Sections 105 and 106 of Public Law 99-546, referred to in text, are sections 105 and 106 of Pub. L. 99-546, title I, Oct. 27, 1986, 100 Stat. 3051, 3052, relating to the automatic adjustment of rates for contracts for delivery of water from the Central Valley project in California, and provisions of such contracts requiring repayment by project water contractors of any deficits in payments of operation and maintenance costs, respectively, and are not classified to the Code.

AMENDMENTS

1994—Pub. L. 103-437 substituted “Natural Resources” for “Interior and Insular Affairs” before “of the House”.

TERMINATION OF AUTHORITIES

For provisions directing that authorities established under this subchapter shall terminate ten years after Mar. 5, 1992, see section 2214(c) of this title.

§ 2214. Applicable period of drought program**(a) In general**

The programs and authorities established under this subchapter shall become operative in any Reclamation State and in the State of Hawaii only after the Governor or Governors of the affected State or States, or on a reservation, when the governing body of the affected tribe has made a request for temporary drought assistance and the Secretary has determined that such temporary assistance is merited, or upon the approval of a drought contingency plan as provided in subchapter II of this chapter.

(b) Coordination with BPA

If a Governor referred to in subsection (a) is the Governor of the State of Washington, Oregon, Idaho, or Montana, the Governor shall coordinate with the Administrator of the Bonneville Power Administration before making a request under subsection (a).

(c) Termination of authority

The authorities established under this subchapter shall terminate on September 30, 2020.

Subsec. (c). Pub. L. 106-566, §201(a)(2), substituted “on September 30, 2005” for “ten years after March 5, 1992”.

§ 2215. Assistance for drought-related planning in reclamation States**(a) In general**

The Secretary may provide financial assistance in the form of cooperative agreements in

States that are eligible to receive drought assistance under this subchapter to promote the development of drought contingency plans under subchapter II.

(b) Report

Not later than one year after December 23, 2000, the Secretary shall submit to the Congress a report and recommendations on the advisability of providing financial assistance for the development of drought contingency plans in all entities that are eligible to receive assistance under subchapter II.

(Pub. L. 102-250, title I, §105, as added Pub. L. 106-566, title II, §201(b), Dec. 23, 2000, 114 Stat. 2820.)

SUBCHAPTER II—DROUGHT CONTINGENCY PLANNING**§ 2221. Identification of opportunities for water supply conservation, augmentation and use**

The Secretary is authorized to conduct studies to identify opportunities to conserve, augment, and make more efficient use of water supplies available to Federal Reclamation projects and Indian water resource developments in order to be prepared for and better respond to drought conditions. The Secretary is authorized to provide technical assistance to States and to local and tribal government entities to assist in the development, construction, and operation of water desalinization projects, including technical assistance for purposes of assessing the technical and economic feasibility of such projects.

(Pub. L. 102-250, title II, §201, Mar. 5, 1992, 106 Stat. 56.)

§ 2222. Drought contingency plans

The Secretary, acting pursuant to the Federal Reclamation laws, utilizing the resources of the Department of the Interior, and in consultation with other appropriate Federal and State officials, Indian tribes, public, private, and local entities, is authorized to prepare or participate in the preparation of cooperative drought contingency plans (hereinafter in this subchapter referred to as “contingency plans”) for the prevention or mitigation of adverse effects of drought conditions.

(Pub. L. 102-250, title II, §202, Mar. 5, 1992, 106 Stat. 56.)

§ 2223. Plan elements**(a) Plan provisions**

Elements of the contingency plans prepared pursuant to section 2222 of this title may include, but are not limited to, any or all of the following:

(1) Water banks.

(2) Appropriate water conservation actions.

(3) Water transfers to serve users inside or outside authorized Federal Reclamation project service areas in order to mitigate the effects of drought.

(4) Use of Federal Reclamation project facilities to store and convey nonproject water for agricultural, municipal and industrial, fish

and wildlife, or other uses both inside and outside an authorized Federal Reclamation project service area.

(5) Use of water from dead or inactive reservoir storage or increased use of ground water resources for temporary water supplies.

(6) Water supplies for fish and wildlife resources.

(7) Minor structural actions.

(b) Federal Reclamation projects

Each contingency plan shall identify the following two types of plan elements related to Federal Reclamation projects:

(1) Those plan elements which pertain exclusively to the responsibilities and obligations of the Secretary pursuant to Federal Reclamation law and the responsibilities and obligations of the Secretary for a specific Federal Reclamation project.

(2) Those plan elements that pertain to projects, purposes, or activities not constructed, financed, or otherwise governed by the Federal Reclamation law.

(c) Drought levels

The Secretary is authorized to work with other Federal and State agencies to improve hydrologic data collection systems and water supply forecasting techniques to provide more accurate and timely warning of potential drought conditions and drought levels that would trigger the implementation of contingency plans.

(d) Compliance with law

The contingency plans and plan elements shall comply with all requirements of applicable Federal law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321), section 2265(a) of title 33, and the Fish and Wildlife Coordination Act [16 U.S.C. 661 et seq.], and shall be in accordance with applicable State law.

(e) Review

The contingency plans shall include provisions for periodic review to assure the adequacy of the contingency plan to respond to current conditions, and such plans may be modified accordingly.

(Pub. L. 102-250, title II, §203, Mar. 5, 1992, 106 Stat. 57.)

§ 2224. Recommendations

(a) Approval

The Secretary shall submit each plan prepared pursuant to section 2222 of this title to the Congress, together with the Secretary's recom-

mendations, including recommendations for authorizing legislation, if needed.

(b) Pacific Northwest region

A contingency plan under subsection (a) for the State of Washington, Oregon, Idaho, or Montana, may be approved by the Secretary only at the request of the Governor of the affected State in coordination with the other States in the region and the Administrator of the Bonneville Power Administration.

(Pub. L. 102-250, title II, §204, Mar. 5, 1992, 106 Stat. 57.)

§ 2225. Reclamation Drought Response Fund

The Secretary shall undertake a study of the need, if any, to establish a Reclamation Drought Response Fund to be available for defraying those expenses which the Secretary determines necessary to implement plans prepared under section 2222 of this title and to make loans for nonstructural and minor structural activities for the prevention or mitigation of the adverse effects of drought.

(Pub. L. 102-250, title II, §205, Mar. 5, 1992, 106 Stat. 58.)

§ 2226. Technical assistance and transfer of precipitation management technology

(a) Technical assistance

The Secretary is authorized to provide technical assistance for drought contingency planning in any of the States not identified in section 391 of this title, and the District of Columbia, Puerto Rico, the Republic of the Marshall Islands, the Federated States of Micronesia, the Trust Territory of the Pacific Islands, and upon termination of the Trusteeship, the Republic of Palau, the United States Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands.

(b) Technology Transfer Program

The Secretary is authorized to conduct a Precipitation Management Technology Transfer Program to help alleviate problems caused by precipitation variability and droughts in the West, as part of a balanced long-term water resources development and management program. In consultation with State, tribal, and local water, hydropower, water quality and instream flow interests, areas shall be selected for conducting field studies cost-shared on a 50-50 basis to validate and quantify the potential for appropriate precipitation management technology to augment stream flows. Validated technologies shall be transferred to non-Federal interests for operational implementation.
