Abiquiu Dam and Reservoir project and shall include a requirement that each user of storage space shall pay any increase in operation and maintenance costs attributable to the storage of that user’s water.

“(c) The Secretary of the Interior is authorized to enter into agreements with entities which have contracted with the Secretary of the Interior for water from the San Juan-Chama project pursuant to Public Law 87-483 for storage of such water in Elephant Butte Reservoir. The Secretary of the Interior is hereby authorized to release San Juan-Chama project water to contracting entities for such storage. Any increase in operation and maintenance costs resulting from such storage not offset by increased power revenues resulting from that storage shall be paid proportionately by the entities for which the San Juan-Chama project water is stored.

“(d) The amount of evaporation loss and spill chargeable to San Juan-Chama project water stored pursuant to subsections (b) and (c) of this section shall be accounted as required by the Rio Grande compact and the procedures established by the Rio Grande Compact Commission.”

§ 620a-1. Construction of participating projects to be concurrent with Central Arizona Project

The Secretary is directed to proceed as nearly as practicable with the construction of the Animas-La Plata, Dolores, Dallas Creek, West Divide, and San Miguel participating Federal reclamation projects concurrently with the construction of the Central Arizona Project, to the end that such projects shall be completed not later than the date of the first delivery of water from said Central Arizona Project: *Provided*, That an appropriate repayment contract for each of said participating projects shall have been executed as provided in section 620c of this title before construction shall start on that particular project.
