§ 1003. Research, development, test, and evaluation efforts in furtherance of maritime and cargo security

(a) In general

The Secretary shall—

(1) direct research, development, testing, and evaluation efforts in furtherance of maritime and cargo security;

(2) coordinate with public and private sector entities to develop and test technologies, and process innovations in furtherance of these objectives; and

(3) evaluate such technologies.

(b) Coordination

The Secretary, in coordination with the Under Secretary for Science and Technology, the Assistant Secretary for Policy, the Commandant of the Coast Guard, the Director for Domestic Nuclear Detection,¹ the Chief Financial Officer, and the heads of other appropriate offices or entities of the Department, shall ensure that—

(1) research, development, testing, and evaluation efforts funded by the Department in furtherance of maritime and cargo security are coordinated within the Department and with other appropriate Federal agencies to avoid duplication of efforts; and

(2) the results of such efforts are shared throughout the Department and with other Federal, State, and local agencies, as appropriate.

EX. ORD. NO. 13416. STRENGTHENING SURFACE TRANSPORTATION SECURITY

Ex. Ord. No. 13416, Dec. 5, 2006, 71 F.R. 71033, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, and to strengthen the security of the Nation’s surface transportation systems and thereby enhance the protection of the people, property, and territory of the United States of America against terrorist attacks, it is hereby ordered as follows:

SECTION 1. Policy. The security of our Nation’s surface transportation systems is a national priority, vital to our economy, and essential to the security of our Nation. Federal, State, local, and tribal governments, the private sector, and the public share responsibility for the security of surface transportation. It is the policy of the United States to protect the people, property, and territory of the United States by facilitating the implementation of a comprehensive, coordinated, and efficient security program to protect surface transportation systems within and adjacent to the United States against terrorist attacks.

SEC. 2. Definitions. For purposes of this order:

(a) “agencies” means those executive departments enumerated in 5 U.S.C. 101, independent establishments as defined by 5 U.S.C. 104(1), government corporations as defined by 5 U.S.C. 103(1), and the United States Postal Service;

(b) “Secretary” means the Secretary of Homeland Security;

(c) “security guideline” means any security-related guidance that the Secretary recommends, for implementation on a voluntary basis, to enhance the security of surface transportation;

(d) “security requirement” means any “regulatory action” as defined in section 3 of Executive Order 12866 of September 30, 1993, as amended (Regulatory Planning and Review), including security directives when appropriate, to implement measures to enhance the security of surface transportation;

(e) “surface transportation modes” means mass transit, commuter and long-distance passenger rail, freight rail, commercial vehicles (including intercity buses), and pipelines, and related infrastructure (including roads and highways), that are within the territory of the United States, but does not include electric grids; and

(f) “surface transportation” means any conveyance of people, goods, or commodities using one or more surface transportation modes.

SEC. 3. Functions of the Secretary of Homeland Security. The Secretary is the principal Federal official responsible for infrastructure protection activities for surface transportation. To implement the policy set forth in section 1 of this order, the Secretary shall, consistent with the National Infrastructure Protection Plan (NIPP), in coordination with the Secretary of Transportation, and in consultation with the heads of other relevant agencies:

(a) assess the security of each surface transportation mode and evaluate the effectiveness and efficiency of current Federal Government surface transportation security initiatives;

(b) building upon current security initiatives, not later than December 31, 2006, develop a comprehensive transportation systems sector specific plan, as defined in the NIPP;

(c) not later than 90 days after the comprehensive transportation systems sector specific plan is completed, develop an annex to such plan that addresses each surface transportation mode, which shall also include, at a minimum—

(i) an identification of existing security guidelines and security requirements and any security gaps, a description of how the transportation systems sector specific plan will be implemented for such mode, and the respective roles, responsibilities, and authorities of Federal, State, local, and tribal governments and the private sector;

(ii) schedules and protocols for annual reviews of the effectiveness of surface transportation security-related information sharing mechanisms in bringing about the timely exchange of surface transportation security information among Federal, State, local, and tribal governments and the private sector, as appropriate; and

(iii) a process for assessing (A) compliance with any security guidelines and security requirements issued by the Secretary for surface transportation, and (B) the need for revision of such guidelines and requirements to ensure their continuing effectiveness;

(d) in consultation with State, local, and tribal government officials and the private sector, not later than 180 days after the date of this order, identify surface transportation modes, or components thereof, that are subject to high risk of terrorist attack, draft appropriate security guidelines or security requirements to mitigate such risks, and ensure that, prior to their issuance, draft security requirements are transmitted to the Office of Management and Budget for review in accordance with Executive Order 12866 and draft security guidelines receive appropriate interagency review;

(e) develop, implement, and lead a process, in collaboration with other agencies, State, local, and tribal governments, and the private sector, as appropriate, to coordinate research, development, testing, and evaluation of technologies (including alternative uses for commercial off-the-shelf technologies and products) relating to the protection of surface transportation, including—

(i) determining product and technology needs to inform the requirements for and prioritization of research, development, testing, and evaluation, based on the security guidelines and security requirements developed pursuant to subsection (c) of this section and
