HISTORICAL AND REVISION NOTES

Revised section 14103

Source: International Convention on Tonnage Measurement of Ships.

Section 14103(a) authorizes the Secretary to delegate to a qualified person the authority to measure a vessel and issue an International Tonnage Certificate or other certificate of measurement. The term “qualified person” means an organization that the Secretary believes has the necessary qualifications to measure a vessel competently, such as the American Bureau of Shipping.

The conferees intend that in section 14103 the term “qualified person” includes not only organizations that the Secretary finds to be qualified to perform measurement duties, but any person as that term is defined in section 1 of title 1, United States Code (including individuals), that the Secretary determines qualified to perform measurement duties. The House and Senate conferees also agree that, where authorized, in addition to information required by the Secretary, regulatory tonnage should be used on all certificates and documents related to a vessel unless the owner otherwise requests.

Section 14103(b) provides for the appeal to the Secretary of a decision made by a person that has received delegated authority. This ensures that the Secretary has full oversight of delegated tonnage measurement functions.

Section 14103(c) authorizes the Secretary to delegate to a country that is a party to the International Convention on Tonnage Measurement of Ships, 1969, the authority to measure a vessel and issue an International Tonnage Certificate.

Section 14103(d) clarifies the Secretary’s authority to revoke at any time and without cause a delegation of authority to measure a vessel or issue a certificate. This authority is given so that no delay occurs administratively in revoking a delegation wherever the Secretary decides a revocation is warranted.

AMENDMENTS

2010—Subsec. (c). Pub. L. 111-281 substituted “that engages on” for “intended to be engaged on”.

§ 14104. Measurement to determine application of a law

(a) When the application of a law of the United States to a vessel depends on the vessel’s tonnage, the vessel shall be measured under this part.

(b) If a statute allows for an alternate tonnage to be prescribed under this section, the Secretary may prescribe it by regulation. Any such regulation shall be considered to be an interpretive regulation for purposes of section 553 of title 5. Until an alternate tonnage is prescribed, the statutorily established tonnage shall apply to vessels measured under chapter 143 or chapter 145 of this title.

(c) The head of each Federal agency shall ensure that regulations issued by the agency that
