

and wildlife, or other uses both inside and outside an authorized Federal Reclamation project service area.

(5) Use of water from dead or inactive reservoir storage or increased use of ground water resources for temporary water supplies.

(6) Water supplies for fish and wildlife resources.

(7) Minor structural actions.

(b) Federal Reclamation projects

Each contingency plan shall identify the following two types of plan elements related to Federal Reclamation projects:

(1) Those plan elements which pertain exclusively to the responsibilities and obligations of the Secretary pursuant to Federal Reclamation law and the responsibilities and obligations of the Secretary for a specific Federal Reclamation project.

(2) Those plan elements that pertain to projects, purposes, or activities not constructed, financed, or otherwise governed by the Federal Reclamation law.

(c) Drought levels

The Secretary is authorized to work with other Federal and State agencies to improve hydrologic data collection systems and water supply forecasting techniques to provide more accurate and timely warning of potential drought conditions and drought levels that would trigger the implementation of contingency plans.

(d) Compliance with law

The contingency plans and plan elements shall comply with all requirements of applicable Federal law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321), section 2265(a) of title 33, and the Fish and Wildlife Coordination Act [16 U.S.C. 661 et seq.], and shall be in accordance with applicable State law.

(e) Review

The contingency plans shall include provisions for periodic review to assure the adequacy of the contingency plan to respond to current conditions, and such plans may be modified accordingly.

§ 2224. Recommendations

(a) Approval

The Secretary shall submit each plan prepared pursuant to section 2222 of this title to the Congress, together with the Secretary's recom-

mendations, including recommendations for authorizing legislation, if needed.

(b) Pacific Northwest region

A contingency plan under subsection (a) for the State of Washington, Oregon, Idaho, or Montana, may be approved by the Secretary only at the request of the Governor of the affected State in coordination with the other States in the region and the Administrator of the Bonneville Power Administration.

§ 2225. Reclamation Drought Response Fund

The Secretary shall undertake a study of the need, if any, to establish a Reclamation Drought Response Fund to be available for defraying those expenses which the Secretary determines necessary to implement plans prepared under section 2222 of this title and to make loans for nonstructural and minor structural activities for the prevention or mitigation of the adverse effects of drought.

(Pub. L. 102-250, title II, §205, Mar. 5, 1992, 106 Stat. 58.)

§ 2226. Technical assistance and transfer of precipitation management technology

(a) Technical assistance

The Secretary is authorized to provide technical assistance for drought contingency planning in any of the States not identified in section 391 of this title, and the District of Columbia, Puerto Rico, the Republic of the Marshall Islands, the Federated States of Micronesia, the Trust Territory of the Pacific Islands, and upon termination of the Trusteeship, the Republic of Palau, the United States Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands.

(b) Technology Transfer Program

The Secretary is authorized to conduct a Precipitation Management Technology Transfer Program to help alleviate problems caused by precipitation variability and droughts in the West, as part of a balanced long-term water resources development and management program. In consultation with State, tribal, and local water, hydropower, water quality and instream flow interests, areas shall be selected for conducting field studies cost-shared on a 50-50 basis to validate and quantify the potential for appropriate precipitation management technology to augment stream flows. Validated technologies shall be transferred to non-Federal interests for operational implementation.
